1. RISK FACTORS

The material risk factors, which may affect Citigroup Global Markets Europe AG's (the "**Issuer**", the Issuer belonging to the Citigroup Inc. Group (Citigroup Inc. together with its subsidiaries the "**Citigroup Group**" or the "**Citigroup**")) ability to meet its obligations under the securities, are described as follows. Before deciding to purchase securities, investors should carefully read and consider the following specific risks and all of the other information contained in this Registration Document and in the relevant prospectus. The occurrence of these risks, either independently or simultaneously with other circumstances, may substantially impair the Issuer's business activities or have a material adverse effect on the Issuer's assets and liabilities, financial position and profits and losses or on the ability to trade the securities on the secondary market. The sequence in which the following risks are presented is not intended to be either an indication of the probability of their occurrence, their gravity or their importance. An investment in the securities offered by the Issuer may be subject to additional risks and issues, which are currently unknown to the Issuer or which the Issuer currently believes are immaterial, but which could likewise impair the Issuer's business and business prospects and have a material adverse effect on the Issuer's assets and liabilities, financial position and profits and losses. **Investors may lose all or part of their investment (risk of total loss) if the Issuer is unable to meet its obligations under the securities or if the price of their securities falls as a result of the occurrence of one or more of the risks described herein, or if the securities can no longer be traded on the secondary market.**

1.1 Credit risks

The Issuer is exposed to the risk that third parties which owe the Issuer money, securities or other assets will not perform their obligations. These parties include the Issuer's clients, trading counterparties, clearing agents, exchanges, clearing houses and other financial institutions. These parties may default on their obligations to the Issuer due to lack of liquidity, operational failure, bankruptcy or other reasons.

The Issuer differentiates these credit risks between settlement risks and pre-settlement exposures. The settlement risk is the risk incurred by the Issuer if the Issuer duly performs under a contract on settlement day, but the client does not perform. The pre-settlement exposure is the risk incurred by the Issuer if the client is unable to meet its obligations under a contract and the Issuer must therefore cover the position in the market again.

1.2 Market price risks

The market risk is the risk of making a loss as a result of changes in market prices, in particular as a result of changes in foreign exchange rates, interest rates, equity and commodities prices as well as price fluctuations of goods and derivatives. Market risks result primarily because of an adverse and unexpected development in the economic environment, the competitive position, the interest rates, equity and exchange

rates as well as in the prices of commodities. Changes in market price may, not least, result from the extinction of markets and accordingly no market price may any longer be determined for a product. Credit and country specific risks or internal events resulting from price movements of the underlying assets are also considered as market risk.

The most important types of trading businesses offered by the Issuer from a risk perspective are:

- Warrants in equity, commodity and foreign exchange assets as well as the corresponding hedging transactions
- Issuance and trade in investment certificates in equity, commodity and foreign exchange as well as the corresponding hedging transactions
- Money market transactions with credit institutions (reverse repo) are booked only for the refinancing of the unit/entity
- Interest rate swaps & interest rate futures, mainly to hedge interest rate positions

For measuring the derivative trading activities, the Issuer is connected to the group-wide risk monitoring system. It cannot be ruled out that risk monitoring system do not or not sufficiently identify risks and/or that respective measures for the compensation of risks are not sufficient. The Issuer may incur losses as a result of ineffective risk management processes and strategies.

1.3 Liquidity risks

Liquidity is the ability of a financial institution to fund increases in assets and meet obligations. Liquidity risk is the risk that the firm will not be able to efficiently meet both expected and unexpected current and future cash flow and collateral needs. The Issuer is managed in accordance within the liquidity risk section of the minimum requirements for risk management (*Mindestanforderungen an das Risikomanagement - MaRisk*) issued by the Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungen - BaFin*) as well as Citi' Liquidity Risk Management Policy. The Corporate Treasury department is responsible for liquidity management, while Risk Management is responsible for monitoring the resulting liquidity risks.

If the Issuer faces liquidity shortenings, then the Issuer may not be able to fulfill its obligations under the issued securities in a timely manner or at all.

1.4 Risk of disrupted securities clearing and settlement or disrupted exchange trading

Whether the investor buys or sells his securities, exercises the rights of the securities or receives payment of the redemption amount by the Issuer, all these events can only be affected by the Issuer with the support of third parties such as clearing banks,

stock exchanges, the depository agent, the depository bank of the investor or various institutions involved in financial transactions. If, for whatever reason, the ability of such participating parties to provide their services is impaired, then for the period of such disruption, the Issuer will not be able to accept an exercise of any securities rights or to deliver on any securities trades or to pay the disbursement amount upon final maturity. Possible reasons of a disruption of the securities settlement on the part of the Issuer or on the part of the third parties necessary for securities settlement include, for example, technical disruptions as a result of power failures, fires, bomb threats, sabotage, computer viruses, computer errors or attacks. The same applies in the event such disruptions occur at the security holder's custodian bank. The consequence of a disruption of the securities clearing and settlement or a disruption of the exchange trading would be a delay in the settlement of the transactions concerned.

1.5 Issuer risk due to the hive-down of the Banking Business

On 27 April 2018 ("**Closing Date**") the banking business of the Issuer (in particular the Treasury & Trade Solutions (TTS), Corporate Lending, Treasury Activities & Own Issuances and Issuer Services business units, hereinafter collectively referred to as "**Banking Business**"), which has so far been operated by the Issuer, was transferred to Citibank Europe plc. The Issuer's warrants and certificates business was not affected by these measures. The Banking Business was transferred by way of a hive-down and new formation (*Ausgliederung zur Neugründung*) pursuant to § 123 (3) no. 2 of the German Corporate Transformation Act (*Umwandlungsgesetz*; "**UmwG**") to a newly established German limited partnership (*Kommanditgesellschaft*) ("**Hive-Down Vehicle**") whose limited partner (*Kommanditist*) was the Issuer and whose general partner (*Komplementär*; personally liable partner) was Citibank Europe plc. When the hive-down took effect by means of its registration in the commercial register, the Issuer sold and transferred its limited partnership interest in the Hive-Down Vehicle to the general partner. Therefore, all partnership assets (including any related liabilities) of the Hive-Down Vehicle (in particular the assets of the former Banking Business) were transferred, automatically and by virtue of law, to Citibank Europe plc by way of universal succession ("**Accretion**").

The protection of the Issuer's creditors with respect to the liabilities transferred as part of the hive-down and the liabilities remaining with the Issuer is governed by § 125 UmwG in conjunction with §§ 22, 133 UmwG. Pursuant to these provisions, the Issuer and the Hive-Down Vehicle are, in relation to third parties, jointly and severally liable to the creditors for any liabilities of the Issuer which have been created prior to the Closing Date ("**Legacy Liabilities**"). The Issuer is, in principle, jointly and severally liable for a period of five years. The period applicable to pension liabilities under the German Company Pensions Act (*Betriebsrentengesetz*) is ten years. As between themselves, the Issuer and the Hive-Down Vehicle will have compensation claims against each other if they are held liable. In deviation from the relevant statutory provision, the Issuer and the Hive-Down Vehicle agreed that (i) the Hive-Down Vehicle will be liable for Legacy Liabilities relating to the Banking Business and (ii) the Issuer will only be liable for Legacy Liabilities relating to any of the business units remaining

with the Issuer. Accordingly, they will have mutual contractual claims for indemnification.

As of the date of the Accretion, any contractual claims for indemnification are claims against Citibank Europe plc, which assumes the legal position of the Hive-Down Vehicle.

If the Issuer is held liable by a creditor, the Issuer will therefore be exposed to the risk that Citibank Europe plc does not or cannot meet its indemnification obligation due to lack of liquidity, operational failures, insolvency or other reasons. In this case, the Issuer will independently be economically liable to creditors for the corresponding Legacy Liabilities with the assets remaining with the Issuer.

In addition, even after its withdrawal as limited partner of the Hive-Down Vehicle, the Issuer continues, for a period of five years, to be liable for any liabilities of the Hive-Down Vehicle which have been created prior to the date of its withdrawal. In this case, however, the Issuer's liability is limited to the amount of the liable contribution (*Haftsumme*) registered in the commercial register (1,000 euros).

If the Issuer is held liable for Legacy Liabilities and if Citibank Europe plc does not fulfill its indemnification obligation due to lack of liquidity, operational failures, insolvency or other reasons, or if it cannot meet them, it may materially adversely affect the financial condition of the Issuer.

1.6 Risks due to the Bank Recovery and Resolution Directive and the German Restructuring and Resolution Act

At European level, the EU institutions have enacted an EU Directive which defines a framework for the recovery and resolution of credit institutions (the so-called *Bank Recovery and Resolution Directive*, the “**BRRD**”) as well as the regulation (EU) No.806/2014 of the European Parliament and the Council of 15 July 2014 (the Single Resolution Mechanism – “**SRM**”) which has entered into force in substantial parts on 1 January 2016 and establishes a uniform winding-up procedure within the euro area. The BRRD has been implemented in the Federal Republic of Germany by the Restructuring and Resolution Act (*Sanierungs- und Abwicklungsgesetz* – “**SAG**”). The SAG came into force on 1 January 2015 and grants significant rights for intervention of the Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungen* – “**BaFin**”) and other competent authorities in the event of a crisis of credit institutions or of investment firms, including the Issuer.

The SAG empowers the competent national resolution authority to apply resolution measures. BaFin has been the national resolution authority in Germany since 1 January 2018. It has taken over this task from the previously responsible Financial Market Stabilisation Authority (*Bundesanstalt für Finanzmarktstabilisierung* - “**FMSA**”).

Subject to certain conditions and exceptions, the BaFin is empowered to permanently write down liabilities of the institutions, including those from warrants and certificates issued by the Issuer (“Bail-in”), or to convert them into equity instruments. Furthermore, the debtor of the warrants and certificates (therefore the Issuer) can obtain an-

other risk profile than originally or the original debtor can be replaced by another debtor (who can possess a fundamental other risk profile or another solvency than the Issuer) following resolutions of the BaFin with regard to the SAG. Any such regulatory measure can significantly affect the market value of the warrants and certificates as well as their volatility and might significantly increase the risk characteristics of the investor's investment decision. Investors in warrants and certificates may lose all or part of their invested capital in a pre-insolvency scenario (risk of total loss).

1.7 Risks due to the Federal Deposit Insurance Act and the Dodd-Frank Wall Street Reform and Consumer Protection Act

In the fall of 2017 the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation and the Office of the Comptroller of the Currency issued rules ("**QFC Stay Rules**") designed to improve the resolvability and resilience of U.S. global systemically important banking organizations ("**G-SIBs**") and the U.S. operations of foreign G-SIBs, by mitigating the risk of destabilizing closeouts of qualified financial contracts ("**QFCs**") in resolution. Citigroup, Inc. and its subsidiaries, including the Issuer, are "covered entities" subject to the QFC Stay Rules. The securities may qualify as QFCs.

The QFC Stay Rules seek to eliminate impediments to the orderly resolution of a G-SIB both in a scenario where resolution proceedings are instituted by the U.S. regulatory authorities under the Federal Deposit Insurance Act or the Orderly Liquidation Authority under Title II of the Dodd Frank Act ("**OLA**") (together, the "**U.S. Special Resolution Regimes**") as well as in a scenario where the G-SIB is resolved under ordinary insolvency proceedings. To address this, the QFC Stay Rules require covered entities to ensure that their QFCs subject to the QFC Stay Rules (i) contain an express contractual recognition of the statutory stay-and-transfer provisions of the U.S. Special Resolution Regimes and (ii) do not contain cross-default rights against the covered entity based on an affiliate becoming subject to any type of insolvency proceeding or restrictions on the transfer of any related credit enhancements (including a guaranty) issued by an affiliate of the covered entity following the affiliate's entry into insolvency proceedings.

Acknowledgement of U.S. Special Resolution Regimes

To address these requirements, the securities contain an express contractual recognition that in the event the Issuer becomes subject to a proceeding under a U.S. Special Resolution Regime, the transfer of the securities will be effective to the same extent as the transfer would be effective under such U.S. Special Resolution Regime. In addition, the securities contain an express contractual recognition that in the event the Issuer or any of its affiliates becomes subject to a proceeding under a U.S. Special Resolution Regime, default rights against the Issuer with respect to the securities are permitted to be exercised to no greater extent than they could be exercised under such U.S. Special Resolution Regime. For these purposes, "default rights" include the right to terminate, liquidate or accelerate a QFC or demand payment or delivery thereunder, and may therefore include the right of a security holder to exercise a se-

curity at any time (for warrants with an American type of exercise or open end certificates).

Under current law, the Issuer, as a non-U.S. entity, is not eligible to be placed into proceedings under the U.S. Special Resolution Regimes.

1.8 Brokering of transactions for other Group companies and allocation of work within Citigroup Group

The vast majority of the Issuer's brokerage commission income is income from transfer pricing arrangements, which the Issuer receives for brokering transactions between the Issuer's customers and the various Citigroup companies. The Issuer is remunerated using a global settlement model (Global Revenue Allocation, "GRA"), which primarily provides for a revenue split. This applies to all major business areas. The Issuer enjoys a close working relationship in all areas, primarily with Citigroup Global Markets Limited, London, Citibank Europe plc, Dublin, and Citibank, N.A., London.

If a decision is taken within the Citigroup Group that the responsibilities in question should be reallocated among other Group companies, then the Issuer could lose a significant source of income.

1.9 Trading risks related to derivative securities issued by the Issuer

The most important trading risks in warrants trading and/or in the issuance of other derivative instruments by the Issuer are the settlement and/or replacement risks associated with the Issuer's counterparties (specifically the end customers' own banks or brokers) when clearing and settling trades in the issued securities, and the risks that remain after extensive hedging of open positions, which were entered into when the securities were issued.

In order to cover the open positions resulting from the issued securities, the Issuer will execute hedging transactions, which are linked to various risk variables in the risk model used by the Issuer, such as the relevant underlying, the volatility of the underlying, the term to expiry, the expected dividends or the interest rate. Particularly worthy of mention in this context are the risks arising from changes in the volatility of the underlying and so-called "gap risks" as a result of unexpected jumps in the price of the underlying, which can generate losses above all where hedging transactions are executed in order to cover sold knock-out securities. At best, the Issuer can to a large extent close out the open risk positions resulting from the issued securities, but it will be unable to close them out completely or enter into matching positions for all open positions.

If a counterparty of the Issuer defaults, and such counterparty also happens to be one of the Issuer's important sales partners, clearing and settling a large number of customer transactions with the Issuer each day, then there is a risk that hedging transactions, which are entered into by the Issuer before completing the relevant trade in or-

der to close out a risk position arising from transactions in its own securities previously executed with such party, cannot be closed or have to be closed and need to be unwinded afterwards because of the counterparty's default.

Likewise, the default of one of the Issuer's other counterparties with whom a large number of hedging transactions have been executed could also expose the Issuer to liquidity shortenings, if new or higher costs have to be incurred in order to replace the original contracts.

1.10 Pension fund risk

Pension fund risks are risks for which a subsequent contribution for a financial loss resulting from an economic loss results in one of the Issuer's responsible pension funds. If the issuer has to make any subsequent contributions, this may adversely affect the financial position of the Issuer.

1.11 Operating risks

- **Outsourcing risk**

The Issuer has outsourced many functions that are essential for duly managing and controlling its transactions and the risks resulting therefrom to other companies within and outside of the Citigroup Group. If the companies to which such functions have been outsourced fail to comply with their contractual obligations within the prescribed time or at all, then this could also impair the Issuer's ability to timely meet its own obligations under the issued securities.

- **Settlement risk**

There is a risk that a business transaction is incorrectly processed or that a transaction is executed which is different from the intentions and expectations of the Issuer's management.

- **Information risk**

There is a risk that information, which was generated, received, transmitted or stored within or outside the Issuer's place of business, can no longer be accessed. Furthermore, such information may be of poor quality, or have been wrongly handled or improperly obtained. The information risk also includes risks that are generated by systems and used for processing information.

- **Personnel risk**

The Issuer has a high demand for qualified and specially trained professionals and managers. Personnel risk entails the risk of high staff turnover and the risk that the Issuer will be unable to retain a sufficient staff of qualified personnel, as well as the risk that the Issuer's employees may knowingly or negligently violate established regulations or the firm's business ethics standards.

- Risks of fraud

There are risks of fraud, i.e. both internal and external risks of fraud such as bribery, insider trading and theft of data.

- Reputational risk

There is a reputation risk that results from damage to customer relationships as a result of inadequate services or incorrect execution of business transactions. There is also the risk of entering into business relationships with counterparties whose business practices do not comply with the standards or business ethics of the Issuer.

The risks described above can have a negative impact on the customer relationship or the relationship with the local supervisory authorities.

1.12 Tax risks

The tax assessment notices served on the Issuer are typically provisional and made subject to an audit by the German tax authorities or a decision on specific issues by the relevant courts. This is a common procedure that allows tax authorities – in connection with a tax audit or following a general tax ruling by a competent tax court – to levy additional taxes years after a tax assessment was issued.

Additional tax claims can have a significant negative impact on the financial position of the Issuer.

1.13 Legal and regulatory risks

The Issuer views legal risks as any and all risks resulting from binding contracts and governing legislation. Regulatory risks result from the legal environment in which the Issuer does business.

The realization of legal risks or an increase in regulatory requirements may significantly increase the Issuer's operating expenses and may have negative impacts on the financial position of the Issuer.

2. PUBLICATION AND VALIDITY OF THE REGISTRATION DOCUMENT

This Registration Document will be published by being made available free of charge at the Issuer's business address (Citigroup Global Markets Europe AG, New Issues Structuring, Frankfurter Welle, Reuterweg 16, 60323 Frankfurt am Main) as of the day of its approval by the Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungen* – BaFin). In addition, the Registration Document will be published in electronic form on the Issuer's website www.citifirst.com (under the rider Products>Legal Documents>Registration Forms).

This Registration Document shall be valid for twelve months after its approval; this Registration Document solely represents the status of the information contained in it at the date of the Registration Document.

The Issuer may choose to produce a new registration document to replace this Registration Document whenever significant new information regarding the Issuer is available.

THIS REGISTRATION DOCUMENT DOES NOT CONSTITUTE AN OFFER TO SELL OR THE SOLICITATION OF AN OFFER TO BUY ANY SECURITY OR TO ENTER INTO ANY AGREEMENT AND CITIGROUP GLOBAL MARKETS EUROPE AG IS NOT SOLICITING ANY ACTION BASED UPON IT. NOBODY HAS BEEN AUTHORISED BY CITIGROUP GLOBAL MARKETS EUROPE AG TO RELEASE MORE INFORMATION OR CONFIRMATIONS THAN PROVIDED IN THIS REGISTRATION DOCUMENT. IF THOSE INFORMATION AND CONFIRMATIONS ARE STILL GIVEN, INVESTORS SHOULD NOT RELY ON THEM AS IF THEY WERE AUTHORISED BY CITIGROUP GLOBAL MARKETS EUROPE AG.

3. PERSONS RESPONSIBLE

Citigroup Global Markets Europe AG, Frankfurter Welle, Reuterweg 16, 60323 Frankfurt am Main, accepts responsibility for the information contained in this Registration Document. The Issuer is entered in the commercial register of the Local Court of Frankfurt/Main under registration number HRB 88301.

The Issuer declares that to the best of its knowledge the information contained in this Registration Document is correct and no material facts have been omitted.

Where information in this Registration Document has been sourced from a third party, the Issuer confirms that this information has been accurately reproduced and that as far as the Issuer is aware and is able to ascertain from information published by that third party, no facts have been omitted which would render the reproduced information inaccurate or misleading.

4. STATUTORY AUDITORS

The statutory auditor of the Issuer during the period covered by the historical financial statements in this Registration Document (short fiscal year from 28 April 2018 through 31 December 2018, short fiscal year from 1 January 2018 through 27 April 2018 and fiscal year from 1 January 2017 through 31 December 2017) was and respectively is

KPMG AG
Wirtschaftsprüfungsgesellschaft
THE SQUAIRE
Am Flughafen
60549 Frankfurt am Main.

The Issuer's statutory auditor is a member of the chamber of auditors listed below:

Wirtschaftsprüferkammer
Körperschaft des öffentlichen Rechts
Rauchstraße 26
10787 Berlin

5. BUSINESS HISTORY, DEVELOPMENT AND REGISTERED OFFICE OF THE ISSUER

5.1 Business history of the Issuer

The Issuer is Citigroup Global Markets Europe AG, Frankfurt am Main.

The Issuer was founded in Germany and is entered in the commercial register of the Local Court of Frankfurt/Main under registration number HRB 88301.

Prior to the merger of Citigroup Global Markets Deutschland GmbH with Citibank AG & Co. KGaA on 12 September 2003, the Issuer conducted business under the name Citibank AG & Co. KGaA.

Citibank AG & Co. KGaA emerged from the organic restructuring of Citibank Aktiengesellschaft on 4 August 2003. Citibank Aktiengesellschaft had operated under this name since 7 October 1992 and, prior thereto, had conducted business as Citibank Invest Kapitalanlagegesellschaft mbH. In connection with the reorganisation of the Citicorp companies in Germany, Citibank Invest Kapitalanlagegesellschaft took over the banking operations from the former Citibank AG, which was then renamed Citibank Beteiligungen Aktiengesellschaft.

Citigroup Global Markets Deutschland GmbH emerged on 4 August 2003 from an organic restructuring of Citigroup Global Markets Deutschland AG, which until 4 April 2003 had traded under the name of Salomon Brothers AG. Upon the merger of Citigroup Global Markets Deutschland GmbH into Citibank AG & Co. KGaA, any and all rights and duties of Citigroup Global Markets Deutschland GmbH passed automatically to Citibank AG & Co. KGaA as the universal legal successor (*Gesamtrechtsnachfolger*). Citigroup Global Markets Deutschland GmbH was dissolved.

Spin-off agreement 2008

Prior to the reorganisation of the German part of Citigroup in 2008, which is described in more detail below, the sole shareholder of both the Issuer, formerly Citigroup Global Markets Deutschland AG & Co. KGaA, and the former general partner of the Issuer, Citigroup Global Markets Management AG, was Citicorp Deutschland GmbH, which in turn was a wholly-owned subsidiary of Citigroup Global Markets Finance Corporation & Co. beschränkt haftende KG. Citigroup Global Markets Finance Corporation & Co. beschränkt haftende KG committed to transfer, inter alia, all of its shares in Citicorp Deutschland GmbH to a third party. However, the Issuer, formerly Citigroup Global Markets Deutschland AG & Co. KGaA, and its former general part-

ner, Citigroup Global Markets Management AG, were explicitly excluded from this transfer.

In order to retain the Issuer, formerly Citigroup Global Markets Deutschland AG & Co. KGaA, and its former general partner, Citigroup Global Markets Management AG, within the German Citigroup Group a spin-off was carried out. Citicorp Deutschland GmbH agreed to transfer to Citigroup Global Markets Finance Corporation & Co. beschränkt haftende KG with retroactive effect as of 2 January 2008 (i) all shares in the Issuer, (ii) all shares in the Issuer's former general partner, (iii) the control and profit (loss) transfer agreement between Citicorp Deutschland GmbH as controlling entity and the Issuer as controlled entity, (iv) the control profit (loss) transfer agreement between Citicorp Deutschland GmbH as controlling entity and the Issuer's former general partner as controlled entity, and (v) the silent partnership agreement between Citicorp Deutschland GmbH as silent partner and the Issuer. The spin-off agreement has become effective on 25 September 2008.

The sole managing general partner of the Issuer was Citigroup Global Markets Management AG, Frankfurt am Main. The sole limited shareholder was Citigroup Global Markets Finance Corporation & Co. beschränkt haftende KG, which was also the sole shareholder of Citigroup Global Markets Management AG.

Change in legal form of the Issuer and merger of its former general partner 2010

On 17 September 2009, Citigroup Global Markets Deutschland AG & Co. KGaA has changed its fiscal year by resolution of the General Meeting. With effect from 1 December 2009 the fiscal year began on 1 December of each year and ended on 30 November of the following year. The reporting year 2009 therefore was a short fiscal year which began on 1 January 2009 and ended on 30 November 2009.

In order to simplify the current group structure in Germany and to achieve associated reductions in costs, the annual general meeting of the Issuer further resolved on 21 April 2010 to transform the Issuer into a public limited company (*Aktiengesellschaft*) under German law and henceforth operate under the name Citigroup Global Markets Deutschland AG. The change in legal form became effective on 10 June 2010 when it was filed in the commercial register.

In addition and following the change in legal form of Citigroup Global Markets Deutschland AG & Co. KGaA, Citigroup Global Markets Management AG was merged with the Issuer. Upon completion of the merger, which became effective on 23 June 2010 when it was filed in the commercial register, Citigroup Global Markets Management AG as the Issuer's former general partner ceased to exist. All rights and obligations passed automatically to the Issuer as its universal legal successor (*Gesamtrechtsnachfolger*).

Exit of the silent partner as of 30 November 2015

The silent partner contribution of Citigroup Global Markets Finance Corporation & Co. beschränkt haftende KG was repaid by the Issuer as of 30 November 2015. As contribution therefore, the Issuer received a capital infusion from Citigroup Global Markets Finance Corporation & Co. beschränkt haftende KG for the same amount, which

was then apportioned to the Issuer's capital reserves. These transactions resulted in an increase in the regulatory equity capital.

Change of fiscal year as of 1 January 2017

On 29 August 2016, and pursuant to a shareholder resolution Citigroup Global Markets Deutschland AG & Co. KGaA elected to change its fiscal. The fiscal year had previously begun on 1 December of a given year and ended on 30 November of the following year. Effective 1 January 2017, the fiscal year will begin on 1 January of a given year and end on 31 December of the same year. A short financial year has been established for the period of 1 December through 31 December 2016.

Restructuring of business activities in April 2018

On 27 April 2018 the banking business of the Issuer (in particular the Treasury & Trade Solutions (TTS), Corporate Lending, Treasury Activities & Own Issuances and Issuer Services business units, hereinafter collectively referred to as "**Banking Business**"), which has so far been operated by the Issuer, was transferred to Citibank Europe plc. The Banking Business was transferred to a German limited partnership by way of a hive-down and new formation pursuant to § 123 (3) no. 2 of the German Corporate Transformation Act (*Umwandlungsgesetz*; "**UmwG**"), followed by an accretion at Citibank Europe plc. Following the completion of the transfer, the ownership structure of the Issuer has been changed within the Group.

Hive-down of the Banking Business

As transferring entity, the Issuer transferred all assets, rights and liabilities predominantly allocable to the Banking Business to a newly established German limited partnership ("**Hive-Down Vehicle**") as acquiring entity by way of partial universal succession, in return for a limited partnership interest in the Hive-Down Vehicle involving a limited partnership contribution (contribution under the partnership agreement (*Pflichteinlage*) and liable contribution (*Haftsumme*)) of 1,000 euros. The general partner (*Komplementär*; personally liable partner) of the Hive-Down Vehicle was Citibank Europe plc. The assets, rights and liabilities of the Issuer which were not allocable to the Banking Business – in particular the Issuer's own issuances business – were not transferred to the Hive-Down Vehicle and are therefore not affected by this measure.

The hive-down effective date was 1 January 2018, 00.00 hrs. From this point in time onwards, the Issuer's actions and transactions with respect to the Banking Business have, in the internal relationship between the parties, been deemed to have been made for the account of the Hive-Down Vehicle.

The hive-down plan was notarised on 13 April 2018 and the hive-down took effect upon its registration in the Issuer's commercial register on 27 April 2018 ("**Closing Date**"). At that point in time, the assets belonging to the Banking Business (including any related liabilities) were transferred to the Hive-Down Vehicle by way of partial universal succession.

Accretion of the Banking Business at Citibank Europe plc

Upon registration of the hive-down on the Closing Date, the Issuer sold and transferred its limited partnership interest in the Hive-Down Vehicle to the only other partner of the Hive-Down Vehicle, Citibank Europe plc. Thus, all partnership assets of the Hive-Down Vehicle (in particular the Banking Business) were transferred, automatically and by virtue of law, to Citibank Europe plc by way of universal succession ("**Accretion**").

Change in the ownership of the Issuer

Upon registration of the hive-down in the Issuer's commercial register and the accretion on the Closing Date, the Issuer's previous parent company, Citigroup Global Markets Finance Corporation & Co. beschränkt haftende KG, sold and transferred the shares in the Issuer held by it to Citigroup Global Markets Limited with registered office in London, United Kingdom. Thus, Citigroup Global Markets Limited has become the new parent company of the Issuer. With effect from 24.00 hrs on the Closing Date, the existing control and profit (loss) transfer agreement between the Issuer and its current parent company was terminated.

Change of fiscal year as of 28 April 2018

On 31 January 2018, and pursuant to a shareholder resolution Citigroup Global Markets Deutschland AG elected to change its fiscal again. Effective 28 April 2018, the fiscal year will begin on 28 April of a given year and end on 27 April of the following year. A short financial year has been established for the period of 1 January 2018 through 27 April 2018.

Change in the name of the Issuer as of 15 June 2018 and change of fiscal year

The General Meeting of the Issuer resolved on 30 May 2018 to henceforth operate under the name Citigroup Global Markets Europe AG. The change in the name became effective on 15 June 2018 when it was registered in the commercial register.

In addition, Citigroup Global Markets Deutschland AG has changed its fiscal year pursuant to the resolution of the General Meeting on 30 May 2018. Recently, the fiscal year began on 28 April of a year and ended on 27 April of the following year. Effective 1 January 2019, the fiscal year will begin on 1 January of a given year and end on 31 December of the following year. A short financial year has been established for the period of 28 April 2018 through 31 December 2018.

5.2 Development of the Issuer

On 27 April 2018 the banking business of the Issuer (in particular the Treasury & Trade Solutions (TTS), Corporate Lending, Treasury Activities & Own Issuances and Issuer Services business units), which has so far been operated by the Issuer, was transferred to Citibank Europe plc. The Issuer's warrants and certificates business was not affected by these measures. The Issuer's remaining activities will continue to be conducted in the form of a securities trading bank.

On 27 April 2018 the Issuer's previous parent company, Citigroup Global Markets Finance Corporation & Co. beschränkt haftende KG, sold and transferred the shares in the Issuer held by it to Citigroup Global Markets Limited with registered office in London, United Kingdom. Thus, Citigroup Global Markets Limited has become the new parent company of the Issuer.

For further information on the restructuring see sub-heading "*Restructuring of business activities in April 2018*" above, under "*5.1 Business history of the Issuer*".

With the exception of the restructuring mentioned under "*5.1 Business history of the Issuer*", there have been no significant events that may have a material impact on the assessment of the Issuer's solvency.

5.3 Registered office of the Issuer

The Issuer has its registered office in Frankfurt am Main and has branch offices in London, Madrid, Milan and Paris.

The Issuer is a public limited company (*Aktiengesellschaft*), which is organised under the laws of Germany.

The Issuer's address is:

Citigroup Global Markets Europe AG
Frankfurter Welle
Reuterweg 16
60323 Frankfurt am Main
Germany
Telephone: +49 (0) 69-1366-0

6. BUSINESS OVERVIEW OF THE ISSUER

6.1 Principal Activities

6.1.1 Overview

The Issuer is a securities trading bank, offering companies, governments and institutional investors comprehensive financial strategies in investment banking, fixed income, foreign exchange and equities and derivatives. In addition, it is also a major issuer of warrants and certificates, the final acquirers of which are mainly private customers. Furthermore, the Issuer's business line has also included Citi Private Bank – Family Office Coverage Germany and Covered Bond Research.

6.1.2 Equity, Warrants and Certificates, Equity & Derivative Sales

(a) Warrants and Certificates

The Issuer issues warrants, knock-out warrants (turbo warrants), Factor/Leverage & Short Certificates and other derivative certificates (investment products). The products are primarily distributed in Germany and beyond that in Finland, France, the Netherlands, Portugal and other countries, as the case may be.

The securities reference primarily shares, share indexes, exchange rates, futures, commodities and structured underlyings. The publicly offered securities are listed on exchanges and are sold almost exclusively through its own dealer sales either continuously over stock exchanges or off-exchange (particularly warrants) or - in the case of certain certificates subject to subscription periods - are offered through its own dealer sales or through distribution partners. In the case of warrants, OTC sales concluded with institutes that are linked to the electronic trading system CATS actually exceed sales generated on stock exchanges. The main part of the Issuer's equities business are the trading transactions, especially exchange-traded futures on shares and share indexes, which the Issuer executes in order to hedge the warrants and certificates it has sold. The Issuer's London branch executes the hedging transactions for securities related to the aforementioned underlyings.

(b) Equity Sales and Sales-Trading

The Equity Sales Department is divided into the Global Equity Sales Desk (for advising and consulting institutional investors on the purchase and sale of global equities); the Program Trading Desk (for marketing portfolio products); and the Global Sales Trading Desk (to serve as an interface when advising on customer order placements, order taking and order forwarding to the other Citigroup Trading Desks). The Equity Sales Trading Department forwards customer orders for execution to the relevant trading areas, e.g. of Citigroup Global Markets Limited, London or Citigroup Global Markets Inc., New York.

(c) Equity Derivative Sales

The Equity Derivative Sales Department offers investments in equity and index-linked derivatives to institutional clients. Such derivatives generally include options, futures, swaps or delta-1 certificates.

6.1.3 Fixed Income Sales

(a) Fixed Income Sales

The Issuer also supports its customers in hedging existing financial risks or in solving individual financial issues by brokering structured interest and credit derivatives, which serve to hedge interest and foreign exchange risks in virtually all currencies (Fixed Income Sales). The services for structured products, for fixed income products and of all types and asset-backed securities products, for highly liquid fixed income

products and for fixed income and currency products on new markets (Emerging Markets) are performed by Fixed Income Sales.

The transactions of Debt Capital Markets and Fixed Income Sales are brokered by the Issuer's employees to Citigroup Global Markets Limited, London and to other group companies.

(b) Foreign Exchange Management

The Issuer brokers currency options, currency derivatives and currency spot and forward transactions for its customers through its employees to the London office of Citibank N.A, Citibank Europe plc, Dublin (London Branch), and Citigroup Global Markets Limited, London.

6.1.4 Banking, Capital Markets & Advisory (BCMA)

BCMA comprises Corporate and Investment Banking (CIB) and Capital Markets Origination (CMO).

(a) Corporate and Investment Banking (CIB)

The CIB division is responsible for cross-product advisory activities for customers through coordinating activities for all products and services that these customers use at Citigroup worldwide. The advice on mergers and acquisitions (M&A) and corporate financing for syndicated and bilateral loans are also assigned to the CIB line of business.

On the basis of long-term established and sustainable customer relationships, the CIB line of business is in a position to offer its customers a full range of products and thus realize competitive advantages through closely interlinked cooperation with the Markets & Securities Services business units and other group units of Citigroup.

The CIB business area's task is to expand its market position as one of the first points of contact for strategic corporate finance topics, such as acquisitions and capital market financing, as well as for the operational processing of cash flows. Unlike many other market players, CIB offers a wide range of advisory and financial services for institutional clients, benefiting from Citigroup's global presence.

The episodic business comprises M&A consulting as well as equity (including initial public offerings) and debt instruments. Equity instruments (Equity Capital Markets) and debt instruments (Debt Capital Markets) are allocated to the business area Capital Markets Origination within BCMA.

(b) Capital Markets Origination (CMO)

Equity Capital Markets comprises the entire range of products for raising equity capital through listed companies. This includes the placement and settlement of IPOs and capital increases. In addition, Equity Capital Markets supports clients in the placement shares or block trades.

Debt Capital Markets supports Group companies in the acquisition and structuring of new issues of interest bearing securities and related transactions for customers of the private (companies and financial institutions) and public (federal government and federal states) sectors in Germany and Austria and supports customers in the issue and placement of such securities (Debt Capital Markets).

The individual transactions can be concluded in any currency, depending on the customer's requirements or market conditions. Transactions can be structured as securities, loans or promissory notes and can be marketed either by a consortium or alone.

6.1.5 Citi Private Bank – Family Office Coverage Germany

The Issuer supports Citigroup's Private Banking business in respect of assistance to family offices in Germany (so-called Family Offices) and asset management companies and foundations. In this area the Issuer only arranges business activities and marketing activities for other group entities and business lines within Citigroup.

6.1.6 Fixed Income Research: Covered Bond and Sub-Sovereign, Supras and Agency (“SSA”) Research

As part of the Interest Strategy Team located in London, the local research team concentrates on primary and secondary market developments and regulatory changes within the various segments of the covered bond market and the SSA markets denominated in Euro. In addition, interest rate futures are also analyzed.

6.1.7 Treasury

Corporate Treasury's main responsibilities are to manage the liquidity risk of the Issuer and ensure that it is adequately funded and capitalized. Corporate Treasury achieves this by managing the Issuer to a set of liquidity and capital metrics. Corporate Treasury work closely with Businesses, Risk, Finance and Operations to assess funding, liquidity and capital risks and requirements. The Asset and Liability Committee is the key forum where these topics are pulled together and discussed at a senior level.

6.1.8 Special significance of brokering transactions for other Citigroup companies

The vast majority of the Issuer's brokerage commission income is income from transfer pricing arrangements, which the Issuer receives for brokering transactions between the Issuer's customers and the various Citigroup companies. The Issuer is remunerated using a global settlement model (Global Revenue Allocation, “GRA”), which primarily provides for a revenue split. This applies to all major business areas. The Issuer enjoys a close working relationship in all areas, primarily with Citigroup

Global Markets Limited, London, Citibank Europe plc, Dublin, and Citibank, N.A., London.

The income generated by brokering transactions entails no risks of credit default and market price.

6.1.9 Derogation from generally described business procedures

In general, the Issuer is authorised to handle any and all transactions that are permissible under the Issuer's articles of association and/or licence. Where this Registration Document describes the procedures by which transactions relating to certain business areas are brokered to other enterprises within the Citigroup Group, such procedures may be deviated from at any time, particularly in individual cases.

6.2 Principal markets

The principal market on which the Issuer conducts business is Germany.

7. ORGANISATIONAL STRUCTURE OF THE ISSUER

The Issuer is a member of the German subgroup of Citigroup. As a public limited company, it is managed by the executive board. The Issuer is 100% owned by Citigroup Global Markets Limited with registered offices in London which in turn is an indirect wholly owned subsidiary of Citigroup Inc. (USA).

The rest of this page has been deliberately left blank.

Schedule: Affiliation of the Issuer with the German subgroup of Citigroup

8. TREND INFORMATION

The Issuer hereby declares that there have been no material adverse changes in the prospects of the Issuer since the date of its last audited financial statements, i.e. 31 December 2018.

8.1 Future overall economic situation¹

The forward-looking statements and information described below are based on expectations and the Company's assessments as of 26 March 2019. They therefore harbor a whole array of risks and uncertainties. In terms of the growth of the global economy, the Issuer is expecting a small decline in the growth rate for 2019 to 2.9% (-0.1 percentage point). However, the forecast for global inflation remains unchanged at 2.3% for 2019, and 2.5% for 2020 (from 2.7% in 2018). The forecasted growth rate for industrial countries was lowered from 2.3 % to 1.8%. The forecast for emerging markets remains unchanged at 4.4 %.

The relation of factors underlying the growth has changed. Domestic resilience has weakened. The financial turbulence has paused for the time being. External headwinds have increased. Trade tension is the common global factor and will affect the forecast in the coming years.

There are two underlying trade scenarios: an escalation and multilateralization of trade tensions through tariffs, retaliatory measures and spillover have negative effects on global growth, whereby trade growth has approached a level not achieved since 2015-2016. A resolution and reduction of the current tensions, tariffs and retaliatory measures with simultaneous spillover benefits and improved optimism could stimulate global growth.

Fiscal and monetary policies are currently preparing for a worsening of the global climate. Upwardly trending trade results would require an adjustment of the asset prices, which would bring financial turbulence back into play. The current moderate fiscal expansion to support growth could be reversed, which could trigger uncertain effects on a recovery of domestic resilience.

The foundation for a robust domestic economy is still there, but the data on consumer spending and capital expenditures has weakened, particularly in Europe. In the industrialized countries, the labor market is robust, and wages are increasing, although labor shortages could outweigh this trend.

The other important geopolitical deadline on the horizon is the official Brexit date of 29 March 2019. The deal negotiated by Prime Minister May with Europe suffered a historic defeat in the lower house in January. The Parliament instructed Prime Minis-

¹ Source: Citigroup Research "Global Economic Outlook and Strategy" dated 20 February 2019
European Commission, Winter 2019 Economic Forecast – Germany

ter Theresa May to change the Northern Irish backstop and still has not ruled out the possibility of a “no deal” Brexit.

In view of the cooling in world trade and global economic growth this year and next, export growth in Germany may barely reach the dynamic of 2014-2017. This should probably also dampen new business investments. Continued deterioration of business sentiment is expected in the manufacturing sector with declining incoming orders and worsening export prospects. On the other hand, housing construction investments and private consumption could continue to show a moderate upswing, which is supported by the positive development on the labor market and fiscal measures to increase household income. Overall, it is expected that real GDP growth will continue to cool down to 1.1% in 2019.

Downside risks result from weaker-than-expected growth in foreign trade, subdued investment, lower confidence among businesses and consumers, and a slower or weaker utilization of the planned stimulus measures. On the other hand, the notable strength of the labor market represents an upside risk.

Overall inflation in 2018 rose to 1.9% due to rising energy prices, while core inflation remained unchanged at 1.5%. Total inflation for 2019-2020 is estimated at an average of approximately 1.5%, because energy inflation continues to weaken. While wage growth has strengthened, it will probably level off again if the outlook remains subdued, which should prevent core inflation from continuing to increase significantly.

The Issuer does not anticipate the bank encountering any negative consequences from the overall economic situation.

8.2 Future situation for the banking industry

Due to challenges posed by MiFID II, Basel III, Brexit and continuing digitization, 2019 and 2020 will remain full of suspense.

In 2019 and 2020, banks will need to closely monitor regulatory measures, such as reporting requirements, MiFID II implementation, new digital services and fintech alliances.

9. PROFIT FORECASTS OR ESTIMATES

This document does not contain any profit forecasts or profit estimates.

10. ADMINISTRATIVE, MANAGEMENT, AND SUPERVISORY BODIES

The Issuer is a public limited company (*Aktiengesellschaft*), which is organized under the laws of Germany. The sole shareholder is Citigroup Global Markets Limited.

The supervisory board of the Issuer consists of the following members:

- Hans W. Reich, Kronberg, Director, Chairman, having his business address at Reuterweg 16, 60323 Frankfurt am Main;
- Bradley Gans, London, Director, Deputy Chairman, having his business address at Citibank N.A. United Kindgom, 25 Canada Square, Canary Warf, London E14 5LB, United Kingdom;
- Leonardo Arduini, London, Director, having his business address at Citigroup Global Markets Ltd., London, 25 Canada Square, Canary Warf, London E14 5LB, United Kingdom;
- James Bardrick, Coggeshall Hamlet, Essex, Director, having his business address at Citigroup Global Markets Ltd., London, 25 Canada Square, Canary Warf, London E14 5LB, United Kingdom;
- Tim Färber, Kelsterbach, employee representative, having his business address at Reuterweg 16, 60323 Frankfurt am Main;
- Sascha Schmidt, Braunschweig, employee representative, having his business address at Reuterweg 16, 60323 Frankfurt am Main.

The executive board of the Issuer consists of the following members:

- Stefan Wintels (Chief Executive Officer (CEO)), Frankfurt am Main, Director, Strategy, Business Planning, Client Relationship (Bank), Public Relations, Investment Banking, Equity and Bond Issues Business, Human Resources and Audit*;
- Thomas Falk, Hochheim am Main, Director, Risk Controlling, Credit and Model Risk Management, Anti Money Laundering* and Compliance*;
- Stefan Hafke, Kelkheim, Director, Corporate Banking (Client Relationship) and Commercial Banking (Client Relationship), Business Management Office Banking, Capital Markets & Advisory
- Andreas Hamm, Dreieich, Director, Internal Organization, Transaction Settlement, Information Technology, Organizational, Settlement & Outsourcing Control as well as Data Protection Officer*;
- Dr. Jasmin Kölbl-Vogt, Frankfurt am Main, Director, Legal Department, Corporate Secretary, Regulatory Matters, Covered Bond Research as well as Corporate Security and Investigations;
- Oliver Russmann, Bad Vilbel, Director, Balance and Forecast, Corporate Treasury / Liquidity Management and Tax;
- Christian Spieler, Bad Homburg v.d.H., Director, Equity and Equity Derivatives Trading and Sales, Currency Trading and Sales, Fixed Income and Interest Rate

Derivatives Trading and Sales, Credit Derivatives Trading and Sales, Commodity Trading and Sales, Securities Services (Prime, Futures and Securities Services), Private Banking / Family Office, Business Management Office Markets and Security Services;

* Report in their capacity to the Board

all having their business address at Reuterweg 16, 60323 Frankfurt am Main.

The following persons hold the following jobs unrelated to the Issuer, which are significant with respect to the Issuer:

- Leonardo Arduini is Board Member of Citigroup Global Markets Ltd., London.
- James Bardrick is Board Member of Citigroup Global Markets Ltd., London.

11. CONFLICTS OF INTEREST

There are no potential conflicts of interest between the private interests or other obligations of the persons named in subsection 10 above and the obligations which those persons owe to the Issuer.

12. MAJOR SHAREHOLDERS

The sole shareholder of the Issuer is Citigroup Global Markets Limited.

Regarding the Issuer's integration into the Citigroup Inc. Group see the discussion in subsection 7.

There are no inter-company agreements within the meaning of § 291 German Stock Corporation Act (*Aktiengesetz*) with Citigroup Global Markets Limited or other companies of the Citigroup Group.

13. ARRANGEMENTS THE EXECUTION OF WHICH MAY AT A SUBSEQUENT DATE RESULT IN A CHANGE IN CONTROL OF THE ISSUER.

The Issuer has no knowledge of any arrangements the operation of which may at a subsequent date result in a change in control of the Issuer.

Furthermore, it should be noted that Citigroup is continuously verifying the appropriateness of its organizational structure.

14. FINANCIAL INFORMATION CONCERNING THE ISSUER'S ASSETS AND LIABILITIES, FINANCIAL POSITION AND PROFITS AND LOSSES

14.1 Financial statements

The Issuer's annual financial statements for fiscal year 2017 and 2016 respectively are included in this Registration Document under "19. *Historical Financial Information*" on pages E-1 through E-46 (short fiscal year from 28 April 2018 through 31 December), under "19. *Historical Financial Information*" on pages F-1 through F-46 (short fiscal year from 1 January 2018 through 27 April 2018) and under "19. *Historical Financial Information*" on pages G-1 through G-42 (fiscal year from 1 December 2017 through 31 December 2017).

14.2 Auditing of historical annual financial information

The annual financial statements including the bookkeeping system for the short fiscal year from 28 April 2018 through 31 December 2018, the short fiscal year from 1 January 2018 through 27 April 2018 and fiscal year from 1 December 2017 through 31 December 2017, which are included in this document, were audited by the Issuer's statutory auditor and certified with an unqualified auditor's opinion.

14.3 Significant change in the financial condition or trading position of the Issuer

There has been no material change in the Issuer's financial condition or trading position since the end of the fiscal year completed on 31 December 2018.

15. LEGAL AND ARBITRATION PROCEEDINGS

There are no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the issuer is aware), during a period covering the previous 12 months which may have, or have had in the recent past, significant effects on the Issuer's financial position or profitability.

16. MATERIAL CONTRACTS

The Issuer has not executed any contracts outside the ordinary course of business, which could result in a Citigroup Inc. Group company incurring an obligation or receiving a right, which would be deemed material to the Issuer's ability to meet its obligations to security holders in respect of the securities being issued.

17. STATEMENTS BY EXPERTS AND DECLARATIONS OF ANY INTERESTS

None.

18. DOCUMENTS ON DISPLAY

During the valid term of this Registration Document, copies of the following documents are available for inspection:

- (a) the Issuer's articles of association;
- (b) the audited annual financial statements of the Issuer for the short fiscal year from 28 April 2018 through 31 December 2018, for the short fiscal year from 1 January 2018 through 27 April 2018 and for the fiscal year from 1 December 2017 through 31 December 2017.

A hard copy of the documents (a) and (b) may be inspected during normal office hours at the Issuer's place of business located at the following address: Legal Department, Reuterweg 16, 60323 Frankfurt am Main.

The rest of this page has been deliberately left blank.

Per December 31, 2018	210,570	318,966	60,944	- 14,736	575,744

The earnings reserves are made up of the legal reserves totaling TEUR 33,027 and other earnings reserves totaling TEUR 27,917.

**Citigroup Global Markets Europe AG,
Frankfurt am Main**

**Notes
to the Financial Statements for the Short Fiscal Year
of April 28, 2018 through December 31, 2018**

I. General Information

Citigroup Global Markets Europe AG, Frankfurt am Main (abbreviated herein as “CGME”), is a stock corporation with its registered place of business in Frankfurt am Main and has been recorded in the Commercial Register of the Local Court of Frankfurt am Main under registration number HRB 88301 since June 10, 2010.

The financial statements for the short fiscal year of April 28 through December 31, 2018 (“Short Fiscal Year”) were prepared in accordance with the provisions of the German Commercial Code (abbreviated herein as “HGB”), the German Stock Corporation Act (abbreviated herein as “AktG”) and the supplemental accounting rules of the provisions under the Accounting Regulation for Banks and Financial Services Institutions (abbreviated herein as “RechKredV”).

The balance sheet and income statement were organized and structured on the basis the standard forms prescribed in RechKredV.

CGME is a capital market-oriented corporation within the meaning of § 264d HGB in combination with § 340a (1) HGB.

In connection with explaining individual items on the balance sheet and income statement as of the balance sheet date, the discussion below will compare the relevant numbers with those booked as of the end of the preceding Short Fiscal Year, which ran from January through April 27, 2018 (“Previous Short Fiscal Year”). However, the ability to compare the relevant financial statement items is in some cases very restricted because in addition to the different duration of the comparison periods, the business of CGME changed in the recently completed Short Fiscal Year in terms of both the nature of its financial products and the trading volume of those products.

II. Accounting and Valuation Methods

The accounting and valuation methods remain unchanged from the Previous Short Fiscal Year.

Receivables from banks are stated at the nominal amount plus accrued interest. No write-downs were required in the Short Fiscal Year.

Receivables from clients are recorded on the balance sheet at the repayment amount plus accrued interest and, if required, less any allowances established to cover counterparty risks.

The valuation of the **financial instruments of the trading portfolio** was carried out at fair value less a risk discount in accordance with sentence one of § 340e (3) HGB. The financial instruments are recognized at their cost of acquisition at the time they are acquired. In accordance with an official statement (RS BFA 2) of the Institute of Public Auditors in Germany (IDW), the follow-up valuation at fair value is based on the value at which competent parties, who are independent of one another but wish to contract, could exchange an asset or pay a liability and is performed in accordance with the hierarchical order of valuation criteria set forth in § 255 (4) HGB. The recognized value of financial instruments, which are not traded on an active market, are determined using generally accepted valuation methods (e.g., on the basis of option pricing models). In general, these methods are based on estimates of future cash flows while factoring in any risk factors. In this regard, the most important factors, in each case dependent on the nature of the relevant financial instrument, are the “underlying price”, “implicit volatilities”, “yield curves” and “dividend forecasts”. The stock market prices used in the valuation are average prices (*Mittelkurse*).

As of December 31, 2018, the following risk discounts (value at risk figures) were applied to the financial instruments of the trading portfolio:

Trading book	Risk Discount	
	Dec 31, 2018 (TEUR)	Apr 27, 2018 (TEUR)
Foreign Currency Risks	63	401
Equities and Index Risks	1,446	2,785
Other	192	688
Total	1,701	3,874

The calculation of the underlying value at risk figure is based on a holding period of ten business days, a confidence level of 99% and an effective historical observation period of one year.

In addition, CGME applied - as of the balance sheet date - a discount to the “Other Price Risks” trading book in the form of a “market value adjustment” totaling TEUR 908, which was calculated using a mathematical method and which factors in the model-linked price risks related to derivatives as well as the potential risks of loss upon repurchasing derivatives that the Bank itself had issued.

The trading portfolio in foreign currencies is valued using the foreign exchange rates published by the European Central Bank.

The **equity investments** are recognized at their cost of acquisition or, in some cases, at the lower fair value.

The strictly paid-for **intangible assets** and the **tangible assets** are valued at their cost of acquisition and are generally written-down on a straight-line basis in accordance with the expected standard useful life of those assets. Any potentially existing permanent impairment is taken into account through an unscheduled write-down.

Depending on their net acquisition costs, **low-value economic assets** (*geringwertige Wirtschaftsgüter*) are written-off in full in the year in which they are acquired.

The **accrual and deferral items** on the asset and liability side of the balance sheet include payments that are attributable the bottom-line in future fiscal years.

Liabilities owed to banks and to clients were stated at their settlement amount plus accrued interest.

Provisions for pension and similar obligations were valued on the basis of the projected unit credit method. Key principles underlying the valuation are the accrual-based allocation of pension benefits during the service relationship (employment tenure), for which pension commitments have been made, and the actuarial assumptions that are used to calculate the present cash value of such future benefits. The value of the obligation as of the balance sheet date is the actuarial present cash value of all those benefits which, based on the pension formula under the plan, are attributable to the period of service completed up to that point in time.

In order to calculate the present cash value, a discount rate of 3.21% based on a 15-year term was used. Pursuant to § 253 (2) sentence 1 HGB, the average market rate of the previous ten fiscal years was used as the discount rate for calculating the present cash value in the recently completed fiscal year. With respect to the resulting difference, we refer to our comments on page 14 of these notes regarding the total sum of the amounts barred from payout distribution. Future salary and wage increases were estimated at 2.25%, and at the same time, a 1.7% adjustment of the current annuities was assumed.

The biometric data was derived from the Dr. Heubeck 2018 G mortality tables. In connection with accounting for the accruals for pensions and similar obligations, assets that serve only to settle the debts owed under the pension obligations or similar long-term obligations in accordance with § 340a (1) in combination with § 246 (2) sentence 2 HGB were offset against them.

In calculating the **accruals**, all recognizable risks as well as uncertain liabilities were taken into account on the basis of a prudent business judgment (*vorsichtiger kaufmännischer Beurteilung*). The settlement amount of **other accruals** was calculated by factoring in future price and cost increases. Accruals or provisions with a residual term to maturity of more than one year were discounted at the average market interest rate over the past seven fiscal years as such rate was calculated by the German *Bundesbank* for matching maturities. If recourse agreements existed, they were taken into account in calculating the accrual (net result shown).

Accruals were set up in the balance sheet for **contracts and pending legal disputes** that could have an adverse effect on the financial condition.

Futures and other derivative transactions involving currencies, indexes, stocks, raw materials and precious metals were valued at the rates and interest rates on the balance sheet date and shown in the trading portfolio.

Currency receivables and liabilities were valued in accordance with § 340a (1) in combination with § 256a HGB at the ECB average rates applicable on the balance sheet date. To the extent that the ECB does not publish any average rates, the currency positions are recognized at market rates. Spot exchange transactions or currency futures, which were not yet cleared, were valued at the average spot or futures rates of the balance sheet date and applicable to their maturity. The treatment of expenses and income from the currency translation satisfies the requirements under § 340h HGB. The result of the currency translation is included in the income statement under the item “net income from financial trading operations”.

Negative interest income and negative interest expenses are shown in the income statement line items no. 2 “Negative interest income” or no. 4 “Positive interest from loans and money market transactions” in accordance with § 340c (1) and (2) HGB in combination with § 265 (5) HGB.

III. Notes to Individual Items on the Balance Sheet

With regard to the notes set forth below, we expressly reference the limited informative value of the comparative figures as of the previous balance sheet date (see also explanations in section 1 of these Notes).

1. Assets based on terms to maturity

Receivables from banks

	12/31/2018 TEUR	4/27/2018 TEUR
Other receivables with a term to maturity of		
up to three months	130,752	735,898
more than three months and up to one year	0	0
more than one year and up to five years more than five years	0	0
Total	130,752	735,898

Receivables from clients

	12/31/2018 TEUR	4/27/2018 TEUR
with a term to maturity of		
up to three months	785,695	90,536
more than three months and up to one year	0	0
more than one year and up to five years	0	0
more than five years	0	0
indefinite term	0	0
Total	785,695	90,536

The balance sheet item includes receivables generated from EUR repo transactions (reverse repos) in the amount of EUR 680 million.

Liabilities owed to banks

	12/31/2018 TEUR	4/27/2018 TEUR
with an agreed term or notice period of up to three months	12,301	110,937
more than three months and up to one year	0	0
more than one year and up to five years	0	0
more than five years	0	0
Total	12,301	110,937

Liabilities owed to clients

	12/31/2018 TEUR	4/27/2018 TEUR
with an agreed term or notice period of up to three months	330,071	54,451
more than three months and up to one year	0	0
more than one year and up to five years	0	0
more than five years	0	0
Total	330,071	54,451

This balance sheet item contains a total of EUR 269 million in liabilities for which trading portfolio securities were deposited as collateral.

2. Receivables from, and liabilities owed to, affiliated enterprises

The individual balance sheet items include receivables from, and liabilities to, affiliated enterprises as set forth below:

Receivables from affiliated enterprises

	12/31/2018 TEUR	4/27/2018 TEUR
Receivables from banks	130,196	731,438
Receivables from clients	753,563	16,734
Other receivables	155,118	13,829
Total	1,038,877	762,001

Liabilities owed to affiliated enterprises

	12/31/2018 TEUR	4/27/2018 TEUR
Liabilities owed to banks	10,177	105,235
Liabilities owed to clients	305,294	10,000
Other liabilities	644	58,528
Total	316,115	173,763

3. Trading portfolio assets and liabilities

The trading portfolio assets and liabilities consist of the following:

Trading Portfolio				
	asset	liability	asset	liability
	Book value 12/31/2018 (TEUR)	Book value 12/31/2018 (TEUR)	Book value 4/27/2018 (TEUR)	Book value 4/27/2018 (TEUR)

4. Market Value Adjustment	-	908	-	1,070
5. Value at Risk	- 1,701	-	- 3,874	-

Total	4,615,404	4,679,111	5,928,516	5,907,733
--------------	------------------	------------------	------------------	------------------

4. Movement of fixed assets

The fixed assets (intangible fixed assets and tangible fixed assets) developed as follows in the Short Fiscal Year:

	Original Acquisition costs			Accumulated depreciation, amortisation and write-downs					Book values	
	Additions (Disposals)			Additions (Disposals)						
	4/28/ 2018	Re- posting	12/31/ 2018	4/28/ 2018	Write- downs	Write- ups	Re- posting	12/31/ 2018	12/31/ 2018	4/28/ 2018
	TEUR	TEUR	TEUR	TEUR	TEUR	TEUR	TEUR	TEUR	TEUR	TEUR
Intangible assets			0				0			
acquired for consideration	5,399	0	5,399	5,211	17	0	0	5,237	162	188
		0					9			
Office and plant equipment	9,651	199	9,850	8,822	171	0	0	8,985	865	829
		0					-8			
Leasehold improvements	15,322	259	15,587	14,102	296	0	0	14,398	1,189	1,220
		0					0			
		6					0			
Construction in progress	159	25	184	0	0	0	0	7	177	159
		0					0			
		0					7			
Equity investments	1,136	0	1,136	0	0	0	0	0	1,136	1,136
		0								
		483					0			
Total	31,667	0	32,156	28,135	484	0	0	28,627	3,529	3,532
		6					8			

The intangible and tangible assets (office and plant equipment as well as leasehold improvements), as reported as of the end of the Short Fiscal Year, are used solely by

CGME itself. Depreciation, amortization and write-downs relating to the additions made during the Short Fiscal Year totaled TEUR 49.

The equity investments that are recognized on the balance sheet and are unchanged from the Previous Short Fiscal Year are not marketable and relate to the following companies:

Equity investments	12/30/2018 (TEUR)	4/27/2018 (TEUR)
True-Sale International GmbH, Frankfurt	150	150
Börse Stuttgart CATS GmbH, Stuttgart	986	986
Total	1,136	1,136

5. Other assets

The item "Other Assets" (TEUR 159,979; 4/27/2018: TEUR 39,644) includes mostly receivables from variation/initial margins (TEUR 140,649) as well as tax refund claims (TEUR 12,615).

6. Prepaid and deferred items

The balance sheet item (TEUR 353; 4/27/2018: TEUR 2,733) relates to prepaid fees.

7. Other liabilities

The item "Other Liabilities" (TEUR 10,353; 4/27/2018: TEUR 71,919) involves mainly liabilities owed to employees from deferred cash bonuses (TEUR 5,198) and liabilities from taxes (TEUR 1,867).

8. Accruals for pensions and similar obligations

To hedge third-party claims from pension and similar commitments, assets in the form of liquid funds and units or shares in securities funds (*Wertpapiersondervermögen*) are available as of the balance sheet date. The funds are managed exclusively by outside asset managers who invest in exchange-traded securities in accordance with the relevant investment guidelines. In the event CGME enters insolvency, CGME creditors will be denied access to those assets that are transferred to the trustees.

In accordance with § 246 (2) sentence 2 in combination with § 340a (1) HGB, the assets used for hedging purposes will be set off at their fair value against the obligations valued at the settlement amount. The fair value of the assets is based on the summary of individual funds that is provided by the respective asset manager. No alternative valuation method is used.

The accruals recognized as liabilities relate almost exclusively to obligations owed to the staff members employed at the headquarters in Germany.

The contractual hedge of the **business pension obligations** was carried out on the basis of a contractual trust arrangement (CTA) with the trustees, Towers Watson Treuhand e.V.

To hedge the pension commitments, units that are held in the “Rose” fund (acquisition costs of TEUR 104,782) and were purchased or contractually promised by CGME are available and, pursuant to § 246 (2) sentence in combination with § 340a (1) HGB, were netted at their fair value (TEUR 174,320) against the settlement amount from the pension obligations (TEUR 183,689). The settlement amount exceeding the plan assets as of the balance sheet date and equaling TEUR 9,369 (4/27/2018: TEUR 7,533 “Excess of plan assets over pension liabilities”) was recognized on the balance sheet under the item “Accruals for pensions and similar obligations”.

As of December 31, 2018, **pension obligations under the “PAS”, “PRS” and “Deferred Compensation” plans** also exist and arose from **bonus conversions**. The obligations under the “PAS” and “Deferred Compensation” plans are linked to the fair value of the relevant fund.

Factoring in the existing pension plan set-offs (netting the assets and liabilities) carried out at fair value pursuant to § 246 (2) sentence 2 HGB, the balance sheet components of accruals for pensions and similar obligations consist of the following:

	12/31/2018		4/27/2018

IV. Pension obligations PRS ****)				
Settlement amount	56,082		57,505	
less				
Plan assets	- 45,841	10,241	- 49,139	8,366
Excess of plan assets over post-employment benefit liabilities		-		- 7,533
Accruals for pensions and similar obligations		19,610		8,366

*) Acquisition costs TEUR 104,782

**) Acquisition costs TEUR 2,367

***) Acquisition costs TEUR 8,012

****) Acquisition costs TEUR 37,957

The effects on income arising from the accounting of the accruals for pension and similar obligations and from netting assets, which are attributable to plan assets, against the respective fair value, are shown in the table below:

	4/28/2018-12/31/2018 (TEUR)		1/1/2018-4/28/2018 (TEUR)	
I. General pension obligations				
- Expense (-)/income based on interest accrued on pension obligations	- 12,178		- 5,601	
- Change in the fair value of the plan assets	- 4,213		- 1,195	
- Expense for standard allocation	- 4,312	-20,703	- 2,209	- 9,005
II. Pension obligations PAS				
- Expense (-)/income based on interest accrued on the pension obligations	1,856		359	
- Change in the fair value of the plan assets	- 1,856	-	- 359	-
III. Pension obligations Deferred Compensation				
- Expense (-)/income based on interest accrued on pension obligations	40		14	
- Change in the fair value of the plan assets	- 40	-	- 14	-
IV. Pension obligations PRS				
- Expense (-)/income based on interest accrued on the pension obligations	- 2,485		- 1,250	
- Change in the fair value of the plan assets	460		- 188	
- Expense for the standard allocation	150	-1,875	- 36	- 1,474
Total		-22,578		- 10,479

As a consequence of first applying the RT 2018 G mortality tables in connection with valuing the accruals for pensions and similar obligations, an additional adjustment expense arose as of December 31, 2018 in the amount of TEUR 1,553, which reflected the difference from the amount under the valuation approach based on the RT 2005 G mortality tables as of April 27, 2018, and that difference was recognized in its entirety under personnel expenses.

The total sum of the amounts, which are barred from payout distribution, developed as follows compared to the previous balance sheet date:

Reason for barring payout distribution	12/31/2018 (TEUR)	4/27/2018 (TEUR)
Capitalization of the plan assets in connection with pension obligations at fair value (12/31/2018; TEUR 236,931; 4/27/2018 TEUR 248,003) pursuant to § 268 (8) sentence 3 in combination with § 340a (1) HGB	83,813	89,461
Differential amount in connection with the differentiated interest applied to pension accruals pursuant to § 253 (6) in combination with § 340a (1) HGB	27,525	26,326
Total	111,338	115,787

The **differential amount pursuant to § 253 (6) in combination with § 340a (1) HGB** is calculated as follows:

	10-year average interest rate and term to maturity of 15 years		7-year average interest rate and term to maturity of 15 years	
	12/31/2018	4/27/2018	12/31/2018	4/27/2018
Average interest rate (%)	3.21	3.53	2.32	2.64
Accrual for pensions and similar obligations (TEUR)	229,443	218,531	256,968	244,857
Differential amount (TEUR)				
	12/31/2018		4/27/2018	
	27,525		26,326	

As of the balance sheet date, the freely available provisions (reserves) exceed the total sum of the amounts that are barred from payout distribution.

9. Other accruals

The item "Other Accruals" (TEUR 40,188; 4/27/2018: TEUR 36,173) includes the following amounts:

Accruals for	12/31/2018 TEUR	4/27/2018 TEUR
Bonus payments to employees	19,190	15,478
Investment income tax for previous fiscal years	9,308	9,300
Turnover tax, Warrants Business	-	299
Early retirement obligations	124	383
Personnel costs	2,125	1,704
Audit costs	3,519	1,799
Outstanding vacation	840	247
Outstanding invoices	5,082	6,963
Total	40,188	36,173

In calculating the provisions made for early retirement obligations (TEUR 124; 4/27/2018: TEUR 383), claims arising from pledged reinsurance policies and totaling TEUR 1,470 (4/27/2018: TEUR 1,776) were reconciled against the settlement amount of TEUR 1,594 (4/27/2018: TEUR 2,159).

In the recently completed Short Fiscal Year, expenses in the amount of TEUR 30 (1/1-4/27/2018: TEUR 17) were generated from interest accrued on the obligations, and expenses in the amount of TEUR 13 (1/1-4/27/2018: income in the amount of TEUR 14) were generated from a change in the fair value of the plan assets. In connection with the standard allocation, the expense equaled TEUR 0 (1/1-4/27/2018: expense of TEUR 29).

10. Subscribed capital

The **subscribed capital** totaling TEUR 210,570 is divided into 8,236,778 no-par value shares. The sole shareholder of CGME is Citigroup Global Markets Ltd., London/Great Britain, (abbreviated herein as “CGML”), whose financial statements are included in the consolidated financial statements of Citigroup Inc. New York/USA.

11. Assets and liabilities denominated in foreign currencies

The total amount of assets denominated in a foreign currency is TEUR 37,108 (4/27/2018: TEUR 12,641); the liabilities contain foreign currency amounts totaling TEUR 21,024 (4/27/2018: TEUR 101,324).

IV. Notes to Individual Items on the Income Statement

1. Interest result

The interest result totaling - TEUR 4,449 (1/1-4/27/2018: TEUR 169) can be attributed primarily to the interest expenses owed to Citicorp LLC, USA, (TEUR 4,078).

2. Commission income

The commission income is derived from the following components:

Type of fee	4/28- 12/31/2018 TEUR	1/1- 4/27/2018 TEUR
Commissions from affiliated enterprises	71,516	24,245
Commissions on securities trading	-	5,465
Commission on foreign currency products	9,700	3,555
Commissions on corporate finance transactions	-	1,512
Commissions from M&A/Advisory	13,961	-
Miscellaneous fees	24	- 12
Internal group cost sharing arrangements	- 7,430	- 1,448
Total	87,771	33,317

3. Net income from financial trading operations

The net income from financial trading operations (TEUR 25,037) resulted primarily from the results of the Equities and Index Risk trading book in the amount of TEUR 82,177 (1/1-4/27/2018: TEUR 24,806). The result reported in the "Other" trading book equals TEUR 496 (1/1-4/27/2018: TEUR 200) and consists mostly of results from warrants traded on commodities and precious metals and from exchange-traded futures transactions on commodities and precious metals. The negative result in the "Currency Risk" trading book and amounting to TEUR 57,636 (1/1-4/27/2018: negative result TEUR 57) consists of the results from warrants traded on the price of gold and on the US Dollar. The net income from financial trading operations includes currency translation income in the amount of TEUR 14,228 and currency translation expenses in the amount of TEUR 17,425.

4. Other operating income

The item (TEUR 5,557; 1/1-4/27/2018: TEUR 35,425) encompasses primarily income from passing through expenses to affiliated enterprises in the amount of TEUR 3,807 (1/1-4/27/2018: TEUR 8,922), income from subleasing in the amount of TEUR 244 (1/1-4/27/2018: TEUR 159) and income from reversing provisions in the amount of TEUR 402 (1/1-4/27/2018: TEUR 370). The decline in other operating income can be attributed to the fact that additional proceeds were generated in the Previous Short Fiscal Year from the sale of the "Custody and Clearance Business" in the amount of TEUR 25,923.

5. Other administrative expenses

The item (TEUR 55,591; 1/1-4/27/2018: TEUR 31,369) consists of, among other things, the item "processing costs Citigroup" totaling TEUR 3,990 (1/1-4/27/2018: TEUR 3,834), expenses involving "Citi Chargeouts" that total TEUR 12,869 (1/1-4/27/2018: TEUR 6,567), custody fees totaling EUR 4,658 (1/1-4/27/2018: TEUR 2,768), lease expenses equaling TEUR 1,925 (1/1-4/27/2018: TEUR 1,572) and costs for listing derivative products on exchanges in the amount of TEUR 1,215 (1/1-4/27/2018: TEUR 1,444).

6. Other operating expenses

The item (TEUR 24,437; 1/1-4/27/2018: TEUR 13,719) includes primarily expenses from valuing the pension plan assets and the corresponding pension obligations (Rose) in the amount of EUR 16,391 and expenses and income from valuing the pension plan assets and the corresponding pension obligations (netted for PRS) in the amount of TEUR 1,875.

V. Miscellaneous Notes

1. Derivative financial instruments

Types of derivatives transactions

As of the end of the recently completed Short Fiscal Year, the derivatives business of the bank included the following transactions allocated to the respective trading books:

- **“Foreign Currency Risk” trading book**
 - o OTC currency option transactions
 - o Currency warrants
- **“Equities and Index Risk” trading book**
 - o Equities and other variable-yield securities in the trading portfolio
 - o OTC stock options
 - o Equities and index warrants
 - o Exchange-traded futures and options transactions on equities and stock indexes
 - o Index certificates and equity certificates
- **Other trading book**
 - o Exchange-traded futures transactions
 - o Warrants on commodities and precious metals.

Trade volumes of derivatives and futures transactions

The total volume of derivatives transactions based on the terms to maturity as of December 31, 2018 is set forth below:

- “Foreign Currency Risks” trading book

	< 1 year Nominal amount	1-5 years Nominal amount	> 5 years Nominal amount	Total Nominal amount	Market value
	EUR in millions	EUR in millions	EUR in millions	EUR in millions	EUR in millions
OTC-currency options					
Bought	2	-	-	2	-
Sold	-	-	-	-	-
Currency warrants Own issues					
Bought	152	-	792	944	47.8
Sold	173	-	820	993	- 50.0

The “Foreign Currency Risks” trading book consists primarily of options on the price of gold and on the US Dollar. The cash flow anticipated from the derivatives depends mainly on how the relevant underlying performs. As of the balance sheet date, the book contained exclusively European options (exercise possible only at the end of the term).

- “Equities and Index Risks” trading book

Type of Transaction	< 1 year	1-5 years	> 5 years	Total	Market
	Nominal amount EUR in millions	Nominal amount EUR in millions	Nominal amount EUR in millions	Nominal amount EUR in millions	value EUR in millions
Equities warrants issued by third parties					
Bought	2	-	-	2	-
Equities warrants Own issues					
Bought	5,847	495	5,152	11,494	2,041.4
Sold	8,380	837	5,305	14,522	- 2,127.0
OTC stock options					
Bought	431	1	-	432	0.1
Sold	-	-	-	-	-
Index warrants issued by third parties					
Bought	34	-	-	34	1.7
Index warrants Own issues					
Bought	4,108	14,080	8,363	26,551	1,486.3
Sold	4,506	19,294	8,408	32,208	- 1,500.2
Exchange-traded index futures					
Bought	26	-	-	26	- 0.3
Sold	24	-	-	24	- 0.2
Exchange-traded index options					
Bought	252	-	-	252	5.0
Sold	62	-	-	62	-4.5
Exchange-traded stock options					
Bought	1,388	245	-	1,633	66.8
Sold	304	3	-	307	- 66.3
Index and equity certificates Own issues					
Bought	76	2	367	445	676.8
Sold	286	9	333	628	- 883.7

The “Other Price Risks” trading book includes primarily options on European and American stocks and options on European and American exchange indexes. The cash flow

anticipated from the derivatives depends mainly on how the underlying performs. As of the balance sheet date, the book contained both European options (exercise possible only at the end of the term) and American options (exercise of the option possible throughout the entire term).

- **Other trading operations**

	< 1 year	1-5 years	> 5 years	Total	Market
	Nominal	Nominal	Nominal	Nominal	value
	EUR in	EUR in	EUR in	EUR in	EUR in
	millions	millions	millions	millions	millions
Options on commodities and precious metals					
Own issues					
Bought	6	-	106	112	16.2
Sold	7	-	108	115	-16.6
Exchange-traded futures on commodities and precious metals					
Bought	21	-	-	21	- 0.2
Sold	-	-	-	-	-

The “Other Trading Operations” trading book includes primarily options on the price of oil, gold and silver. The cash flow anticipated from the derivatives depends mainly on how the underlying performs. As of the balance sheet date, the book contained only European options (exercise possible only at the end of the term).

Counterparty risk in derivatives trading

As of December 31, 2018, the credit equivalents under the CRR (Capital Requirements Regulation), before credit risk weighting and after regulatory netting, are as follows:

Credit Risk	Companies and individuals and public bodies, including central banks from Zone B	Credit institutions from Zone A	Credit institutions from Zone b
Product group	Credit equivalent (in EUR '000)		
Foreign Currency Risk and Other Price Risks trading book	1,146	182,850	-
Other trading operations	-	-	-
Total	1,146	182,850	-

Non-settled forward transactions

In connection with the options transactions, CGME books the premiums on the trade date. On the balance sheet date, this practice results in obligations under futures transactions, which have not yet settled, being reported in the trade balance sheet for currency risks, equity and index risks and other risks.

2. Recommendation for the use of the unappropriated balance sheet profit

The Executive Board recommends bringing forward to a new account the loss reported as of December 31, 2018.

3. Other financial obligations

Other financial obligations take the form of obligations equaling EUR 3.5 million each year through the end of the lease term for the renting the premises (until June 30, 2020).

4. Fee for the annual accounts auditor

The total fees charged by the annual accounts auditor for the Short Fiscal Year encompass the annual accounts auditing services (TEUR 945), expenditures incurred (TEUR 63), other certification work (TEUR 266) and tax advisory services (TEUR 9).

5. Information about the business relations with related parties

The companies identified as related enterprises of CGME were its sole shareholder, CGML, as well as all of its own subsidiaries and affiliated enterprises of the Citigroup Group.

The individuals classified as key management personnel (Executive Board members and Supervisory Board members) of the Citigroup Group are treated as related persons.

The following financial transactions are executed with related enterprises and persons (exclusively group companies): (*see also Affiliate Dependency Report*)

• Money market transactions, investment and borrowing of funds
• Futures transactions involving stocks, currencies, indexes, commodities and precious metals
• Option transactions involving stocks, currencies, indexes, raw materials and precious metals
• Securities transactions (reverse repos and repos)
• Purchase/performance of intra-group services

All transactions were concluded on arm's length terms and conditions.

6. Information about significant transactions following the balance sheet date

Pursuant to a shareholder resolution of December 7, 2018, the Company decided to pay an additional USD 650 million into its equity capital. The additional capital contribution is shown in the capital reserves account.

In addition, the special meeting of the shareholders held on February 15, 2019 adopted a resolution to increase the registered share capital by EUR 31.8 million to EUR 242.4 million through the issuance of 1,244,814 new no-par bearer shares in connection with a capital contribution-in-kind that comprised the tangible and intangible assets and liabilities (including goodwill) maintained by the CGML branches in France, Italy and Spain. The branches are being continued under the CGME name. An application to record the non-cash capital increase has been since filed with the Commercial Register.

Mr. Oliver Russmann is expected to be appointed to the Executive Board in the second quarter of 2019.

Beyond the foregoing, there are no known significant transactions that occurred after the end of the Short Fiscal Year and that have not yet been included in either the income statement or the balance sheet.

7. Group membership

CGME is included in the group of consolidated companies of CGML, whose financial statements are, in turn, included in the consolidated financial statements of Citigroup Inc., New York, 388 Greenwich Street. The consolidated financial statements can be viewed at the website, www.citigroup.com.

8. Governing bodies of the Company

The CGME **Executive Board** remains unchanged and consists of the following members:

- Mr. Stefan Wintels, Frankfurt am Main, COO, Bank Director, Chairman;
- Dr. Silvia Carpitella, Milan/Italy, CFO, Bank Director;
- Mr. Thomas Falk, Hochheim am Main, CRO, Bank Director;
- Mr. Stefan Hafke, Kelkheim, (Corporate/Commercial Banking), Bank Director;
- Mr. Andreas Hamm, Dreieich, CTO, Bank Director;
- Dr. Jasmin Kölbl-Vogt, Frankfurt am Main, (Legal), Bank Director;
- Mr. Christian Spieler, Bad Homburg, (Treasury/Markets) Bank Director.

The **Supervisory Board** consists of the following members:

- Mr. Hans W. Reich, Kronberg, retired Bank Director, Chairman;
- Mr. Bradley Gans, London, Bank Director, Citigroup Global Markets Limited, London;
- Mr. Leo Arduini, London, Bank Director (as of December 11, 2018), Citigroup Global Markets Limited, London;
- Mr. James Bardrick, London, CEO, (as of December 11, 2018), Citigroup Global Markets Limited, London;
- Mr. Tim Färber, Kelsterbach, Bank Director, Employee Representative;
- Mr. Sascha Schmidt, Frankfurt, Bank Director, Employee Representative, (as of December 11, 2018).

9. Board member remuneration

In the Short Fiscal Year, total remuneration for members of the Executive Board was TEUR 6,084. As of the end of the Short Fiscal Year, pension obligations totaled TEUR 3,408.

In the reporting year, total remuneration for the former members of management bodies and their survivors totaled TEUR 1,701. Funds set aside for pensions and early retirement obligations owed to former members of the management bodies and their survivors totaled TEUR 45,570.

Due to the stock-based remuneration, approximately 29,000 shares in the amount of approx. USD 1,817,000 were granted as variable compensation.

In the recently completed Short Fiscal Year, expenses for supervisory board compensation benefits in the amount of TEUR 37 were incurred. CGME is exercising its elective right under § 286 (4) HGB regarding disclosures about provisions (accrued liabilities) for current pensions and pension expectancies (*Anwartschaften*) of the Supervisory Board members under § 285 (9b) HGB.

As consideration for their work, the members of the advisory board (*Beirat*) received TEUR 547 in remuneration in the fiscal year.

As of the end of the year, there were no outstanding loans to members of the CGME Executive Board.

10. Employees

During the Short Fiscal Year, CGME employed an average of 227 persons. The average period of employment (years of service) for staff members, who were employed in the Short Fiscal Year, was as follows:

90 Employees	up to 5 years
49 Employees	6-10 years
44 Employees	11-20 years
44 Employees	21 years or more
<u>227</u>

Report from the Supervisory Board of Citigroup Global Markets Europe AG
for the Short Fiscal Year from April 28, 2018 through December 31, 2018

Throughout the short fiscal year, the Supervisory Board continually received verbal and written reports from the Executive Board about the condition of the Company and its business development. The Supervisory Board Chairman solicited regular, timely and comprehensive reports from the Executive Board about the course of business and key developments at the Bank and monitored them even between meetings. The focal issues here included, among other things, the effects of Brexit on the Company's direction, strategic plan and organizational structure, the Company's risk situation, the outsourcing of services, the allocation of costs and activities within the Group and challenges in the area of taxes. The Supervisory Board also addressed numerous legislative and regulatory changes, such as the implementation of the remuneration rules under CRD IV of the Remuneration Ordinance for Institutions (*Institutsvergütungsverordnung*). Thus, in accordance with the statutory provisions, the Company's articles of association and the Supervisory Board's internal rules of procedure, it has monitored the Company's management activity.

In the special shareholders' meeting of Citigroup Global Markets Deutschland AG held on May 30, 2018, the shareholders' meeting adopted a resolution to amend the registered company name. As of June 15, 2018, the name of Citigroup Global Markets Deutschland AG has been changed to Citigroup Global Markets Europe AG.

On August 22, 2018, the shareholders' meeting elected Hans Reich and Brad Gans to serve as members of the Company's Supervisory Board for an additional term of office. Based on an expiring term of office, a court appointed the employee representative, Tim Färber, to serve on the Supervisory Board. The term of office of the court-appointed member ended automatically pursuant to § 104 (6) of the German Stock Corporation Act (AktG) upon the appointment of the employee representative on September 20, 2018.

In light of the strong increase in business volume anticipated in the course of Brexit, the shareholders' meeting decided in a special session held on October 23, 2018 to increase the size of the Supervisory Board. The Company's Supervisory Board now consists of six rather than three members. Prior to that shareholders' meeting, Messrs. Tim Färber and Sascha Schmidt were elected as employee representatives to the expanded Supervisory Board.

The shareholders' meeting approved the Supervisory Board nominees and elected Leo Arduini (Head of EMEA Markets & Securities Services) and James Bardrick (CCO – United Kingdom and CEO Citigroup Global Markets Limited) to serve as additional members on the Supervisory Board.

The Supervisory Board held three regular meetings in the short fiscal year. The Supervisory Board also held four special meetings that addressed the Company's positioning in light of Brexit. The subject matter of all regular Supervisory Board meetings were the periodic reports from the Executive Board on the current condition of the Company, including *inter alia* the basis of the risk report. The Supervisory Board also adopted resolutions pursuant to the circulated resolution approval procedure (*Umlaufverfahren*). No personnel decisions needed to be made. The composition of the Executive Board remained unchanged during the reporting period.

The Supervisory Board decided, until further notice, not to form any separate committees.

The annual financial statements and management report for the short fiscal year beginning April 28, 2018 and ending December 31, 2018, including the bookkeeping, were audited by KPMG AG Wirtschaftsprüfungsgesellschaft, Frankfurt am Main, and were found to be in compliance with the applicable statutory provisions and the Company's articles of association. The Supervisory Board engaged the annual accounts auditor, as part of the auditing work, to focus its audit on the suitability of the project organization and compliance with the regulatory requirements for implementing the processes to launch products of Citigroup Global Markets Limited, London at Citigroup Global Markets Europe AG.

The annual financial statements and management report were issued an unqualified auditor's report (*uneingeschränkten Bestätigungsvermerk*). We agree with the audit report.

Based on the final results from the audit of the annual financial statements and management report as undertaken by the Supervisory Board and the auditor's explanations related thereto, there have been no objections raised. At its meeting on March 27, 2019, the Supervisory Board approved the annual financial statements for the short fiscal year as submitted by the Executive Board and approved the management report.

The Supervisory Board thanked the Executive Board members and the employees for their commitment and contributions toward achieving the Company's defined goals.

Frankfurt am Main, March 27, 2019

The Supervisory Board

Hans W. Reich
Chairman

Audit Report from the Independent Auditor

To Citigroup Global Markets Europe AG, Frankfurt am Main

Report on the Audit of the Annual Financial Statements and Management Report

Audit opinions

We have audited the annual financial statements of Citigroup Global Markets Europe AG (until June 14, 2018: Citigroup Global Markets Deutschland AG), Frankfurt am Main, comprising the balance sheet as of December 31, 2018, the income statement, the cash flow statement, and the statement of changes in equity, for the short fiscal year from April 28, 2018 through December 31, 2018, as well as the notes to the annual financial statements, including the presentation of the accounting and valuation policies. In addition, we have audited the management report of Citigroup Global Markets Europe AG for the short fiscal year from April 28, 2018 through December 31, 2018. In conformity with the German statutory provisions, we have not audited the content of the corporate governance statement, which is contained in the management report under the section entitled "Corporate Governance Statement pursuant to § 289f of the German Commercial Code".

Based on the findings made from our audit, we hereby affirm that

- the accompanying annual financial statements comply in all material respects with the German commercial laws applicable to institutions and, in accordance with German principles of proper accounting, give a true and fair view of the net assets and financial position of the Company as of December 31, 2018, as well as its results of operations for the short fiscal year from April 28 through December 31, 2018, and
- the accompanying management report as a whole gives a true and fair view of the Company's situation. This management report is consistent in all material respects with the annual financial statements, complies with the German statutory provisions and correctly presents the opportunities and risks of future development. Our audit opinion regarding the management report does not cover the content of the corporate governance statement.

In accordance with section 322 (3) sentence 1 of the German Commercial Code (HGB), we hereby affirm that our audit did not lead to any reservations with respect to the propriety (*Ordnungsmäßigkeit*) of the annual financial statements and management report.

Basis for the audit opinion

We conducted our audit of the annual financial statements and management report in compliance with section 317 HGB and Regulation (EU) No. 537/2014, which governs the statutory audit of European public-interest entities (hereinafter referred to as "EU-APrVO") and the German generally accepted principles for the audit of financial statements as promulgated by the Institut der Wirtschaftsprüfer (IDW) [German Institute of Auditors]. Our responsibility under these provisions and principles is described in detail in the section of our audit report entitled, "Responsibility of the auditor for the audit of the annual financial statements and the management report". In conformity with European and German laws and with professional regulations, we are independent of the Company, and we have fulfilled our other German professional duties in compliance with these requirements. Moreover, pursuant to Art. 10 (2)(f) EU-APrVO, we hereby affirm that we have not performed any prohibited non-audit services referenced in Art 5 (1) EU-APrVO. We believe that the evidence obtained is sufficient and suitable to provide a basis for our audit opinions about the annual financial statements and management report.

Particularly important audit issues in the audit of the annual financial statements

Particularly important audit issues are such matters that in our due discretion were most important in our audit of the annual financial statements for the short fiscal year from April 28 to December 31, 2018. These matters were taken into account as a whole in connection with our audit of the annual financial statements and in the formation of our audit opinion; we do not issue a separate audit opinion regarding these matters.

Determination of fair value with the help of valuation models for the valuation of the trading portfolio

Please refer to Note 2 for more information regarding the accounting and valuation policies applied by CGME. Please refer to Note 3 regarding the composition of the derivatives transactions in the trading portfolio on the assets and liabilities side of the balance sheet.

THE RISK FOR THE FINANCIAL STATEMENTS

The transactions of the trading portfolio are measured at fair value and relate to the issue of warrants and certificates, the associated hedging transactions (i.e., OTC-traded and exchange-traded derivatives) as well as any buybacks arising from market maker activity. At 81.0% of total assets and 82.2% of total equity and liabilities respectively (EUR 4,615.4 million and EUR 4,679.1 million, respectively, in absolute amounts), the balance sheet items related to the trading portfolio are the largest line items on the annual financial statements of Citigroup Global Markets Europe AG.

In some cases, market prices are not observable for warrants, certificates, and OTC derivatives. The fair values are to be determined on the basis of accepted valuation methods. The selection of the valuation models as well as their parameters are subject to discretionary judgments. The risk for the financial statements in this regard is, above all, that no appropriate valuation models and/or valuation parameters are used and that the trading portfolio as well as net trading income are therefore not measured or calculated in compliance with the accounting requirements.

OUR APPROACH IN THE AUDIT

Based on our risk assessment and the assessment of misstatement risk, we have based our audit opinion on both control-based audit procedures as well as substantive audit procedures. Accordingly, we performed the following audit work, among others:

In an initial step, we gained a comprehensive overview of the changes in the financial instruments of the trading portfolio, the associated risks, and the internal control system with respect to the valuation of the financial instruments of the trading portfolio.

For the assessment of the appropriateness of the internal control system with respect to the valuation of financial instruments for which no market prices can be observed, we conducted surveys that included KPMG internal experts (valuation specialists) and inspected the relevant documents. After performing this structural audit (*Aufbauprüfung*), we tested the effectiveness of the established controls with the help of function audits (*Funktionsprüfungen*).

In particular, the test audit covered whether the models were validated independently of trading activity both when they were introduced as well as regularly or as needed. As part of a random sample, we audited whether the validations were conducted and documented properly and whether the implemented valuation model together with the influent valuation parameters are suitable and reasonable for the respective product. Furthermore, we audited the control of the trade transaction valuation through a trade-neutral department using parameters procured from third parties.

Moreover, our valuation specialists also carried out a subsequent valuation for a particular deliberate selection of products under materiality and risk considerations and compared the results with the values determined by the Bank. With respect to this subsequent valuation, observable pricing and market information was used to the extent possible.

OUR CONCLUSIONS

The valuation principles that are used to calculate the fair values of the trading portfolios, for which no prices can be observed on the market, are proper and in compliance with the valuation principles applied. The Company's valuation parameters underlying the valuation are as a whole reasonable.

Invoicing of intra-group services

With regard to the accounting and valuation methods applied by Citigroup Global Markets Europe AG, we refer to Note 2.

THE RISK FOR THE FINANCIAL STATEMENTS

Of the commission income totaling EUR 95.2 million, EUR 71.5 million is attributable to brokerage commissions of affiliated enterprises. The commission expenses equaled EUR 7.4 million and included primarily amounts from the intra-group netting of transfer prices. The other operating income totaled EUR 5.6 million and included income from passing through expenses to affiliated enterprises in the amount of EUR 3.8 million.

As a result of the high level of global job-sharing within Citigroup, great importance has been ascribed to intra-group service relationships both with respect to the provision of the original bank services as well as services involving support functions. The invoicing is performed *vis-à-vis* all Citigroup entities, although the billing process, the number of transactions requiring billing and the calculation of the billing amount could be very different depending on the work or service supplied. The risk for the financial statements in this regard is that service relationships with other Citigroup entities could be incorrectly recognized and, consequently, the corresponding income and expenses might be presented in the wrong amounts.

OUR APPROACH IN THE AUDIT

Based on our risk assessment and the assessment of misstatement risk, we have based our audit opinion on both control-based audit procedures as well as substantive audit procedures. Accordingly, we performed the following audit work, among others:

First, we gained an overview of key product lines and services of Citigroup Global Markets Europe AG, the invoicing models specified for these products and services, and the associated risks. We thereupon gleaned an understanding about the processes for the recognition, invoicing, and accounting treatment of the intra-group services rendered and about the internal control system set up with respect thereto.

We conducted surveys and inspected the relevant documents for the assessment of the adequacy of the internal control system. The control processes regarded as relevant for our audit are intended in particular to ensure the accuracy of the income and expenses from intra-group services and their processing. After performing this structural audit, we tested the effectiveness of the established controls with the help of function audits.

Finally, as part of substantive audit procedures, we audited the propriety of the manual closing entries by posing questions to management and inspecting the documentation serving as a basis. For services that are compensated based on the revenue and/or fee split method, we audited a random sampling as to whether the services were calculated and compensated correctly on the basis of the group-wide standard and documented transfer pricing method.

OUR CONCLUSIONS

The measures implemented in the bank are suited to accurately recognize income and expenses from intra-group services in CGMD's annual financial statements.

Other Information

The statutory representatives are responsible for the other information. The other information includes the corporate governance statement.

Our audit opinions about the annual financial statements and the management report do not extend to the other information, and accordingly, we do not provide any audit opinion or any other form of audit conclusions with respect to such other information.

In connection with our audit, we are responsible for reading the other information and thereby determining whether the other information

- exhibits any material inconsistencies with the annual financial statements, the management report or the findings we made during the audit, or
- has been otherwise presented in a materially false manner.

Responsibility of the Company's Executive and Supervisory Board for the annual financial statements and the management report

The Company's management (Executive Board) is responsible for preparing annual financial statements that comply in all material respects with the German commercial laws applicable for institutions as well as for ensuring that the annual financial statements give a true and fair view of the net assets, financial position and results of operations of the Company in accordance with German principles of proper accounting. Furthermore, the management is responsible for the internal controls that it has deemed necessary in accordance with German principles of proper accounting in order to facilitate the preparation of annual financial statements that are free from intentional or unintentional material misstatements.

When preparing the annual financial statements, the management is responsible for assessing the ability of the Company to continue as a going concern. Furthermore, it is responsible for disclosing, to the extent relevant, any matters related to the continuance of the Company as a going concern. Moreover, the management is also responsible for preparing the annual financial statements based on the assumption that the Company will continue as a going concern, unless factual or legal circumstances contradict this assumption.

In addition, the management is responsible for preparing the management report, which as a whole gives a true and fair view of the Company's situation and is consistent in all material respects with the annual financial statements, complies with the German statutory provisions and correctly presents the opportunities and risks for future development. The management is also responsible for taking actions and measures (systems) that it believes are necessary to be able to prepare a management report in accordance with the applicable German statutory provisions and to provide sufficiently suitable documentation for the statements made in the management report.

The Supervisory Board is responsible for monitoring the accounting process of the Company for the preparation of the annual financial statements and the management report.

Responsibility of the auditor for the audit of the annual financial statements and the management report

Our objective is to obtain reasonable assurance as to whether the annual financial statements as a whole are free and clear of any – intended or unintended – material false statements and whether the management report as a whole gives a true and fair view of the Company's situation, is consistent in all material respects with the annual financial statements and with the findings gleaned from the audit, complies with the German statutory provisions, and correctly presents the opportunities and risks of

future development and to issue an audit report that includes our audit opinions regarding the annual financial statements and the management report.

Reasonable assurance is a high level of certainty, but not a guarantee, that an audit conducted in accordance with section 317 HGB and the EU-APrVO as well as the German generally accepted standards for the audit of financial statements promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can result from violations or errors and are considered to be material if it can be reasonably expected that they individually or collectively influence the financial decisions made by addressees on the basis of the annual financial statements and the management report.

During the audit, we exercise due discretion and maintain professional skepticism. In addition:

- We identify and assess the risk of intentional or unintentional material misstatements in the annual financial statements and management report, plan and perform audit procedures as a reaction to these risks and obtain audit evidence that is sufficient and suitable to serve as the basis for our audit opinions. The risk that material misstatements are not detected is higher with regard to violations than with regard to errors, since violations can involve fraudulent cooperation, falsification, intentional omissions, misleading disclosures and/or the suspension of internal controls.
- We gain an understanding of the internal control system that is relevant for the audit of the annual financial statements and of the arrangements made and measures taken that are relevant for the management report audit in order to plan audit procedures that are appropriate under the given circumstances, but not with the goal of issuing an audit opinion on the effectiveness of these Company systems.
- We assess the appropriateness of the accounting policies applied by the Company's statutory representatives (management) as well as the reasonableness of the estimated values presented by the management and any associated disclosures.
- We draw conclusions on the appropriateness of the going-concern accounting principle, as applied by the Company's management, as well as whether there is significant uncertainty in connection with events or circumstances based on the audit evidence obtained that could raise considerable doubts about the Company's ability to continue as a going concern. If we come to the conclusion that there is significant uncertainty, then we are obligated to make reference in the auditors' report to the associated disclosures in the annual financial statements and in the management report, or to modify our respective audit opinion if these disclosures are inappropriate. We draw our conclusions on the basis of the audit evidence obtained by the date of our auditors' report. However, future events or circumstances can lead to a situation in which the Company can no longer continue as a going concern.
- We assess the overall presentation, structure, and contents of the annual financial statements, including the disclosures and whether the annual financial statements present the underlying transactions and events such that the annual financial statements give a true and fair view of the Company's net assets, financial position and results of operations in accordance with German principles of proper accounting.
- We assess the consistency between the management report and the annual financial statements, its compliance with the statutes, and the view conveyed by the report regarding the status and situation of the Company.

- We performed the audit concerning the forward-looking statements in the management report as described by the management. On the basis of sufficiently appropriate audit documentation, we are able to comprehend and track specifically the key assumptions that serve as the basis for the forward-looking statements provided by management and can evaluate the proper derivation of the forward-looking statements based on those assumptions. We are not issuing a separate audit opinion regarding the forward-looking statements and the underlying assumptions. There is a considerable and unavoidable risk that future events will differ significantly from the forward-looking statements.

We discuss with the responsible supervisory bodies the planned scope and timing of the audit as well as significant audit findings, including any defects in the internal control system that we identify during our audit.

We provide the responsible supervisory bodies with a statement affirming that we have complied with the relevant requirements for independence and discuss with them all relationships and other matters that can be reasonably presumed to have an impact on our independence as well as the related protective measures taken.

We determine which of the matters that we have discussed with the responsible supervisory bodies were most important in the audit of the annual financial statements for the current period and therefore those which are particularly important audit issues. We describe such matters in our audit report, unless laws or other legal provisions prevent their public disclosure.

Miscellaneous statutory and other legal requirements

Other disclosures in accordance with Article 10 EU-APrVO

We were selected to serve as auditor by the shareholders' meeting on May 30, 2018. We were appointed by the Chairman of the Supervisory Board on December 19, 2018. We have been the auditor of Citigroup Global Markets Europe AG, Frankfurt am Main, and its predecessor entity, for more than 26 years in a row.

We affirm that the audit opinions included in this auditors' report are consistent with the additional report to the Supervisory Board in accordance with Article 11 EU-APrVO (long-form audit report).

In addition to auditing the annual accounts for the audited company, we have performed the following work, which was not disclosed in the annual financial statements or the management report:

- Limited Assurance Engagement (ISAE 3000) – termination of the banking businesses, for which the banking licence was either revoked by the German Federal Financial Supervisory Authority or surrendered by CGME;
- Examination of the securities services business pursuant to § 89 of the German Securities Trading Act (WpHG);
- Tax advice in connection with transfer pricing

Responsible Auditor

The certified auditor (*Wirtschaftsprüfer*) responsible for the audit is Andreas Dielehner.

**Citigroup Global Markets Europe AG,
Frankfurt am Main
(formally: Citigroup Global Markets Deutschland AG, Frankfurt am Main)**

**Notes
to the Financial Statements for the Short Fiscal Year
from January 1, 2018 through April 27, 2018**

1. General Notice about Key Legal and Business Changes

Since June 10, 2010, Citigroup Global Markets Europe AG (“CGME”; formerly Citigroup Global Markets Deutschland AG (or “CGMD”)), with its registered offices in Frankfurt am Main, has been entered in the Commercial Register of the District Court of Frankfurt am Main under registration number HRB 88301. The registered name of the Company was changed pursuant to a resolution adopted by the shareholders at a special meeting on May 30, 2018.

Pursuant to a resolution adopted by the shareholders at a special meeting on January 31, 2018, the Company initially changed its fiscal year to a period that begins on April 28 of the current year and ends on April 27 of the next year. Thus, a short fiscal year had to be created for the period from January 1, 2018 through April 27, 2018. At a special shareholders’ meeting on May 30, 2018, the decision was made to define the fiscal year as the calendar year. Accordingly, another short fiscal year was established for the business period from April 28, 2018 through December 31, 2018.

Furthermore, pursuant to a notarially recorded contract dated April 13, 2018 and in exchange for a limited partnership interest, CGME (formerly CGMD) transferred the entirety of its assets and liabilities (to the extent they are attributable to the so-called “banking business”) to Citibank Europe Plc & Co. KG, Frankfurt am Main (CEP KG), by way of a spin-out into a newly formed entity to which Citibank Europe Public Limited Company, Dublin/Ireland, (CEP Ltd.) also acceded as a partner. The sole general partner

of CEP KG is CEP Ltd. CEP KG was formally established when it was entered in the Commercial Register on April 27, 2018. For commercial law purposes, the transfer of the assets and liabilities connected with the “banking business” as well as all other claims and obligations related thereto was consummated effective January 1, 2018 (Spin-Out Record Date) pursuant to §§ 135 (1) in combination with § 126 (1) no. 6 of the German Reorganization Act (UmwG). In a second step and pursuant to a contract dated April 13, 2018, CGME (formerly CGMD) then sold its limited partner interest in CEP KG to CEP Ltd. effective as of midnight on April 27, 2018.

Pursuant to a contract dated February 22, 2018, CGME (formerly “CGMD”) also sold its “Custody and Clearing Business” division (“German DCC Business”) to CEP Ltd. effective as of March 5, 2018.

In accordance with a transfer contract dated April 13, 2018, the previous sole shareholder of CGME (formerly CGMD), Citigroup Global Markets Finance Corporation & Co. beschränkt haftende KG, Frankfurt am Main (CKG), sold its shares to Citigroup Global Markets Ltd., London/Great Britain, (CGML). Pursuant to a contract of rescission dated April 13, 2018, the control and profit (loss) transfer agreement with CKG was therefore rescinded as of 12 midnight on April 27, 2018.

2. Bases of Accounting

The financial statements for the short fiscal year from January 1 through April 27, 2018 were prepared in accordance with the provisions of the German Stock Corporation Act (AktG) and the German Commercial Code (HGB), and with the provisions under the Accounting Regulation for Banks and Financial Services Institutions (RechKredV).

In light of the fact that the “German DCC Business” and “Banking Business” were sold during the short fiscal year and that the short fiscal year period covers only about four months, the items shown on the balance sheet and income statement of the financial statements as of April 27, 2018 **can be compared** only to a very limited extent with the

corresponding items in the annual financial statements for the period from January 1 through December 31, 2017.

The subscribed capital of CGME as of April 27, 2018 consisted of the **registered share capital** in the amount of EUR 210.6 million, which is divided into 8,236,778 no-par value shares. The sole shareholder is CGML.

3. Accounting and Valuation Methods

In the **accounting for and valuation of** ownership and liability items, the commercial law requirements on valuations and the provisions under the RechKredV were observed.

Money market transactions are recognized at their face value or nominal amount. Money market transactions in foreign currencies are measured on the basis of § 256a HGB in combination with § 340h HGB.

Receivables from banks are stated at the nominal amount plus accrued interest. No write-downs were required in the fiscal year.

Receivables from clients are recorded at the repayment amount plus accrued interest less any allowances established to cover loan-related risks.

The valuation (recognition) of **financial instruments in the trading portfolio** were done at fair value less a risk discount in accordance with sentence one of § 340e (3) HGB. The financial instruments are initially recognized at their cost of acquisition. In accordance with an official statement (RS BFA 2) of the Institute of Public Auditors in Germany (IDW), the follow-up valuation at fair value is based on the value at which competent parties, who are independent of one another but wish to contract, could exchange an asset or pay a liability and is performed in accordance with the hierarchical order of valuation criteria set forth in § 255 (4) HGB. The value of financial instruments, which are traded on an active market, were valued using generally accepted valuation methods (above all, on the basis of option pricing models). In general, these methods are based on estimates of future cash flow, while taking into account any risk factors that may apply. The most

important factors thereby are the price of the underlying, implicit volatilities, yield curves and dividend forecasts. Where the stock market price is used in the valuation, the average stock market price shall apply.

As of April 27, 2018, the risk discount equaled TEUR 401 for the “foreign currency risk” trading book, TEUR 2,785 for the “equities and index risk” trading book, and TEUR 688 for the “other” trading book. The underlying value at risk (VaR) figure is based on a holding period of ten business days, a confidence level of 99% and an effective historical observation period of one year.

In addition, CGME applied - as of the balance sheet date - a discount to the “other price risks” trading book in the form of a “market value adjustments” totaling TEUR 1,070, which is calculated on the basis of a mathematical method and which factors in the model-linked price risks related to derivatives as well as the potential risks of loss upon repurchasing derivatives that the Bank itself had issued.

The trading portfolio in foreign currencies is valued using the foreign exchange rates published by the European Central Bank.

Equity investments were stated at their cost of acquisition less unscheduled write-downs.

Only **intangible assets**, which have been acquired for consideration, were stated at the costs of acquisition less straight-line amortization. In the event of a permanent impairment, an unscheduled write-down is taken.

Tangible assets are shown on the balance sheet at acquisition costs less straight line-depreciation and, if applicable, in the case of permanent impairment, they are shown on the balance sheet after applying an unscheduled write-down.

Liabilities owed to banks and **liabilities owed to clients** were stated at their settlement amount (*Erfüllungsbetrag*) plus accrued interest.

Provisions for pension and similar obligations were valued on the basis of the projected unit credit method. Key principles underlying the valuation are the accrual-based allocation of pension benefits during the service relationship (employment tenure), for which pension commitments have been made, and the actuarial assumptions that are used to calculate the present cash value of such future benefits. The value of the obligation as of the balance sheet date is the actuarial present cash value of all those benefits which, based on the pension formula under the plan, are attributable to the period of service completed up to that point in time. On the basis of the debt assumption agreement (*Vereinbarung zum Schuldbeitritt*), CGME had calculated for the short fiscal year of 2018 an amount of TEUR 304 as a time-of-service expense and charged it to the relevant companies. With respect to the termination of the debt assumption agreements as of the balance sheet date of April 27, 2018, we would refer to our discussions on page 17 of these Notes. As consideration for terminating the debt assumption agreement with Citibank N.A. in New York, Frankfurt Branch, and Citigroup Global Markets Finance Corporation & Co. beschränkt haftende KG, Frankfurt, CGME transferred funds pursuant to § 3 (3) of the debt assumption agreement in an amount that represented the full amount of the obligations existing on the record date and arising from the pension commitments and effected this transfer by allocating said amount to the ringfencing of CKG and CNA at Towers Watson Treuhand e. V. The amount of the obligation as of the record date is derived from projected benefit obligation as calculated for these pension obligations as of April 27, 2018 in accordance with US-GAAP. The difference between the amount shown in the commercial accounts and the size of the corresponding obligation shown in accordance with US-GAAP as of April 27, 2018 was booked under other operating expenses.

In order to calculate the present cash value, a discount rate of 3.53 % based on a 15-year term was used. Pursuant to § 253 (2) sentence 1 HGB, the average market rate of the previous ten fiscal years was used in this fiscal year. With respect to the resulting difference, we refer to our comments on page 10 regarding the total sum of the amounts barred from payout distribution. Future salary and wage increases were estimated at 2.25%, and at the same time, a 1.7% adjustment of the current annuities was assumed. The biometric data was taken from the Heubeck 2005G mortality tables.

The contractual security arrangement related to the company pension obligations that had been originally handled through the organization of Citibank Pensionsfund e. V. - as a contractual trust arrangement (CTA) - continues to be performed through a CTA. Since March 28, 2018, Citibank Pensionsfund e. V. has been replaced by an inter-company CTA of Towers Watson Treuhand e.V.

As part of the efforts to hedge the pension commitments, CGME purchased or was contractually promised units in the **Rose** fund at costs of acquisition equaling TEUR 100,256.2. In addition, liquid funds (*liquid Mitteln*) totaling TEUR 4,529.3 were transferred to the trustees at Towers Watson Treuhand e.V. **Assets and liabilities were netted** in accordance with § 246 (2) sentence 2 HGB.

In the recently completed fiscal year, an expense arose from the accrual of interest on the pension obligations in the amount of TEUR 5,600.6 (2017: TEUR 15,702.10) and from the change in the fair value of the plan assets in the amount of TEUR 1,195.2 (2017: TEUR 5,337.4). As in 2017, these effects on earnings components were reported under other operating expenses (2017: netted). The standard allocation (*Regelzuführung*) produced an expense in the amount of TEUR 2,209.10 in the short fiscal year (2017: TEUR 3,137.6).

On the balance sheet date, the fair value of the plan assets that are subject to netting equaled TEUR 178,533.4 (Dec 31, 2017: TEUR 179,728.6). The settlement amount of the pension obligations subject to netting equaled TEUR 171,000.40 on the balance sheet date (Dec 31, 2017: TEUR 191,310.6). The plan assets that exceed the settlement amount as of the balance sheet date and that equaled TEUR 7,533.0 were shown under line item “Excess of plan assets over pension liabilities” (Dec 31, 2017: item “Excess of plan assets over post-employment benefit liabilities” in the amount of TEUR 11,582.0).

Pension obligations also exist under the PAS, PRS and Deferred Compensation plans, which resulted from bonus conversions.

The obligations resulting from the **PAS and Deferred Compensation** plans are linked to the fair value of the relevant fund.

The acquisition costs of the fund units in the PAS Fund (**Sondervermögen PAS**) equal TEUR 4,031.6. On the balance sheet date, the fair value (market value) of the PAS Fund assets to be netted equaled a total of TEUR 11,138.8 (Dec 31, 2017: TEUR 11,497.4). The settlement amount of the liabilities to be netted equaled TEUR 11,138.8 (Dec 31, 2017: TEUR 11,497.4).

In the current fiscal year, the change in the fair value of the plan assets yielded expenses in the amount of TEUR 358.6 (Dec 31, 2017: TEUR 1,234.7). In the fiscal year, there was no current income reported (Dec 31, 2017: TEUR 2.4). Since the liability under the PAS plan is linked to the fair value of the PAS fund, this yielded income from the discounting of liabilities in the amount of TEUR 358.6 (Dec 31, 2017: TEUR 1,237.1). These components of the earnings are reported on a net basis.

The costs in acquiring units of the **deferred compensation** fund totaled TEUR 8,011.8. On the balance sheet date, the fair value (market value) of the netted assets of the deferred compensation fund was TEUR 9,191.8 (Dec 31, 2017: TEUR 9,495.9). The settlement amount of the liabilities to be netted equaled TEUR 9,191.8 (Dec 31, 2017: TEUR 9,495.9)).

In the short fiscal year, the discounting of the obligations yielded income in the amount of TEUR 14.1 (2017: TEUR 21.4), and the change in the fair value of the plan assets yielded an expense totaling TEUR 14.1 (2017: TEUR 21.4). These individual components of earnings are netted and reported as such.

In connection with hedging the obligations under the bonus conversion, CGME purchased units of the **PRS** Fund at costs of acquisition equaling TEUR 41,713.9. It netted assets and liabilities pursuant to § 246 (2) sentence 2 HGB.

In the recently completed short fiscal year, the expense generated from the accrual of interest on the pension obligations totals TEUR 1,250.6 (2017: TEUR 3,444.7). The change in the fair value of the plan assets resulted in an expense of TEUR 188.4 (2017: income of TEUR 74.3). In addition, no current income was accrued in the recently

completed short fiscal year (2017: TEUR 0.1). As in 2017, the individual components of earnings are reported under “other operating expenses”.

The standard allocation produces an expense as of the balance sheet date, “April 27, 2018”, in the amount of TEUR 35.6 (2017: expense of TEUR 80.6).

On the balance sheet date, the fair value of the plan assets subject to netting equaled TEUR 49,138.8 (Dec 31, 2017: TEUR 49,327.1). The settlement amount of the corresponding pension obligations was TEUR 57,504.5 (Dec 31, 2017: TEUR 56,218.3). The settlement amount exceeding the plan assets as of the balance sheet date totaled TEUR 8,365.7 (Dec 31, 2017: TEUR 6,891.2) and was reported as an accrued liability under the item “pensions and similar obligations”.

All assets netted against the corresponding obligations as of the balance sheet date consist of liquid funds or units of securities funds. The funds are managed exclusively by outside asset managers, who invest in publicly listed securities according to prescribed investor guidelines. The applied fair value for the assets is based on the overview of the individual fund assets as provided by the respective manager. Alternative valuation methods are not applied.

All funds are outsourced under trusts or other fiduciary arrangements (*Treuhänderschaften*) and are therefore removed from the grasp of creditors in the event of a CGME insolvency.

Accrued liabilities for contingent liabilities and for potential losses from open business transactions are valued at the settlement amount required on the basis of sound business judgment (*vernünftiger kaufmännischer Beurteilung*).

The other accrued liabilities or provisions show a term to maturity of less than one year, except for the obligations under employee anniversaries and involving early retirement.

On the balance sheet date, the settlement amount for the early retirement obligations equaled TEUR 2,158.6 (Dec 31, 2017: TEUR 2,449.0). The fair value of the pledged

reinsurance policies in the amount of TEUR 1,776.4 (Dec 31, 2017: TEUR 2,035.0) was netted against the settlement amount of the early retirement obligations. The settlement amount exceeding the plan assets on the settlement date and totaling TEUR 382.2 (Dec 31, 2017: TEUR 414.0) was shown under the line item, "Other accrued liabilities". In the recently completed short fiscal year, an expense in the amount of TEUR 16.8 (2017: TEUR 64.7) arose from the accrual of interest on the obligations, while income in the amount of TEUR 13.8 (Dec 31, 2017: TEUR 1.2) was yielded from a change in the fair value of the plan assets. As on 2017, these components of earnings are netted and reported under other operating expenses. The standard allocation produces an expense in the amount of TEUR 29.1 (2017: TEUR 99.7).

Accruals were set up in the balance sheet for **contracts and pending legal disputes** that could have an adverse effect on CGME's financial condition.

In light of the examination conducted to meet the requirements of setting aside a provision for threatened losses resulting from interest rate-driven transactions in the banking book (*Bankbuch*) (whether reported on the balance sheet or not) pursuant to § 340a in combination with § 249 (1) sentence 1, Alt, 1 HGB, CGME (formerly CGMD) applies the cash value approach in accordance with IDW's official statement RS BFA 3. Because the banking book was transferred to CEP KG, only a few smaller items remained on the CGME balance sheet for valuation.

The future cash flows generated from such transactions as well as the risk and administrative costs are discounted to present value on the basis of a risk-free yield curve after converting into the reporting currency, if required.

Dividing the existing transactions into separate time bands according to currency is carried out on the basis of their contractually prescribed maturity dates. Net surplus (asset) positions in the respective time band are fictitiously closed out on the basis of the Bank's own refinancing costs. Where there are net liability positions, the fictitious lending transaction is discounted at a rate with no risk premium. Viewed as of April 27, 2018, the fictitious closeouts have little effect on the present cash value reported in the banking book. The applied risk costs recognized in the banking book were calculated using a

scenario computation taken from risk management. The administrative costs were derived from the internal accounts.

In light of the transfer of the so-called “Banking Business” to CEP KG or CEP Ltd. and the concomitant fundamental change in the business model of CGME, the creation of a provision for threatened losses pursuant to § 340 (1) in combination with § 249 (1) sentence HGB and based on the IDW RS BFA 3 (October 16, 2017 version) was not required as of April 27, 2018.

The **total sum of the amounts, which are barred from payout distribution**, amount to TEUR 120,062.1 (Dec 31, 2017: TEUR 119,720.7). The amount barred from payout distribution within the meaning of § 268 (8) HGB equals TEUR 89,461.4 (Dec 31, 2017: TEUR 91,216.2) is yielded from the capitalization of the plan assets at fair value in the amount of TEUR 248,002.8 (Dec 31, 2017: TEUR 250,048.9). The amount barred from payout distribution within the meaning of § 253 (6) sentence 1 HGB equals a total of TEUR 30,600.7 (Dec 31, 2017: TEUR 28,504.5) and is yielded from the difference between the valuation of the pension provisions using the 10-year average interest rate pursuant to § 253 (2) sentence 1 HGB and the 7-year average interest rate. The freely available provisions as of the balance sheet date exceed the total sum of the amounts that are barred from payout distribution.

Income and **expense** items are duly allocated to the period in which they were generated.

The income is allocated among affiliated enterprises of Citigroup using the so-called “GRA” (Global Revenue Allocation). Under that method, the primary allocation system is the revenue split, which applies to a number of the local sales activities.

Negative interest income and negative interest expenses are shown in the income statement line items no. 2 “Negative interest income” or no. 4 “Positive interest from loans and money market transactions” in accordance with § 340c (1) and (2) HGB in combination with § 265 (5) HGB.

In accordance with § 256a HGB, **foreign currency amounts** were converted into Euros at the exchange rate set by the ECB on the reporting date and published by the German *Bundesbank* system (average spot exchange rate).

4. Notes on the balance sheet

With regard to the notes set forth below, we expressly reference the limited informative value of the comparative figures as of the previous balance sheet date (see also explanations in section 1 of these Notes).

a) Assets based on terms to maturity

Receivables from banks	<u>Apr 27, 2018</u>	<u>Dec 31. 2017</u>

The intangible and tangible assets (office and plant equipment as well as leasehold improvements), as reported on the balance sheet as of April 27, 2018, are used solely by CGME itself. Depreciation, amortization and write-downs relating to the additions made during the short fiscal year totaled TEUR 16.

c) Receivables from, and liabilities owed to, affiliated enterprises

	Apr 27, 2018	Dec 31, 2017

	TEUR	TEUR
Assets	12,641	252,336
Liabilities	101,324	192,635

e) Other notes

The item shown on the asset side of the balance sheet, **trading portfolio** (line item 5a), is divided into derivative financial instruments totaling EUR 4,495.9 million (Dec 31, 2017: EUR 4,590.2 million), debt securities and other fixed-income securities in the amount of EUR 871.5 million (Dec 31, 2017: EUR 853.1 million), and shares and other variable-yield securities in the amount of EUR 561.1 million (Dec 31, 2017: EUR 741.2 million). Of the debt securities and other fixed income securities, EUR 871.5 million (Dec 31, 2017: EUR 853.1 million) were eligible and listed for trading on a stock market. Of the shares and other variable-yield securities, EUR 561.1 million (Dec 31, 2017: EUR 741.2 million) were eligible and listed for trading on a stock market.

The equity investments as reported on the balance sheet in the prior year and totaling EUR 1.1 million are not eligible for trading on a stock market.

The item, which is shown as “**other assets**” in the amount of EUR 39.7 million (Dec 31, 2017: EUR 32.7 million), includes primarily tax receivables of EUR 7.8 million (Dec 31, 2017: EUR 10.2 million), claims under reinsurance policies of EUR 0.3 million (Dec 31, 2017: EUR 0.3 million) and receivables from an initial margin and totaling EUR 15.4 million (Dec 31, 2017: EUR 22.2 million). Receivables held against CEP equal EUR 13.8 million (Dec 31, 2017: EUR 0) and are related to the spin-out of the Bank division.

The liability item, which is shown on the balance sheet “**trading portfolio**” (line item 3a), is divided into derivative financial instruments in the amount of EUR 4,606.6 million (Dec 31, 2017: EUR 4,724.6 million), liabilities arising from issued and outstanding debt securities in the amount of EUR 1,282.9 million (Dec 31, 2018: EUR 1,214.2 million) and short positions taken on stock sales in the amount of EUR 18.8 million (prior year: EUR 2.4 million).

The item, “**other liabilities**”, in the amount of EUR 71.9 million (Dec 31, 2017: EUR 83.4 million), relates primarily to liabilities under the profit transfer obligations totaling EUR 40.1 million (Dec 31, 2017: EUR 66.9 million), liabilities arising from deferred cash bonuses owed to employees and totaling EUR 7.5 million (Dec 31, 2017: EUR 6.6 million) and liabilities for turnover tax in the amount of EUR 0.8 million (Dec 31, 2017: EUR 0.7 million).

In addition, as of April 27, 2018, liabilities owed to CEP KG or CEP Frankfurt Branch totaled EUR 14.4 million and resulted from the transfer of pension obligations.

The item shown as “**other accrued liabilities**” relates primarily to the provisions made for bonuses, provisions set aside for investment income withholding tax and turnover tax payments, and provisions for restructuring and early retirement. The provisions for bonuses were booked on the basis of the individual employees in an amount of EUR 15.5 million (Dec 31, 2017: EUR 20.4 million). Provisions in the amount of EUR 9.3 million (Dec 31, 2017: EUR 9.3 million) relate to unpaid investment income withholding tax for prior fiscal years and EUR 0.3 million relates to outstanding turnover tax payments arising from the warrants business. As of the end of the short fiscal year, provisions for restructuring amounted to EUR 0.1 million (Dec 31, 2017: EUR 0.6 million). Provisions

for early retirement equaled EUR 0.4 million (Dec 31, 2017: EUR 0.4 million) after deducting the pledged re-insurance policies in the amount of EUR 1.8 million (Dec 31, 2017: EUR 2.0 million).

Almost all of the **contingent liabilities** were transferred to CEP Ltd. CGME still retains guarantee obligations totaling EUR 1.0 million. CGME believes that the likelihood that claims, which are based on the liabilities shown on the balance sheet, will be made is small, due to the current credit-standing of the beneficiaries. We have found no evidence that would compel us to reach a different conclusion.

With the exception of an export credit that was granted to a Vietnamese company and was secured through a deficiency suretyship (*Ausfallbürgschaft*), the loan portfolio was transferred to CEP Ltd. The irrevocable loan commitments still existing on the balance sheet date and totaling EUR 6.3 million have a term or more than one year.

As of the end of the short fiscal year, CGME had not engaged in any **off-balance sheet transactions** that fall within the meaning of § 285 no. 3a HGB and were outside the ordinary course of business.

During the short fiscal year, **transactions with related parties within the meaning of § 285 no. 21 HGB** were settled on an arm's length basis only.

f) Other contingent liabilities

The debt assumption agreements dated November 30, 2011 that had been concluded with Citibank N.A. in New York, the Frankfurt Branch, and Citigroup Global Markets Finance Corporation & Co, KG, Frankfurt, were terminated effective as of the balance sheet date (April 27, 2018) pursuant to the contract of rescission.

g) Other financial liabilities

Financial liabilities under leases running until June 30, 2020 equal EUR 3.5 million *per annum* (Dec. 31, 2017: EUR 3.5 million).

5. Notes on the Income Statement

For the short fiscal year from January 1 through April 27, 2018, the income and expenses included in the income statement resulted from the domestic and foreign business of CGME (formerly CGMD).

Reference is again made to the fact that the comparison numbers from prior years is of only limited informative value.

Despite the continued low interest rates, **interest income** of EUR 0.2 million was generated in the short fiscal year.

Commission income in the amount of EUR 34.8 million (2017: EUR 187.7 million) relates primarily of brokerage commissions of affiliated enterprises and totaling EUR 24.2 million (2017: EUR 125.8 million), commissions from securities transactions of EUR 5.5 million (2017: EUR 25.8 million) and commissions from foreign exchange products totaling EUR 3.6 million (2017: EUR 13.4 million).

Commission expenses equaled EUR 1.5 million (2017: EUR 9.0 million) and included mostly intra-group cost sharing for relationship management.

The **net income of the trading portfolio (or net income from financial trading operations)** resulted primarily from the results of the equities and index risk trading book in the amount of EUR 24.8 million (2017: EUR 55.1 million). The result reported in the “other” trading book equals EUR 0.2 million (2017: EUR 3.1 million) and consists mostly of results from options traded on commodities and precious metals and from exchange-traded futures transactions on commodities and precious metals. The negative result in the “currency risk” trading book totaling EUR 0.1 million (2017: positive result of EUR 10.5 million) consists of the results from options traded on the price of gold and on the US Dollar.

In the short fiscal year, no amounts were reported under net income from financial trading operations pursuant to § 340e (4) HGB (2017: EUR 2.6 million).

Other operating income equals EUR 35.4 million (2017: EUR 20.3 million) and includes mostly income derived from the sale of the “Custody and Clearing Business” unit in the amount of EUR 25.9 million (2017: EUR 0.0 million), income from pass-throughs to affiliated enterprises in the amount of EUR 8.9 million (2017: EUR 18.9 million) and income from subleasing in the amount of EUR 0.2 million (2017: EUR 0.4 million).

The **other administrative expenses** (EUR 31.2 million; 2017: EUR 103.9 million) encompass primarily “processing costs of Citigroup” in the amount of EUR 3.8 million (2017: EUR 16.4 million), expenses on “Citi chargeouts” equaling EUR 6.6 million (2017: EUR 32.8 million), custody fees of EUR 2.8 million (2017: EUR 11.1 million), rent expenses in the amount of EUR 1.6 million (2017: EUR 4.9 million) as well as costs for the exchange listing of derivative products in the amount of EUR 1.4 million (2017: EUR 7.5 million).

The **other operating expenses** totaled EUR 13.7 million (2017: EUR 19.6 million) and included mostly expenses and income (netted) from valuing the plan assets (*Pensionsdeckungsvermögens*) (PRS and Rose) and the corresponding pension obligations in the amount of EUR 8.2 million (2017: PRS and Rose EUR 13.8 million). In connection with winding down the debt assumption agreements, CGME booked a one-time expense of EUR 5.4 million.

The **extraordinary income**, which totaled EUR 13.8 million (2017: EUR 0), was earned on the sale of the Banking Business division to CEP Ltd.

Pursuant to a **profit transfer or partial profit transfer agreement**, the allocated profits were transferred to Citicorp Global Markets Finance Corporation & Co, beschränkt haftende KG, Frankfurt am Main, in the amount of EUR 40.1 million (prior year: EUR 66.9 million).

The control and profit (loss) transfer contract between CKG and CGME (formerly CGMD) ended as of April 27, 2018 pursuant to the contract of rescission dated April 13, 2018.

6. Fees of the Annual Accounts Auditor

The total fees charged by the annual accounts auditor for the 2017 fiscal year include:

a) Annual audit services	EUR	610,000.00
b) Other certification services	EUR	0.00
c) Tax advisory services	EUR	0.00
d) Miscellaneous services	EUR	0.00
e) Outlays	EUR	68,918.76
f) Total	EUR	<u>678,918.76</u>

7. Notes on Derivative Transactions

a) Types of derivative transactions

As of April 27, 2018, the Bank's derivative transactions included the following types of transactions:

aa) Trading transactions

aaa) Foreign currency risk trading book: OTC currency option transactions and currency warrants.

aab) Equities and index trading book: equities and other variable-yield securities in the trading portfolio, OTC stock options, equities and index warrants, exchange-traded futures and options on equities and equity indexes, as well as index certificates and equity certificates.

aac) Other trading book: exchange-traded futures transactions and warrants on commodities and precious metals.

b) Maturities of derivatives

The total volume of derivative transactions can be classified according to maturities per April 27, 2018:

ba) Foreign currency risks trading book

	< 1 year	1-5 years	> 5 years	Total	Market value
	Nominal amount	Nominal amount	Nominal amount	Nominal amount	
	EUR in millions	EUR in millions	EUR in millions	EUR in millions	EUR in millions
OTC currency options					
Bought	65	-	-	65	0.1
Sold	-	-	-	-	-
Currency warrants					
Own issues					
Bought	208	-	837	1,045	57.9
Sold	304	-	873	1,177	./, 60.5

The “foreign currency risks” trading book consists primarily of options on the price of gold and the US Dollar. The cash flow anticipated from the derivatives depends mainly on how the underlying performs. As of the balance sheet date, the book contained both European options (exercise possible only at the end of the term) and American options (exercise of the option possible throughout the entire term).

bb)Equities and index trading book

	< 1 year Nominal amount	1-5 years Nominal amount	> 5 years Nominal amount	Total Nominal amount	Market value
	EUR in millions	EUR in millions	EUR in millions	EUR in millions	EUR in millions
Third-party equity warrants					
issuers					
Bought	1	2	-	3	0.3
Stock warrants					
Own issue					
Bought	5,447	1,081	4,723	11,251	2,549.7
Sold	7,827	1,781	5,007	14,615	,/, 2,748.4
OTC stock options					
Bought	55	1	-	56	2.1
Sold	17	-	-	17	,/, 0.4
Third party index warrant issuers					
Bought	10	-	-	10	0.8
Index warrants					
Bought	9,300	55	7,312	16,667	1,716.4
Sold	9,799	69	7,430	17,298	,/, 1,734.1
Exchange-traded					
index futures					
Bought	105	-	-	105	0.9
Sold	161	-	-	161	,/, 1.1
Exchange-traded					
index options					
Bought	345	4	-	349	5.0
Sold	208	25	-	233	,/,3.6
Index-traded					
stock options					
Bought	1,813	268		2,081	133.8
Sold	317	7	-	324	,/, 22.3
Index and					
equity certificates					
Own issues					
Bought	194	13	355	562	871.5
Sold	533	66	323	922	,/, 1,283.0

The “other price risks” includes mostly options on European and American stocks and options on European and American exchange indexes. The cash flow anticipated from the derivatives depends mainly on how the underlying performs. As of the balance sheet date, the book contained both European options (exercise possible only at the end of the term) and American options (exercise of the option possible throughout the entire term).

bc) Other trading operations

	< 1 year Nominal amount	1-5 years Nominal amount	> 5 years Nominal amount	Total Nominal amount	Market value
	EUR in millions	EUR in millions	EUR in millions	EUR in millions	EUR in millions
Options on commodities and precious metals					
Own issue					
Bought	8	129	-	137	34.7
Sold	11	134	-	145	,/36.7
Exchange-traded precious metal futures					
Bought	38	-	-	38	,/ 0.6
Sold	-	-	-	-	-

The “other trading operations” trading book includes above all options on the price of oil, gold and silver. The cash flow anticipated from the derivatives depends mainly on how the underlying performs. As of the balance sheet date, the book contained both European options (exercise possible only at the end of the term) and American options (exercise of the option possible during the entire term).

c) Counterparty credit risk in derivatives trading

As of April 27, 2018, the credit equivalents under the CRR before credit risk weighting and after regulatory netting are as follows:

Credit risk	Companies and individuals and public bodies, including central banks from Zone B	Credit institutions from Zone A	Credit institutions from Zone B
Product group	Credit equivalent in EUR '000		
Foreign currency risk and other price risks trading book	6,252	294,296	
Other trading operations	-	347	
Total	6,252	294,643	

d) Non-settled forward transactions

In connection with the option transactions, CGME (formerly CGMD) books the premium on the trade date. On the balance sheet date, this practice results in obligations arising from forward transactions that have not yet settled and that are reported in the trade balance sheet for currency risks, equity and index risks and other risks.

8. Miscellaneous notes

The sole shareholder of CGME is Citigroup Global Markets Ltd., London/Great Britain, (CGML), whose financial statements are included in the consolidated financial statements of Citigroup Inc. New York/USA.

The CGME Executive Board remains unchanged and consists of the following members:

Stefan Wintels, Frankfurt am Main, Bank Director, Chairman
Dr. Silvia Carpitella, Frankfurt am Main, Bank Director,
Thomas Falk, Hochheim am Main, Bank Director,
Stefan Hafke, Kelkheim, Bank Director,
Andreas Hamm, Dreieich, Bank Director,
Dr. Jasmin Kölbl-Vogt, Frankfurt am Main, Bank Director,
Christian Spieler, Bad Homburg, Bank Director.

The Supervisory Board consists of the following members:

Hans W, Reich, Kronberg, Bank Director, Chairman,
Bradley Gans, London, Bank Director, Deputy Chairman,
Tim Färber, Kelsterbach, Salaried Bank Employee, Employee Representative.

During the short fiscal year, CGME employed an average of 262 persons. The average period of employment (service) for staff members, who were employed in the short fiscal year, was as follows:

89 Employees	up to 5 years
53 Employees	6-10 years
60 Employees	11-20 years
60 Employees	21 years or more
262	

In the short fiscal year, total remuneration (including stock options granted) of the Executive Board was TEUR 1,314.9. Pension obligations totaled TEUR 3,007.2. In the reporting year, total remuneration of former members of management bodies and their survivors totaled TEUR 514.3. Liabilities for pensions and early retirement obligations owed to former members of the management bodies and their survivors totaled TEUR 44,594.2.

In the short fiscal year, no shares were granted as variable compensation to members of the Executive Board.

In the short fiscal year, no supervisory board remuneration was paid. CGME is exercising its elective right under § 286 (4) HGB regarding disclosures about provisions (accrued liabilities) for current pensions and pension expectancies (*Anwartschaften*) of the supervisory board members under § 285 (9) b HGB.

In the short fiscal year, the members of the advisory board (*Beirat*) were paid no compensation for their work.

As of the end of the short fiscal year, there were no outstanding loan obligations owed by members of the Executive Board of CGMD.

9. Supplementary report

Based on the resolution adopted by the special shareholders' meeting of May 30, 2018, the fiscal year was once again changed. The fiscal year is the calendar year. For the period from April 28, 2018 through December 31, 2018, a short fiscal year is being established.

The change in the registered name from what was formerly Citigroup Global Markets Deutschland AG (CGMD) into Citigroup Global Markets Europe AG (CGME) was entered in the Commercial Register on June 15, 2018.

Report from the Supervisory Board of Citigroup Global Markets Europe AG

for the Short Fiscal Year January 1, 2018 through April 27, 2018

Throughout the short fiscal year, the Supervisory Board continually received verbal and written reports from the Executive Board about the condition of the Company and its business development. The Supervisory Board Chairman solicited regular, timely and comprehensive reports from the Executive Board about the course of business and about key developments at the Bank and in the Group and monitored them even between meetings. The focal issues here included, among other things, the effects of Brexit on the Company's direction and strategic plan. The Supervisory Board also grappled with the Company's risk situation, the outsourcing of the banking business to Citibank Europe plc, Germany Branch and the outsourcing services. The Supervisory Board thereby monitored the Company's management in accordance with the statutory provisions, the Company's articles and memorandum of association and the Supervisory Board's own internal rules of procedure.

The Supervisory Board held one regular meeting during the short financial year. The Supervisory Board also held four special meetings that addressed the Company's positioning in light of Brexit and the related structural reorganization of the Company into a securities trading bank.

The subject of the regular Supervisory Board meeting was the report from the Executive Board on the current condition of the Company, including *inter alia* the basis of the risk report. No personnel decisions needed to be made. The composition of the Executive Board remained unchanged during the reporting period.

Given its size, the Supervisory Board once again did not form any separate committees.

In the special shareholders' meeting of Citigroup Global Markets Deutschland AG held on May 30, 2018, the shareholders' meeting adopted a resolution to change the Company's registered name. As of June 15, 2018, Citigroup Global Markets Deutschland AG is operating under the registered name, Citigroup Global Markets Europe AG.

The annual financial statements and management report for the short fiscal year beginning on January 1, 2018 and ending April 27, 2018, including the bookkeeping system, were audited by KPMG AG Wirtschaftsprüfungsgesellschaft, Frankfurt am Main, and were found to comply with the applicable statutory provisions and the Company's articles of association. The annual financial statements and management report were issued an unqualified auditor's report (*uneingeschränkten Bestätigungsvermerk*). We agree with the audit report.

Based on the completed results from the audit of the annual financial statements for the short fiscal year and the management report as undertaken by the Supervisory Board, there have been no reservations raised. At its meeting on August 22, 2018, the Supervisory Board approved the annual financial statements for the short fiscal year as submitted by the Executive Board and approved the management report.

The Supervisory Board thanked the Executive Board members and the employees for their extraordinary commitment during the Company's transition into a securities trading bank and their contributions in achieving the Company's defined goals.

Frankfurt am Main, August 22, 2018

The Supervisory Board

Hans W. Reich
Chairman

1 Auditors' Report

As a result of our audit, we have issued the following unqualified audit report (*uneingeschränkten Bestätigungsvermerk*):

Audit Report from the Independent Auditor

To Citigroup Global Markets Europe AG, Frankfurt am Main

Report on the Audit of the Annual Financial Statements and Management Report

Audit opinion

We have audited the annual financial statements of Citigroup Global Markets Europe AG (until June 14, 2018: Citigroup Global Markets Deutschland AG), Frankfurt am Main, comprising the balance sheet as of April 27, 2018, the income statement, the cash flow statement and the statement of changes in equity, for the short fiscal year from January 1, 2018 through April 27, 2018, as well as the notes to the annual financial statements, including the presentation of the accounting and valuation policies. In addition, we have audited the management report of Citigroup Global Markets Europe AG for the short fiscal year from January 1, 2018 through April 27, 2018.

Based on the findings made from our audit, we hereby affirm that

- the accompanying annual financial statements comply in all material respects with the German commercial laws applicable to institutions and, in accordance with German principles of proper accounting, give a true and fair view of the net assets and financial position of the Company as of April 27, 2018, as well as its results of operations for the short fiscal year from January 1, 2018 through April 27, 2018 and
- the accompanying management report as a whole gives a true and fair view of the Company's situation. This management report is consistent in all material respects with the annual financial statements, complies with the German statutory provisions and correctly presents the opportunities and risks of future development.

In accordance with section 322 (3) sentence 1 of the German Commercial Code (HGB), we hereby affirm that our audit did not lead to any reservations with respect to the propriety (*Ordnungsmäßigkeit*) of the annual financial statements and management report.

Basis for the audit opinion

We conducted our audit of the annual financial statements and management report in compliance with section 317 HGB and Regulation (EU) No. 537/2014, which governs the statutory audit of European public-interest entities (hereinafter referred to as "EU-APrVO") and the German generally accepted principles for the audit of financial statements as promulgated by the Institut der Wirtschaftsprüfer (IDW) [German Institute of Auditors]. Our responsibility under these provisions and principles is described in detail in the section of our audit report entitled, "Responsibility of the auditor for the audit of the annual financial statements and the management report". We are independent from the Company in compliance with German laws and professional regulations, and we have fulfilled our other German professional duties in compliance with these requirements. Moreover, pursuant to Art. 10 (2)(f) EU-APrVO, we hereby affirm that we have not performed any prohibited non-audit services referenced in Art. 5 (1) EU-APrVO. We believe that the evidence obtained is sufficient and suitable to provide a basis for our audit opinions about the annual financial statements and management report.

Particularly important audit issues in the audit of the annual financial statements

Particularly important audit issues are such matters that in our due discretion were most important in our audit of the annual financial statements for the short fiscal year from January 1 to April 27, 2018. These matters were taken into account as a whole in connection with our audit of the annual financial statements and in the formation of our audit opinion; we do not issue a separate audit opinion regarding these matters.

Determination of fair value with the help of valuation models for the valuation of the trading portfolio

Please refer to Note 3 for more information regarding the accounting and valuation policies applied by CGME. Please refer to Note 7 regarding the composition of the derivatives transactions in the trading portfolio on the assets and liabilities side of the balance sheet.

THE RISK FOR THE FINANCIAL STATEMENTS

The transactions of the trading portfolio are measured at fair value and relate to the issue of warrants and certificates, the associated hedging transactions (i.e., OTC-traded and exchange-traded derivatives) as well as any buybacks from market maker activity. At 87.1% of total assets and 86.8% of total equity and liabilities respectively (EUR 5,928.5 million and EUR 5,907.7 million, respectively, in absolute amounts), the balance sheet items related to the trading portfolio are the largest line items of annual financial statements of Citigroup Global Markets Europe AG.

In some cases, no market prices are observable for warrants, certificates, and OTC derivatives. The fair values are to be determined on the basis of accepted valuation methods. The selection of valuation models as well as their parameters are subject to discretionary judgments. The risk for the

financial statements in particular in this regard is that no appropriate valuation models and/or valuation parameters are used and that the trading portfolio as well as net trading income insofar are not measured or calculated in compliance with the accounting requirements.

OUR APPROACH IN THE AUDIT

Based on our risk assessment and the assessment of misstatement risk, we have based our audit opinion on both control-based audit procedures as well as substantive audit procedures. Accordingly, we performed the following audit procedures, among others:

In an initial step, we acquired a comprehensive overview of the changes in the financial instruments of the trading portfolio, the associated risks, and the internal control system with respect to the valuation of the financial instruments of the trading portfolio.

For the assessment of the appropriateness of the internal control system with respect to the valuation of financial instruments for which no market prices can be observed, we conducted surveys that included KPMG internal experts (valuation specialists) and inspected the relevant documents. After performing these tests of design, we tested the effectiveness of the established controls with the help of tests of operation

In particular, the test audit covered whether the models were validated independently of trading activity both when they were introduced as well as regularly or as needed. As part of a random sample, we audited whether the validations were conducted and documented properly and whether the implemented valuation model together with the influent valuation parameters are suitable and reasonable for the respective product. Furthermore, we audited the control of the trade transaction valuation through a trade-neutral department using parameters procured from third parties.

Moreover, our valuation specialists also carried out a subsequent valuation for a particular deliberate selection of products under materiality and risk considerations and compared the results with the values determined by the Bank. With respect to this subsequent valuation, observable pricing and market information was used to the extent possible.

OUR CONCLUSIONS

The valuation principles that are used to calculate the fair values of the trading portfolios, for which no prices can be observed on the market, are proper and in compliance with the valuation principles applied. The Company's valuation parameters underlying the valuation are reasonable as a whole.

Invoicing of intra-Group services

With regard to the accounting and valuation methods applied by Citigroup Global Markets Europe AG, we refer to Note 3.

THE RISK FOR THE FINANCIAL STATEMENTS

Of the commission income totaling EUR 34.8 million, EUR 24.2 million is attributable to brokerage commissions of affiliated enterprises. The commission expenses equaled EUR 1.5 million and include

primarily contributions from the intra-group settlement of transfer pricing. The other operating income amounted to EUR 35.4 million and includes income arising from the pass-through of expenses to affiliated enterprises in the amount of EUR 8.9 million.

As a result of the high level of global job-sharing within Citigroup, great importance has been ascribed to intra-Group service relationships both with respect to the preparation of the original bank services as well as services involving support functions. The invoicing is performed *vis-à-vis* all Citigroup entities, although the billing process, the number of transactions requiring billing and the calculation of the billing amount could be very different depending on the work or service supplied. The risk for the financial statements in this regard is that service relationships with other Citigroup entities could be incorrectly recognized and, consequently, the corresponding income and expenses might be presented in the wrong amounts.

OUR APPROACH IN THE AUDIT

Based on our risk assessment and the assessment of misstatement risk, we have based our audit opinion on both control-based audit procedures as well as substantive audit procedures. Accordingly, we performed the following audit procedures, among others:

First, we gained an overview of key product lines and services supplied by Citigroup Global Markets Europe AG, the invoicing models specified for these products and services, and the associated risks. We thereupon gleaned an understanding about the processes for the recognition, invoicing, and accounting treatment of the intra-Group services rendered and about the internal control system set up with respect thereto.

We conducted surveys and inspected the relevant documents for the assessment of the adequacy of the internal control system. The control processes regarded as relevant for our audit are intended in particular to ensure the accuracy of the income and expenses from intra-Group services and their processing. After performing these tests of design, we tested the effectiveness of the established controls with the help of tests of operation.

Finally, as part of substantive audit procedures, we audited the propriety of the manual closing entries by posing questions to management and inspecting the documentation serving as a basis. For services that are compensated based on the revenue and/or fee split method, we audited a random sampling as to whether the services were calculated and compensated correctly on the basis of the Group-wide standard and documented transfer pricing method.

OUR CONCLUSIONS

The measures implemented in the bank are suited to accurately recognize income and expenses from intra-Group services in the annual financial statements of Citigroup Global Markets Europe AG.

 True and complete accounting portrayal of the spin-out and transfer of the banking business to Citibank Europe plc, Dublin/Ireland

With regard to the restructuring of Citigroup Global Markets Europe AG and the accounting thereof, we refer to Note 1 “General Notice about the Key Legal and Business Changes”.

THE RISK FOR THE FINANCIAL STATEMENTS

Citigroup Global Markets Europe AG transferred its banking business to the German branch of Citibank Europe PLC. The first step had been to transfer by way of a spin-out to a newly formed entity (*Ausgliederung zur Neugründung*) pursuant to § 123 (3) no. 2 of the German Reorganization Act (UmwG) all of the assets in their entirety to Citigroup Europe Plc & Co. KG, which had been newly formed for the spin-out. The spin-out encompassed all assets and liabilities (whether or not these items were shown on the balance sheet) together with contract relationships, contract offers and other legal relationships that had been attributed, either exclusively or primarily, to the banking business of Citigroup Global Markets Europe AG. As consideration for the spin-out of the assets, CGME was granted the sole limited partner interest in Citibank Europe Plc & Co. KG. Citigroup Europe PLC then joined Citibank Europe Plc & Co. KG as its sole general partner. As a second step and pursuant to a separate purchase and assignment contract, Citigroup Global Markets Europe AG sold its limited partner interest in Citigroup Europe Plc & Co. KG to Citibank Europe PLC effective as of April 27, 2018. Title to the assets of Citibank Europe Plc & Co. KG thereby passed to Citibank Europe PLC as the sole remaining partner.

The business, which had been operated by CGME in prior years, was split between the now spun-out traditional banking business and the securities and investment business that CGME had retained. Since the spin-out was carried out with retroactive effect as of January 1, 2018, the bookkeeping for both divisions continued to be handled in a common general ledger system until the spin-out was formally recorded in the Commercial Register on April 27. The derecognition of the assets and liabilities related to the banking business was carried out at the time the commercial registration retroactively as of the spin-out date (January 1, 2008). In this regard, the correct and complete derecognition of the assets, liabilities, off-balance sheet obligations and the expenses and income related thereto in this system of Citigroup Global Markets Europe AG was complex. As a result of the spin-out, assets and liabilities each totaling approximately EUR 3.4 billion were transferred. There is a risk for the financial statements that the assets, liabilities, off-balance sheet obligations and the expenses and income related thereto, which are attributable to the transferred banking business, had not been correctly and completely separated and derecognized from those items relating to the securities and investment business, which would mean that the assets, liabilities, off-balance sheet obligations and the expenses and income related thereto, which were retained by Citigroup Global Markets Europe AG, had been incorrectly allocated.

OUR APPROACH IN THE AUDIT

Based on our risk assessment and the evaluation of the error risks, we have supported our audit opinion specifically on substantive audit procedures (*aussagebezogene Prüfungshandlungen*). Consequently, we have carried out, *inter alia*, the following auditing procedures:

We first gleaned an overview about the spin-out and specifically the spun-out assets, liabilities, off-balance sheet obligations and the expenses and incomes related thereto, and did so on the basis of the contracts, spin-out plans, bookkeeping documentation and discussions. We thereby gained an understanding of the technical implementation of the spin-out and assessed the accounting on the basis of the contracts. In this regard, we also evaluated the structure and design of the identified control mechanisms that were intended to ensure a correct allocation of the assets, liabilities, off-balance sheet obligations and the expenses and income related thereto.

We have audited the completeness and correctness of the data basis used to identify the spun-out assets, liabilities, off-balance sheet obligations and the expenses and income related thereto and did so by reconciling it with the general ledger.

We compared the assets, liabilities and off-balance sheet obligations, which were identified for the retroactive spin-out as of January 1, 2018, with the notarially recorded spin-out plan that had been adopted at a special shareholders' meeting on April 13, 2018. Thereafter, we reviewed the information contained in the bookkeeping related to all expenses and income and then examined – based on a deliberate sampling (*bewusste Auswahl*) according to considerations of materiality – whether the expenses and income incurred or accrued between the spin-out date (January 1, 2018) and the Commercial Register recordation date (April 27, 2018) had been attributed to the legal entities in conformity with the spin-out plan. In terms of value, the deliberate sampling in each case covered a widely predominant share of the income and the expenses.

Finally, we checked and determined that all general ledger balances, which had been attributed to Citigroup Global Markets Europe AG, were fully and correctly entered into the system for generating the annual financial statements of Citigroup Global Markets Europe AG for the short fiscal year of January 1 through April 27, 2018.

OUR CONCLUSIONS

The assets, liabilities, off-balance sheet obligations and expenses and income related thereto, which were to be spun-out, were identified in conformity with the underlying spin-out plan. Above all, we did not identify any incorrect allocation of the examined expense and income items.

Responsibility of the Company's Executive and Supervisory Board for the annual financial statements and the management report

The Company's management (Executive Board) is responsible for preparing annual financial statements that comply in all material respects with the German commercial laws applicable for institutions as well as for ensuring that the annual financial statements give a true and fair view of the net assets, financial position and results of operations of the Company in accordance with German principles of proper accounting. Furthermore, the management is responsible for the internal controls that it has deemed necessary in accordance with German principles of proper accounting in order to facilitate the preparation of annual financial statements that are free from intentional or unintentional material misstatements.

When preparing the annual financial statements, the management is responsible for assessing the ability of the Company to continue as a going concern. Furthermore, it is responsible for disclosing, to the extent relevant, any matters related to the continuance of the Company as a going concern. Moreover, the management is also responsible for preparing the annual financial statements based on the assumption that the Company will continue as a going concern unless factual or legal circumstances contradict this assumption.

In addition, the management is responsible for preparing the management report, which as a whole gives a true and fair view of the Company's situation and is consistent in all material respects with the annual financial statements, complies with the German statutory provisions and correctly presents the opportunities and risks for future development. The management is also responsible for taking actions and measures (systems) that it believes are necessary to be able to prepare a

management report in accordance with the applicable German statutory provisions and to provide sufficiently suitable documentation for the statements made in the management report.

The Supervisory Board is responsible for monitoring the accounting process of the Company for the preparation of the annual financial statements and the management report.

Responsibility of the auditor for the audit of the annual financial statements and the management report

Our objective is to obtain reasonable assurance as to whether the annual financial statements as a whole are free and clear of any – intended or unintended – material false statements and whether the management report as a whole gives a true and fair view of the Company's situation, is consistent in all material respects with the annual financial statements and with the findings gleaned from the audit, complies with the German statutory provisions, and correctly presents the opportunities and risks of future development and to issue an audit report that includes our audit opinions regarding the annual financial statements and the management report.

Reasonable assurance is a high level of certainty but not a guarantee that an audit conducted in accordance with section 317 HGB and the EU-APrVO as well as the German generally accepted standards for the audit of financial statements promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can result from violations or errors and are considered to be material if it can be reasonably expected that they individually or collectively influence the financial decisions made by addressees on the basis of the annual financial statements and the management report.

During the audit, we exercise due discretion and maintain professional skepticism. In addition:

- We identify and assess the risk of intentional or unintentional material misstatements in the annual financial statements and management report, plan and perform audit procedures as a reaction to this risk and obtain audit evidence that is sufficient and suitable to serve as the basis for our audit opinions. The risk that material misstatements are not detected is higher with violations than in the case of errors, since violations can involve fraudulent cooperation, falsification, intentional omissions, misleading disclosures and/or the suspension of internal controls.
- We gain an understanding of the internal control system that is relevant for the audit of the annual financial statements and of the arrangements made and measures taken that are relevant for the management report audit in order to plan audit procedures that are appropriate under the given circumstances, but not with the goal of issuing an audit opinion on the effectiveness of these Company systems.
- We assess the appropriateness of the accounting policies applied by the Company's statutory representatives (management) as well as the reasonableness of the estimated values presented by the management and any associated disclosures.
- We draw conclusions on the appropriateness of the going-concern accounting principle, as applied by the Company's management, as well as whether there is significant uncertainty in connection with events or circumstances based on the audit evidence obtained that could raise considerable doubts about the Company's ability to continue as a going concern. If we come to the conclusion that there is significant uncertainty, we are obligated to make reference in the auditors' report to the associated disclosures in the annual financial statements or in the management report, or to

modify our audit opinion if these disclosures are inappropriate. We draw our conclusions on the basis of the audit evidence obtained by the date of our auditors' report. However, future events or circumstances can lead to a situation in which the Company can no longer continue as a going concern.

- We assess the overall presentation, structure, and contents of the annual financial statements, including the disclosures and whether the annual financial statements present the underlying transactions and events such that the annual financial statements give a true and fair view of the Company's net assets, financial position and results of operations in accordance with German principles of proper accounting.
- We assess the consistency between the management report and the annual financial statements, its compliance with the statutes, and the view conveyed by the report regarding the status and situation of the Company.
- We perform the audit concerning the forward-looking statements in the management report as described by the management. On the basis of sufficiently appropriate audit documentation, we are able to comprehend and track specifically the key assumptions that serve as the basis for the forward-looking statements provided by management and can evaluate the proper derivation of the forward-looking statements based on those assumptions. We are not issuing a separate audit opinion regarding the forward-looking statements and the underlying assumptions. There is a considerable and unavoidable risk that future events will differ significantly from the forward-looking statements.

We discuss with the responsible supervisory bodies the planned scope and timing of the audit as well as significant audit findings, including any defects in the internal control system that we identify during our audit.

We provide the responsible supervisory bodies with a statement affirming that we have complied with the relevant requirements for independence and discuss with them all relationships and other matters that can be reasonably presumed to have an impact on our independence as well as the related protective measures taken.

We determine which of the matters that we have discussed with the responsible supervisory bodies were most important in the audit of the annual financial statements for the current period and therefore those which are particularly important audit issues. We describe such matters in our audit report, unless laws or other legal provisions prevent their public disclosure.

Other regulatory and legal requirements

Other disclosures in accordance with Article 10 EU-APrVO

We were selected to serve as auditor by the shareholders' meeting on January 31, 2018. We were appointed by the Chairman of the Supervisory Board on June 25, 2018. We have been the auditor of Citigroup Global Markets Europe AG, Frankfurt am Main, and its predecessor entity, for more than 26 years in a row.

We affirm that the audit opinions included in this auditors' report are consistent with the additional report to the Supervisory Board in accordance with Article 11 EU-APrVO (long-form audit report).

Responsible Auditor

The auditor responsible for the audit is Klaus-Ulrich Pfeiffer.

The earnings reserves are made up of the legal reserves totaling TEUR 33,027 and other earnings reserves totaling TEUR 27,917.

Citigroup Global Markets Deutschland AG
Frankfurt am Main

Notes to the Financial Statements for Fiscal Year 2017

1. Bases of the Accounting

Citigroup Global Markets Deutschland AG, Frankfurt am Main (“CGMD”), is a German stock corporation with its registered offices in Frankfurt am Main. Since June 10, 2010, it has been recorded in the commercial register of the District Court of Frankfurt am Main under registration number HRB 88301.

On August 29, 2016 and pursuant to a shareholder resolution, the Company elected to change its fiscal year. The fiscal year had previously begun on December 1st of a given year and ended on November 30th of the following year. As of January 1, 2017, the fiscal year begins on January 1st of a given year and ends on December 31st of the same year. A short fiscal year was established for the period of December 1 through December 31, 2016. The information for the fiscal year therefore relates to December 31, 2017, whereas the information for the prior year relates to December 31, 2016. Due to the short 2016 fiscal year, the year-over-year comparisons are possible only to a limited extent only.

The subscribed capital of CGMD includes the registered share capital of EUR 210,6 million. The registered share capital is divided into 8,236,778 no-par value shares, which are held by Citigroup Global Markets Finance Corporation & Co, beschränkt haftende KG (CKG), Frankfurt am Main.

The annual financial statements for fiscal year 2017 were prepared in accordance with the German Stock Corporation Act (AktG), the German Commercial Code (HGB), and the regulations concerning financial institution accounting.

2. Accounting and Valuation Methods

Commercial law requirements concerning the valuation of ownership and liability items and relating specifically to banks were observed in the valuation of the assets and liabilities.

Money market transactions are recognized at their face value or nominal amount. Money market transactions in foreign currencies are measured on the basis of § 256a HGB in combination with § 340h HGB.

Receivables from banks are stated at the nominal amount plus accrued interest. No write-downs were required in the fiscal year.

Receivables from clients are recorded at the repayment amount plus accrued interest less any allowances established to cover loan-related risks.

The valuation (recognition) of **financial instruments in the trading portfolio** is done at fair value less a risk discount in accordance with sentence one of § 340e (3) HGB. The financial instruments are initially recognized at their cost of acquisition. In accordance with an official statement (RS BFA 2) of the Institute of Public Auditors in Germany (IDW), the follow-up valuation at fair value is based on the value at which competent parties, who are independent of one another but wish to contract, could exchange an asset or pay a liability and is performed pursuant to the hierarchical order of valuation criteria set forth in § 255 (4) HGB. Any financial instruments, for which no active market exists, will be valued using generally accepted valuation methods (above all, option pricing models). In general, these methods are based on estimates of future cash flow, while taking into account any risk factors that may apply. The most important factors are the price of the underlying, implicit volatilities, yield curves and dividend forecasts. Where the stock market price is used in the valuation, the average stock market price shall apply.

As of December 31, 2017, the risk discount equaled TEUR 301 for the foreign currency risk trading book, TEUR 3,373 for the equities and index risk trading book, and TEUR 195 for the other trading book. The underlying value at risk (VaR) figure is based on a holding period of ten business days, a confidence level of 99% and an effective historical observation period of one year.

In addition, the Bank applied - as of the balance sheet date - a discount to the Other Price Risk Trading Book in the form of a “market value adjustment” totaling TEUR 1,490, which is calculated on the basis of a mathematical method and which factors in the model-linked price risks related to derivatives as well as the potential risks of loss upon repurchasing derivatives that the Bank itself had issued.

The trading portfolio in foreign currencies is valued using the foreign exchange rates published by the European Central Bank.

Equity investments are stated at their cost of acquisition less unscheduled write-downs.

Only **intangible assets**, which have been acquired for consideration, are stated at the costs of acquisition less straight-line amortization. In the event of a permanent impairment, an unscheduled write-down is taken.

Tangible assets are stated at acquisition cost less straight line-depreciation. In the event of a permanent impairment, an unscheduled write-down is taken.

Liabilities owed to banks and **liabilities owed to clients** are stated at their settlement amount [*Erfüllungsbetrag*] plus accrued interest.

In connection with hedging the interest rate risk, the Bank recognized on its accounts numerous micro-hedges with a total of four issued **Schuldscheindarlehen** (loans that are documented with a certificate of indebtedness known as a “*Schuldschein*”) and a face value totaling TEUR 40,000. To ensure a refinancing structure with matching maturities, the fixed annual interest rate payments under the certificates of indebtedness which amounted to TEUR 2,003 were swapped for variable interest payments based on the 3-month Euribor by relying on interest rate swap agreements having matching maturities and matching amounts. On the balance sheet date, the Bank elected not to write-up the underlying transactions (*Schuldscheindarlehen*) resulting from the lower interest rate because they had been for the most part covered by the increase in the fair values [*Markwerte*] of the hedges (interest rate swap agreements). The fair value of the *Schuldscheindarlehen* is TEUR 10,048 higher than the book value. The increase in market value of the hedges was also not booked. The Bank applies the net hedge presentation method [*Einfrierungsmethode*] for the hedge established under § 254 HGB. It intends to preserve the

hedge until the underlying transactions expire. The prospective and retrospective effectiveness testing is done using the critical term match method.

The **pension provisions** were valued on the basis of the projected unit credit method. Key principles underlying the valuation are the accrual-based allocation of pension benefits during the service relationship, for which commitments have been made and obligations taken on by affiliated enterprises under debt assumption agreements [*Schuldbeitrittserklärung*], and the actuarial assumptions that are used to calculate the present cash value of such future benefits. The value of the obligation as of the balance sheet date is the actuarial present cash value of all those benefits which, based on the pension formula under the plan, are attributable to the period of service completed up to that point in time. For 2017, CGMD had calculated an amount of TEUR 939 as the period of service expense on the basis of the debt assumption agreement and then charged this amount to the impacted companies.

In order to calculate the present cash value, a discount rate of 3,68 % based on a 15-year term in accordance with the rules of the German Act to Modernize Accounting Law (BilMoG) was used as the basis. Pursuant to § 253 (2) sentence 1 HGB, the average market rate of the previous ten fiscal years was used in this fiscal year. With respect to the resulting difference, we refer to our comments on page 8 regarding the total sum of the amounts barred from payout distribution. Future salary and wage increases were estimated at 2.25%, and at the same time, a 1.7% adjustment of the current annuities was assumed. The biometrical data was taken from the Heubeck 2005G mortality tables.

As part of the efforts to hedge the pension commitments, the Bank purchased or was contractually promised units in the **Rose** fund at costs of acquisition equaling TEUR 100,256.2. In addition, liquid funds [*liquid Mitteln*] totaling TEUR 4,529.3 were transferred to Citibank Pensionsfund e. V. **Assets and liabilities were netted** in accordance with § 246 (2) sentence 2 HGB. In the current fiscal year, an expense arose from the accrual of interest on the pension obligations in the amount of TEUR 15,702.10 (prior year: TEUR 981.4), while the change in the fair value of the plan assets resulted in income of TEUR 5,337.4 (prior year: TEUR 1,796.4). These earnings components are netted and then reported under other operating expenses (in the prior year, they were reported under other operating income). The standard allocation [*Regelzuführung*] produces an expense in the amount of TEUR 3,137.6 (prior year: TEUR 218.4).

On the balance sheet date, the fair value of the plan assets that are subject to netting equaled TEUR 179,728.6 (prior year: TEUR 174,391.2). The settlement amount of the pension obligations subject to netting equaled TEUR 191,310.6 (prior year: TEUR 178,435.0) on the balance sheet date. The settlement amount that exceeded the plan assets as of the balance sheet and that equaled TEUR 11,582.0 was shown under line item “Excess of plan assets over post-employment benefit liabilities” (prior year: TEUR 4,043.8).

Pension obligations also exist under the PAS, PRS and Deferred Compensation plans, which resulted from bonus conversions.

The obligations resulting from the **PAS and Deferred Compensation** plans are linked to the fair value of the relevant fund.

The acquisition costs of the fund units in the PAS Fund (**Sondervermögen PAS**) equal TEUR 4,031.6. On the balance sheet date, the fair value (market value) of the PAS Fund assets to be netted equaled TEUR 11,497.4 (prior year: TEUR 10,260.2). The settlement amount of the liabilities to be netted equaled TEUR 11,497.4 (prior year: TEUR 10,260.2).

In the current fiscal year, the change in the fair value of the plan assets yielded income in the amount of TEUR 1,234.7 (prior year income: TEUR 647.5). In the fiscal year, current income totaling TEUR 2.4 was reported (prior year: 0.0). Since the liability under the PAS plan is linked to the fair value of the PAS fund, this yielded an expense from the accrual of interest on the liabilities in the amount of TEUR 1,237.1 (prior year: TEUR 647.5). These components of the earnings are reported on a net basis.

The costs in acquiring units of the **deferred compensation** fund totaled TEUR 8,301.7. On the balance sheet date, the fair value (market value) of the netted assets of the deferred compensation fund was TEUR 9,495.9 (prior year: TEUR 10,191.6). The settlement amount of the liabilities to be netted equaled TEUR 9,495.9 (prior year: TEUR 10,191.6).

In the current fiscal year, the discounting of the obligations yielded income in the amount of TEUR 21.4 (prior year: TEUR 2.7), and the change in the fair value of the plan assets yielded an expense of TEUR 21.4 (prior year: TEUR 2.7). These components of earnings are netted.

In connection with hedging the obligations under the bonus conversion, the Bank purchased units of the **PRS** Fund at costs of acquisition equaling TEUR 41,713.8. It netted assets and liabilities pursuant to § 246 (2) sentence 2 HGB.

In the current fiscal year, the accrual of interest on the pension obligations generated an expense totaling TEUR 3,444.7 (prior year: TEUR 286.0). The change in the fair value of the plan assets resulted in income of TEUR 74.3 (prior year: expense TEUR 14.1), Current income accrued during this fiscal year equaled TEUR 0.1 (prior year: TEUR 0.0). These components of earnings are netted and reported under other operating expenses.

The standard allocation produces an expense in the amount of TEUR 80.6 (prior year: TEUR 81.3).

On the balance sheet date, the fair value of the plan assets subject to netting equaled TEUR 49,327.1 (prior year: TEUR 46,412.4). The settlement amount of the pension obligations subject to netting was TEUR 56,218.3 (prior year: TEUR 53,514.1) on the balance sheet date. The settlement amount exceeding the plan assets as of the balance sheet date totaled TEUR 6,891.2 (prior year: TEUR 7,101.7) and was reported as an accrued liability under the item “pensions and similar obligations”.

All netted assets consist of liquid funds or units of equity funds. The funds are managed exclusively by outside asset managers, who invest in publicly listed securities according to prescribed investor guidelines. The applied fair value for the assets is based on the overview of the individual fund assets as provided by the respective manager. Alternative valuation methods are not applied.

All funds are outsourced under trusts or other fiduciary arrangements [*Treuhänderschaften*] and are therefore removed from the grasp of creditors in the event of a CGMD insolvency.

Accrued liabilities for contingent liabilities and for potential losses from open business transactions are valued at the settlement amount required on the basis of sound business judgment [*vernünftiger kaufmännischer Beurteilung*].

The other accrued liabilities or provisions have a term to maturity of less than one year, except for the obligations under employee anniversaries and involving early retirement.

On the balance sheet date, the settlement amount for the early retirement obligations equaled TEUR 2,449.0 (prior year: TEUR 3,430.5). The fair value of the pledged reinsurance policies in the amount of TEUR 2,035.0 (prior year: TEUR 2,664.9) was netted against the settlement amount of the early retirement obligations. The settlement amount exceeding the plan assets on the settlement date and totaling TEUR 414.0 (prior year: TEUR 765.6) was shown under the line item, “Other accrued liabilities”. In the current fiscal year, an expense in the amount of TEUR 64.7 (prior year: TEUR 6.8) arises from the accrual of interest on the obligations, while income in the amount of TEUR 1.2 (prior year: TEUR 11.1) is yielded from a change in the fair value of the plan assets. These components of earnings are netted and reported under other operating expenses (in the prior year, they were shown under other operating income).

The standard allocation produces an expense in the amount of TEUR 99.7 (prior year: income TEUR 9.8).

Accruals are set up in the balance sheet for **contracts and pending legal disputes** that could have an adverse effect on CGMD’s financial condition.

In light of the examination conducted to meet the requirements of setting aside a provision for threatened losses resulting from interest rate-driven transactions in the banking book [*Bankbuch*] (whether reported on the balance sheet or not) pursuant to § 340a in combination with § 249 (1) sentence 1, Alt, 1 HGB, CGMD applies the cash value approach in accordance with IDW’s official statement RS BFA 3.

The items, which are included in the loss-free valuation, relate to typical bank contractual relationships arising from the deposits and lending business and cover the entire CGMD banking book, including off-balance sheet transactions.

The future cash flows generated from such transactions as well as the risk and administrative costs are discounted to present value on the basis of a risk-free yield curve after converting into the reporting currency, if required.

Dividing the existing transactions into separate time bands according to currency is carried out on the basis of their contractually prescribed maturity dates. Net surplus (asset) positions in the respective time band are fictitiously closed out on the basis of the Bank’s own refinancing costs.

Where there are net liability positions, the fictitious lending transaction is discounted at a rate with no risk premium. Viewed as of December 31, 2017, the fictitious closeouts have little effect on the present cash value reported in the banking book. The applied risk costs recognized in the banking book were calculated using a scenario computation taken from risk management. The administrative costs were derived from the internal accounts.

The calculation as of December 31, 2017 did not produce a need for setting aside a provision to cover threatened losses from the valuation of interest-rate driven transactions.

The **total sum of the amounts, which are barred from payout distribution**, amount to TEUR 119,720.7 (prior year: TEUR 107,928.7). The amount barred from payout distribution within the meaning of § 268 (8) HGB equals TEUR 91,216.2 (prior year: TEUR 84,597.6) is yielded entirely from the capitalization of the plan assets at fair value in the amount of TEUR 250,048.9 (prior year: 241,255.4). The amount barred from payout distribution within the meaning of § 253 (6) sentence 1 HGB equals TEUR 28,504.5 (prior year: TEUR 23,331.2) and is yielded from the difference between the valuation of the pension provisions using the 10-year average interest rate pursuant to § 253 (2) sentence 1 HGB and the 7-year average interest rate. The freely available provisions exceed the total sum of the amounts that are barred from payout distribution.

Income and **expense** items are duly allocated to the period in which they were generated.

The income is allocated among affiliated enterprises of Citigroup using the so-called “GRA” (Global Revenue Allocation). Under that method, the primary allocation system is the revenue split, which applies to a number of the local sales activities.

Negative interest income and negative interest expenses are shown in the income statement line items no. 2 “Negative interest income” or no. 4 “Positive interest from loans and money market transactions” in accordance with § 340c (1) and (2) HGB in combination with § 265 (5) HGB.

In accordance with § 256a HGB, **foreign currency positions** were converted into Euros at the exchange rate set by the ECB on the reporting date and published by the German *Bundesbank* system (average spot exchange rate).

3. Notes on the Balance Sheet

a) Assets based on terms to maturity

Assets	252,336	154,941
Liabilities	192,635	2,20,105

e) Other notes

The asset item shown on the balance sheet, trading portfolio (line item 5a), is divided into derivative financial instruments totaling EUR 4,590.2 million (prior year: EUR 3,973.0 million), debt securities and other fixed-income securities in the amount of EUR 853.1 million (prior year: EUR 673.2 million), and shares and other variable-yield securities in the amount of EUR 741.2 million (prior year: EUR 380.8 million). Of the debt securities and other fixed income securities, EUR 853.1 million (prior year: EUR 673.2 million) were eligible and listed for trading on a stock market. Of the shares and other variable-yield securities, EUR 741.2 million (prior year: EUR 380.8 million) were eligible and listed for trading on a stock market.

The equity investments totaling EUR 1.1 million (prior year: EUR 1.1 million) are not eligible for trading on a stock market.

The item, which is shown as “other assets” in the amount of EUR 32.7 million (prior year: EUR 15.1 million), includes primarily tax receivables of EUR 10.2 million (prior year: EUR 5.9 million), claims under reinsurance policies of EUR 0.3 million (prior year: EUR 0.6 million) and receivables from an initial margin and totaling EUR 22.2 million (prior year: EUR 8.5 million).

The liability item,, which is shown on the balance sheet “trading portfolio” (line item 3a), is divided into derivative financial instruments in the amount of EUR 4,724.6 million (prior year: EUR 4,067.6 million), liabilities arising from issued and outstanding debt securities in the amount of EUR 1,214.2 million (prior year: EUR 966.8 million) and short positions taken on stock sales in the amount of EUR 2.4 million (prior year: EUR 0.0).

The item, “other liabilities”, in the amount of EUR 83.4 million (prior year: EUR 65.6 million) relates primarily to liabilities under the profit transfer obligations totaling EUR 66.9 million (prior year: EUR 49.2 million), liabilities arising from deferred cash bonuses owed to employees and totaling EUR 6.6 million (prior year: EUR 6.2 million), liabilities under an initial margin and totaling EUR 5.3 million (prior year: EUR 0.0), liabilities arising from the restructuring and totaling EUR 0.4 million (prior year: EUR 3.8 million), and turnover tax in the amount of EUR 0.7 million (prior year: EUR 2.6 million).

The item shown as "other accrued liabilities" relates primarily to the provisions made for bonuses, provisions set aside for investment income withholding tax and turnover tax payments, and provisions for restructuring and early retirement. The provisions for bonuses were booked on the basis of the individual employees in an amount of EUR 20.4 million (prior year: EUR 20.7 million). Provisions in the amount of EUR 9.3 million (prior year: EUR 9.2 million) relate to unpaid investment income withholding tax for prior business years and EUR 1.2 million relates to outstanding turnover tax payments arising from the warrants business. Provisions for restructuring amounted to EUR 0.6 million in the fiscal year (prior year: EUR 0.5 million). Provisions for early retirement equaled EUR 0.4 million (prior year: EUR 0.8 million) after deducting the pledged re-insurance policies in the amount of EUR 2.0 million (prior year: EUR 2.7 million).

The contingent liabilities relate to guarantees and warranty contracts. These agreements stem from guarantees made in the amount of EUR 563.5 (prior year: EUR 475.4 million). The Bank believes that the likelihood that claims will be made under the guarantees and warranty contracts, which are shown in the balance sheet, is small given the current credit-standing of the beneficiaries. We have found no evidence that would compel us to reach a different conclusion.

The Bank's loan portfolio consists of not only utilized fixed-term loans and credit facilities, which may be cancelled at any time, but also credit facilities that have not been fully utilized. Most of these credit facilities are intended to finance working capital, although a significant share of the borrowers is still not expected to utilize these credit facilities due to those borrowers' strong cash positions. Overall, the Bank does not anticipate any major changes in credit utilization, as long as overall economic conditions remain stable. Of the irrevocable loan commitments in the amount of EUR 449.1 million (prior year: EUR 492.8 million), EUR 449.1 million (prior year: EUR 481.1 million) have a term to maturity of more than one year. The loan commitments have been extended exclusively to non-banks.

As of the balance sheet date, the Bank had not engaged in any off-balance sheet transactions that fall within the meaning of § 285 no, 3a HGB and were outside the ordinary course of business.

Transactions with related parties within the meaning of § 285 no, 21 HGB are made only on an arm's length basis.

f) Other contingent liabilities

Under a type of absolute guarantee [*selbstschulderische Bürgschaft*], the Bank has assumed secondary liability for the performance of the additional funding obligations of the other member banks of the banking association known as Bundesverband deutscher Banken e.V, Berlin.

Moreover, since 2009, the Bank has taken the opportunity of participating in the credit filing system [*Krediteinreichungsverfahren*] of the German Central Bank [*Bundesbank*], Frankfurt am Main, pursuant to which the credit commitment on file serves as security for the cash funds received, CGMD did not participate in the credit filing system in the fiscal year.

Together with Citibank N.A. in New York, the Frankfurt Branch, and Citigroup Global Markets Finance Corporation & Co, KG, Frankfurt, the Bank is also liable under the debt assumption agreements of November 30, 2011 in connection with the benefits owed for the pension commitments. Commensurate indemnity payments, the amount of which tracks the period of service expense, have been contractually promised by the contracting partners.

g) Other financial liabilities

Financial liabilities under leases running until 30 June 2020 equal EUR 3.5 million *per annum* (prior year: EUR 3.4 million).

4. Notes on the Income Statement

The income and expenses included in the income statement were generated from both domestic and foreign business sources.

The persistently low interest rates, the negative yield on deposits held with the ECB as well as the weak demand for loans led to a negative net interest income of EUR 1.8 million (prior year: EUR 0.6 million). Of the negative interest income from loans and money market transactions totaling EUR 7.7 million (prior year: EUR 0.9 million), EUR 6.4 million (prior year: EUR 0.6 million) was attributable to positive interest income and EUR 14.1 million (prior year: EUR 1.5 million)

was attributable to negative interest income. Of the negative interest expenses totaling EUR 5.8 million (prior year: EUR 0.3 million), EUR 2.7 million (prior year: EUR 0.3 million) was attributable to interest expenses and EUR 8.5 million (prior year: EUR 0.6 million) was attributable to positive interest from credit and money market transactions.

Commission income equaled EUR 187.7 million (prior year: EUR 16.4 million), This is made up primarily of brokerage commissions earned by affiliated enterprises and totaling EUR 125.8 million (prior year: EUR 11.9 million), commissions from securities transactions of EUR 25.8 million (prior year: EUR 2.2 million), commissions from Eurex products of EUR 13.4 million (prior year: EUR 1.4 million) and income from payment transactions and corporate finance totaling EUR 19.9 million (prior year: EUR 0.5 million).

Commission expenses equaled EUR 9.0 million (prior year: EUR 0.1 million) and included mostly intra-group cost sharing for relationship management.

The net income of the trading portfolio resulted primarily from gains and losses of the currency risk trading book in the amount of EUR 10.5 million (prior year: EUR 0.8 million) and of the equities and index risk trading book in the amount of EUR 55.1 million (prior year: EUR 0.3 million). The negative result reported in the other trading book equals EUR 3.1 million (prior year: negative result of EUR 0.7 million) and consists mostly of results from warrants traded on commodities and precious metals and from exchange-traded futures transactions on commodities and precious metals. The negative result in the interest rate risk trading book is TEUR 4.5 (prior year: TEUR 28.1) and includes results from interest rate swap agreements.

Under the item shown as “net income from financial trading operations”, EUR 2.6 million (prior year: EUR 0.0 million) was deducted pursuant to § 340e (4) HGB and then allocated to the fund for general bank risks in accordance with § 340g HGB.

Other operating income equaled EUR 20.3 million (prior year: EUR 0.9 million) and included mostly income derived from expense pass-throughs to affiliated enterprises in the amount of EUR 18.9 million and income from subleasing in the amount of EUR 0.4 million (prior year: EUR 0.1 million).

Personnel expenses equaled EUR 72.3 million prior year: EUR 5.6 million).

The other administrative expenses totaled EUR 103.9 million (prior year: EUR 7.0 million) and consisted primarily of processing costs of Citigroup in the amount of EUR 16.4 million (prior year: EUR 1.5 million), Citi chargeouts equaling EUR 32.8 million (prior year: EUR 0.6 million), custody fees of EUR 11.1 million (prior year: EUR 1.0 million), rents totaling EUR 4.9 million (prior year: EUR 0.8 million) and costs for the listing of derivative products in the amount of EUR 7.5 million (prior year: EUR 0.5 million).

The other operating expenses equaled EUR 19.6 million (prior year: EUR 0.3 million) and included mostly expenses and income (net) from valuing the plan assets [*Pensionsdeckungsvermögens*] (PRS and Rose) and the corresponding pension obligations in the amount of EUR 13.8 million (prior year: PRS EUR 0.2 million). Additions to provisions in connection with unpaid investment income withholding tax for past business years amounted to EUR 3.7 million (prior year: EUR 0).

,
In the fiscal year, the Bank booked taxes on income and earnings from earlier years in the amount of EUR 0.7 million (prior year: EUR 0.2 million), Of that amount, EUR 0.1 million relate to taxes on income and earnings from prior years (prior year: EUR 0.0 million).

Effective as of the end of fiscal year 2008, the tax allocation agreement (*Steuerumlagevertrag*) that had been in place with Citigroup Global Markets Finance Corporation & Co, beschränkt haftende KG, Frankfurt am Main, was terminated. The expenses incurred for domestic taxes are still shown at the level of the tax group parent company [*Organträger*].

Pursuant to a profit transfer or partial profit transfer agreement, the allocated profits were transferred to Citicorp Global Markets Finance Corporation & Co, beschränkt haftende KG, Frankfurt am Main, in the amount of EUR 66.9 million (prior year: EUR 3.7 million).

5. Fees of the Annual Accounts Auditor

The total fees charged by the annual accounts auditor for the 2017 fiscal year include:

a) Annual audit services	EUR 885,200.00
b) Other certification services	EUR 219,000.00
c) Tax advisory services	EUR 0.00
d) Miscellaneous services	EUR 0.00
e) <u>Outlays</u>	<u>EUR 140,148.97</u>
f) Total	<u>EUR 1,224,348.97</u>

The other tax certification work relates to auditing compliance with various duties involving the management of securities accounts and with the reporting and conduct rules under the Securities Trading Act (*Depot-/WpHG-Prüfung*) and the review of the internal control system for the process of generating product information sheets (*PIB-Erstellungsprozess*).

6. Notes on Derivative Transactions

a) Types of derivative transactions

As of December 31, 2017, the Bank's derivative transactions included the following types of transactions:

aa) Trading transactions

aaa) Foreign currency risk trading book: OTC currency option transactions and currency warrants.

aab) Equities and index trading book: equities and other variable-yield securities in the trading portfolio, OTC stock options, equities and index warrants, exchange-traded futures and options on equities and equity indexes, as well as index certificates and equity certificates.

aac) Other trading book: exchange-traded futures transactions and warrants on commodities and precious metals.

b) Maturities of derivatives

The total volume of derivative transactions can be classified according to maturities per December 31, 2017:

ba) Foreign currency risk trading book

	< 1 year	1-5 years	> 5 years	Total	Market value
	Nominal amount	Nominal amount	Nominal amount	Nominal amount	
	EUR in millions	EUR in millions	EUR in millions	EUR in millions	EUR in millions
OTC currency options					
Bought	50	-	-	50	0.3
Sold	2	-	-	2	-
Currency warrants					
Own issues					
Bought	264	-	694	957	53.0
Sold	313	-	732	1,045	./ 56.6
Exchange-traded futures					
Bought	17	-	-	17	-
Sold	8	-	-	8	-

The foreign currency risk trading book consists primarily of options on the price of gold and the US Dollar. The cash flow anticipated from the derivatives depends mainly on how the underlying performs. As of the balance sheet date, the book contained both European options (exercise possible only at the end of the term) and American options (exercise of the option possible during the entire term).

bb) Equities and index trading book

	< 1 year Nominal amount	1-5 years Nominal amount	> 5 years Nominal amount	Total Nominal amount	Market value
	EUR in millions	EUR in millions	EUR in millions	EUR in millions	EUR in millions
Third-party equity warrants					
issuers					
Bought	6	-	-	6	0.3
Stock warrants					
Own issue					
Bought	4,525	551	4,320	9,396	2,381.8
Sold	6,314	1,029	4,677	12,020	./ 2,578.4
OTC stock options					
Bought	68	-	-	68	4.2
Sold	4	-	-	4	
Third party index warrant issuers					
Bought	125	-	-	125	1.8
Index warrants					
Bought	9,677	21	8,775	18,473	2,013.8
Sold	10,405	27	8,922	19,354	./ 2,035.3
Exchange-traded					
index futures					
Bought	218	-	-	218	./ 2.7
Sold	111	-	-	111	1.0
Exchange-traded					
index options					
Bought	397	2	-	399	3.3
Sold	128	10	-	138	./ 3.6
Exchange-traded					
stock options					
Bought	1,278	390	-	1,668	108.5
Sold	243	18	-	261	./ 18.7
Index and					
equity certificates					
Own issue					
Bought	153	12	378	543	853.1
Sold	466	40	349	855	./ 1,214.2

The Equities and index trading book includes mostly options on European and American stocks and options on European and American exchange indexes. The cash flow anticipated from the derivatives depends mainly on how the underlying performs. As of the balance sheet date, the book contained both European options (exercise possible only at the end of the term) and American options (exercise of the option possible during the entire term).

bc) Other trading operations

	< 1 year Nominal amount	1-5 years Nominal amount	> 5 years Nominal amount	Total Nominal amount	Market value
	EUR in millions	EUR in millions	EUR in millions	EUR in millions	EUR in millions
Warrants on commodities and precious metals					
Own issue					
Bought	11	-	120	131	29.1
Sold	14	-	127	141	./30.6
Exchange-traded precious metal futures					
Bought	30	-	-	30	0.7
Sold	-	-	-	-	-

The other trading operations trading book includes above all options on the price of oil, gold and silver. The cash flow anticipated from the derivatives depends mainly on how the underlying performs. As of the balance sheet date, the book contained both European options (exercise possible only at the end of the term) and American options (exercise of the option possible during the entire term).

c) Counterparty credit risk in derivatives trading

As of December 31, 2017, the credit equivalents under the CCR (Counterparty Credit Risk) before credit risk weighting and after regulatory netting are as follows:

Credit risk	Companies and individuals and public bodies, including central banks from Zone B	Credit institutions from Zone A	Credit institutions from Zone B
Product group	Credit equivalent in EUR '000		
Foreign currency risk and other price risks trading book	13,819	272,631	-
Other trading transactions	-	9,147	-
Total	13,819	281,778	-

d) Non-settled forward transactions

In connection with the option transactions, CGMD books the premium on the trade date. On the balance sheet date, this practice results in obligations arising from forward transactions that have not yet settled and that are reported in the trade balance sheet for currency risks, equity and index risks and other risks.

7. Miscellaneous notes

CGMD is included in the subgroup financial statements of Citigroup Global Markets Finance Corporation & Co, beschränkt haftende KG, Reuterweg 16, 60323 Frankfurt am Main, which is where the subgroup financial statements of Citigroup Global Markets Finance Corporation & Co, beschränkt haftende KG can also be obtained. Citigroup Global Markets Finance Corporation & Co, beschränkt haftende KG is included in the consolidated financial statements of Citigroup Inc., 388 Greenwich Street in New York, as the ultimate group parent company, which is where the Citigroup consolidated financial statements can also be obtained.

Since 2001, CGMD has had a branch in London, which carries out primarily warrant transactions.

The CGMD Executive Board consist of the following members

Stefan Wintels, Frankfurt am Main, Bank Director, Chairman
Dr. Silvia Carpitella, Frankfurt am Main, Bank Director,
Thomas Falk, Hochheim am Main, Bank Director,
Stefan Hafke, Kelkheim, Bank Director,
Andreas Hamm, Dreieich, Bank Director,
Dr. Jasmin Kölbl-Vogt, Frankfurt am Main, Bank Director,
Christian Spieler, Bad Homburg, Bank Director.

The Supervisory Board consists of the following members:

Hans W, Reich, Kronberg, Bank Director, Chairman,
Bradley Gans, London, Bank Director, Deputy Chairman,
Tim Färber, Kelsterbach, Salaried Bank Employee, Employee Representative.

During fiscal year 2017, the Bank employed an average of 267 persons. The average period of employment for staff members in 2017 was as follows:

100 Employees	up to 5 years
59 Employees	6-10 years
59 Employees	11-20 years
49 Employees	21 years or more
267	

In the fiscal year, total remuneration (including stock options granted) of the Executive Board was TEUR 7,516.7. Pension obligations totaled TEUR 2,821.1. In the reporting year, total remuneration of former members of management bodies and their survivors totaled TEUR 1,759.5. Liabilities for pensions and early retirement obligations owed to former members of the management bodies and their survivors totaled TEUR 44,715.9.

On the basis of the equity-based remuneration, approximately 25.0 thousand shares amounting to USD 1,870.3 thousand were granted as variable compensation.

In fiscal year 2017, supervisory board remuneration totaling TEUR 37.8 was granted. The Company has exercised its elective right under § 286 (4) HGB regarding disclosures about provisions for current pensions and pension expectancies [*Anwartschaften*] of the supervisory board members under § 285 (9) b.

In the fiscal year, the members of the advisory board [*Beirat*] were paid compensation totaling TEUR 547.4.

At year end, there were no outstanding loan obligations owed by members of the Executive Board of CGMD.

8. Supplementary report

In connection with Brexit and Citigroup's repositioning, a restructuring of the Group's German entities and business units is currently being planned. As part of that project, a change in the structure for the Group's holding entity CKG and its subsidiaries is under evaluation.

in March of 2018, Securities Services Division will be moved to Citigroup Europe plc. (CEP) in Ireland.

CGMD will create a short fiscal year for the period January 1 through April 27, 2018.

Report from the Supervisory Board of Citigroup Global Markets Deutschland AG
for the Fiscal Year ending December 2017

Throughout the fiscal year, the Supervisory Board continually received verbal and written reports from the Executive Board about the condition of the Company and its business development. The Supervisory Board Chairman solicited regular, timely and comprehensive reports from the Executive Board about the course of business and key developments at the Bank and in the Group and monitored them even between meetings. The focal issues here included, among other things, the effects of Brexit on the Company's direction and strategic plan, the Company's risk situation, the outsourcing of services, the allocation of costs and activities within the Group and challenges in the area of taxes. The Supervisory Board also addressed numerous legislative and regulatory changes, for example the implementation of the remuneration rules under the CRD IV Directive and the Remuneration Ordinance for Institutions (*Institutsvergütungsverordnung*). Thus, in accordance with the statutory provisions, it monitored the Company's management.

The Supervisory Board held four regular meetings during the reporting year. The Supervisory Board also held eight special meetings that addressed the Company's positioning in light of Brexit, considerations about the sale of business divisions and principles regarding Executive Board remuneration as well as the status and progress of various internal and external audits. The subject matter of all the regular Supervisory Board meetings were the regular reports from the Executive Board on the current condition of the Company, including *inter alia* the basis of the risk report. The Supervisory Board also adopted resolutions pursuant to the circulated resolution approval procedure [*Umlaufverfahren*]. No personnel decisions needed to be made. The composition of the Executive Board remained unchanged during the reporting period.

Given its size, the Supervisory Board once again did not form any separate committees.

The members of the Supervisory Board participated, under their own initiative, in educational and training programs that are required for them to perform their tasks. At the same time, the Supervisory Board Chairman held discussions with outside experts about complex topics such as risk management, regulation, accounting and corporate governance and received an outlook on the upcoming regulatory, accounting and legal issues for 2018. In this regard, he also held discussions with the European Central Bank, the German *Bundesbank*, and the German Federal Financial Supervisory Authority (BaFin).

The annual financial statements and management report for fiscal year ending December 31, 2017, including the bookkeeping system, were audited by KPMG AG Wirtschaftsprüfungsgesellschaft, Frankfurt am Main, and were found to comply with the applicable statutory provisions and the Company's articles of association. The annual financial statements and management report were issued an unqualified auditor's report (*uneingeschränkten Bestätigungsvermerk*). We agree with the audit report.

Based on the completed results from the audit of the annual financial statements and management report as undertaken by the Supervisory Board, there have been no objections raised. At its meeting on March 28, 2018, the Supervisory Board approved the annual financial statements per December 31, 2017 as submitted by the Executive Board and approved the management report.

The Supervisory Board thanked the Executive Board members and the employees for their commitment and contributions in achieving the Company's defined goals.

Frankfurt am Main, March 28, 2018

The Supervisory Board

Hans W. Reich
Chairman

1 Auditors' Report

As a result of our audit, we have issued the following unqualified audit report (*uneingeschränkten Bestätigungsvermerk*):

Audit Report from the Independent Auditor

To Citigroup Global Markets Deutschland AG, Frankfurt am Main

Report on the Audit of the Annual Financial Statements

Audit opinions

We have audited the annual financial statements of Citigroup Global Markets Deutschland AG, Frankfurt am Main, comprising the balance sheet as of December 31, 2017, the income statement, the cash flow statement, and the statement of changes in equity, for the fiscal year from January 1, 2017 through December 31, 2017, as well as the notes to the annual financial statements, including the presentation of the accounting and valuation policies. In addition, we have audited the management report of Citigroup Global Markets Deutschland AG for the fiscal year from January 1, 2017 through December 31, 2017.

Based on the findings made from our audit, we hereby affirm that

- the accompanying annual financial statements comply in all material respects with the German commercial laws applicable to institutions and, in accordance with German principles of proper accounting, give a true and fair view of the net assets and financial position of the Company as of December 31, 2017, as well as its results of operations for the fiscal year from January 1, 2017 through December 31, 2017, and
- the accompanying management report as a whole gives a true and fair view of the Company's situation. This management report is consistent in all material respects with the annual financial statements, complies with the German statutory provisions and correctly presents the opportunities and risks of future development.

In accordance with section 322 (3) sentence 1 of the German Commercial Code (HGB), we hereby affirm that our audit did not lead to any reservations with respect to the propriety (*Ordnungsmäßigkeit*) of the annual financial statements and management report.

Basis for the audit opinion

We conducted our audit of the annual financial statements and management report in compliance with section 317 HGB and Regulation (EU) No. 537/2014, which governs the statutory audit of European public-interest entities (hereinafter referred to as "EU-APrVO") and the German generally accepted principles for the audit of financial statements as promulgated by the Institut der Wirtschaftsprüfer (IDW) [German Institute of Auditors]. Our responsibility under these provisions and principles is described in detail in the section of our audit report entitled, "Responsibility of the auditor for the audit of the annual financial statements and the management report". We are independent from the Company in compliance with German laws and professional regulations, and we have fulfilled our other German professional duties in compliance with these requirements. Moreover, pursuant to Art. 10 (2)(f) EU-APrVO, we hereby affirm that we have not performed any prohibited non-audit services referenced in Art 5 (1) EU-APrVO. We believe that the evidence obtained is sufficient and suitable to provide a basis for our audit opinions about the annual financial statements and management report.

Particularly important audit issues in the audit of the annual financial statements

Particularly important audit issues are such matters that in our due discretion were most important in our audit of the annual financial statements for the fiscal year from December 1 to 31, 2017. These matters were taken into account as a whole in connection with our audit of the annual financial statements and in the formation of our audit opinion; we do not issue a separate audit opinion regarding these matters.

Determination of fair value with the help of valuation models for the valuation of the trading portfolio

Please refer to Note 2 for more information regarding the accounting and valuation policies applied by CGMD. Please refer to Note 6 regarding the composition of the derivatives transactions in the trading portfolio on the assets and liabilities side of the balance sheet.

THE RISK FOR THE FINANCIAL STATEMENTS

The transactions of the trading portfolio are measured at fair value and relate to the issue of warrants and certificates, the associated hedging transactions (i.e., OTC-traded and exchange-traded derivatives) as well as any buybacks from market maker activity. At 60.7% of total assets and 58.3% of total equity and liabilities respectively (EUR 6,184.4 million and EUR 5,941.2 million, respectively, in absolute amounts), the balance sheet items related to the trading portfolio are the largest line items of CGMD's annual financial statements.

In some cases, no market prices are observable for warrants, certificates, and OTC derivatives. The fair values are to be determined on the basis of accepted valuation methods. The selection of valuation models as well as their parameters are subject to discretionary judgments. The risk for the financial statements in particular in this regard is that no appropriate valuation models and/or valuation parameters are used and that the trading portfolio as well as net trading income insofar are not measured or calculated in compliance with the accounting requirements.

OUR APPROACH IN THE AUDIT

Based on our risk assessment and the assessment of misstatement risk, we have based our audit opinion on both control-based audit procedures as well as substantive audit procedures. Accordingly, we performed the following audit procedures, among others:

In an initial step, we acquired a comprehensive overview of the changes in the financial instruments of the trading portfolio, the associated risks, and the internal control system with respect to the valuation of the financial instruments of the trading portfolio.

For the assessment of the appropriateness of the internal control system with respect to the valuation of financial instruments for which no market prices can be observed, we conducted surveys that included KPMG internal experts (valuation specialists) and inspected the relevant documents. After performing these tests of design, we tested the effectiveness of the established controls with the help of tests of operation

In particular, the test audit covered whether the models were validated independently of trading activity both when they were introduced as well as regularly or as needed. As part of a random sample, we audited whether the validations were conducted and documented properly and whether the implemented valuation model together with the influent valuation parameters are suitable and reasonable for the respective product. Furthermore, we audited the control of the trade transaction valuation through a trade-neutral department using parameters procured from third parties.

Moreover, our valuation specialists also carried out a subsequent valuation for a particular deliberate selection of products under materiality and risk considerations and compared the results with the values determined by the Bank. With respect to this subsequent valuation, observable pricing and market information was used to the extent possible.

OUR CONCLUSIONS

The valuation principles that are used to calculate the fair values of the trading portfolios, for which no prices can be observed on the market, are proper and in compliance with the valuation principles applied. The Company's valuation parameters underlying the valuation are reasonable as a whole.

Invoicing of intra-Group services

With regard to the accounting and valuation methods applied by CGMD, we refer to Note 2.

THE RISK FOR THE FINANCIAL STATEMENTS

Of the commission income totaling EUR 187.7 million (prior year: EUR 16.4 million), EUR 125.8 million (prior year: EUR 11.9 million) is attributable to brokerage commissions of affiliated enterprises. The commission expenses equaled EUR 9.0 million (prior year: EUR 0.1 million) and include primarily intra-Group cost-sharing items for relationship management. The other operating income amounted to EUR 20.3 million (prior year: EUR 0.9 million) and include primarily income arising from the pass-through of affiliated enterprise expenses in the amount of EUR 18.9 million.

As a result of the high level of global job-sharing within Citigroup, great importance has been ascribed to intra-Group service relationships both with respect to the preparation of the original bank services as well as services involving support functions. The invoicing is performed *vis-à-vis* all Citigroup entities, although the billing process, the number of transactions requiring billing and the calculation of the billing amount could be very different depending on the work or service supplied. The risk for the financial statements in this regard is that service relationships with other Citigroup entities could be incorrectly recognized and, consequently, the corresponding income and expenses might be presented in the wrong amounts.

OUR APPROACH IN THE AUDIT

Based on our risk assessment and the assessment of misstatement risk, we have based our audit opinion on both control-based audit procedures as well as substantive audit procedures. Accordingly, we performed the following audit procedures, among others:

First, we gained an overview of CGMD's key product lines and services, the invoicing models specified for these products and services, and the associated risks. We thereupon gleaned an understanding about the processes for the recognition, invoicing, and accounting treatment of the intra-Group services rendered and about the internal control system set up with respect thereto.

We conducted surveys and inspected the relevant documents for the assessment of the adequacy of the internal control system. The control processes regarded as relevant for our audit are intended in particular to ensure the accuracy of the income and expenses from intra-Group services and their processing.

After performing these tests of design, we tested the effectiveness of the established controls with the help of tests of operation.

Finally, as part of substantive audit procedures, we audited the propriety of the manual closing entries by posing questions to management and inspecting the documentation serving as a basis. For services that are compensated based on the revenue and/or fee split method, we audited a random sampling as to whether the services were calculated and compensated correctly on the basis of the Group-wide standard and documented transfer pricing method. Furthermore, for a selection made based on aspects of materiality and risk, we have audited the billing and balance sheet recognition of intra-Group services on the basis of the cost-plus methods by inspecting the underlying documentation.

OUR CONCLUSIONS

The measures implemented in the bank are suited to accurately recognize income and expenses from intra-Group services in CGMD's annual financial statements.

Responsibility of the Company's Executive and Supervisory Board for the annual financial statements and the management report

The Company's management (Executive Board) is responsible for preparing annual financial statements that comply in all material respects with the German commercial laws applicable for institutions as well as for ensuring that the annual financial statements give a true and fair view of the net assets, financial position and results of operations of the Company in accordance with German

principles of proper accounting. Furthermore, the management is responsible for the internal controls that it has deemed necessary in accordance with German principles of proper accounting in order to facilitate the preparation of annual financial statements that are free from intentional or unintentional material misstatements.

When preparing the annual financial statements, the management is responsible for assessing the ability of the Company to continue as a going concern. Furthermore, it is responsible for disclosing, to the extent relevant, any matters related to the continuance of the Company as a going concern. Moreover, the management is also responsible for preparing the annual financial statements based on the assumption that the Company will continue as a going concern unless factual or legal circumstances contradict this assumption.

In addition, the management is responsible for preparing the management report, which as a whole gives a true and fair view of the Company's situation and is consistent in all material respects with the annual financial statements, complies with the German statutory provisions and correctly presents the opportunities and risks for future development. The management is also responsible for taking actions and measures (systems) that it believes are necessary to be able to prepare a management report in accordance with the applicable German statutory provisions and to provide sufficiently suitable documentation for the statements made in the management report.

The Supervisory Board is responsible for monitoring the accounting process of the Company for the preparation of the annual financial statements and the management report.

Responsibility of the auditor for the audit of the annual financial statements and the management report

Our objective is to obtain reasonable assurance as to whether the annual financial statements as a whole are free and clear of any – intended or unintended – material false statements and whether the management report as a whole gives a true and fair view of the Company's situation, is consistent in all material respects with the annual financial statements and with the findings gleaned from the audit, complies with the German statutory provisions, and correctly presents the opportunities and risks of future development and to issue an audit report that includes our audit opinions regarding the annual financial statements and the management report.

Reasonable assurance is a high level of certainty but not a guarantee that an audit conducted in accordance with section 317 HGB and the EU-APrVO as well as the German generally accepted standards for the audit of financial statements promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can result from violations or errors and are considered to be material if it can be reasonably expected that they individually or collectively influence the financial decisions made by addressees on the basis of the annual financial statements and the management report.

During the audit, we exercise due discretion and maintain professional skepticism. In addition:

- We identify and assess the risk of intentional or unintentional material misstatements in the annual financial statements and management report, plan and perform audit procedures as a reaction to this risk and obtain audit evidence that is sufficient and suitable to serve as the basis for our audit opinions. The risk that material misstatements are not detected is higher with violations than in the case of errors, since violations can involve fraudulent cooperation,

falsification, intentional omissions, misleading disclosures and/or the suspension of internal controls.

- We gain an understanding of the internal control system that is relevant for the audit of the annual financial statements and of the arrangements made and measures taken that are relevant for the management report audit in order to plan audit procedures that are appropriate under the given circumstances, but not with the goal of issuing an audit opinion on the effectiveness of these Company systems.
- We assess the appropriateness of the accounting policies applied by the Company's statutory representatives (management) as well as the reasonableness of the estimated values presented by the management and any associated disclosures.
- We draw conclusions on the appropriateness of the going-concern accounting principle, as applied by the Company's management, as well as whether there is significant uncertainty in connection with events or circumstances based on the audit evidence obtained that could raise considerable doubts about the Company's ability to continue as a going concern. If we come to the conclusion that there is significant uncertainty, we are obligated to make reference in the auditors' report to the associated disclosures in the annual financial statements or in the management report, or to modify our audit opinion if these disclosures are inappropriate. We draw our conclusions on the basis of the audit evidence obtained by the date of our auditors' report. However, future events or circumstances can lead to a situation in which the Company can no longer continue as a going concern.
- We assess the overall presentation, structure, and contents of the annual financial statements, including the disclosures and whether the annual financial statements present the underlying transactions and events such that the annual financial statements give a true and fair view of the Company's net assets, financial position and results of operations in accordance with German principles of proper accounting.
- We assess the consistency between the management report and the annual financial statements, its compliance with the statutes, and the view conveyed by the report regarding the status and situation of the Company.
- We performed the audit concerning the forward-looking statements in the management report as described by the management. On the basis of sufficiently appropriate audit documentation, we are able to comprehend and track specifically the key assumptions that serve as the basis for the forward-looking statements provided by management and can evaluate the proper derivation of the forward-looking statements based on those assumptions. We are not issuing a separate audit opinion regarding the forward-looking statements and the underlying assumptions. There is a considerable and unavoidable risk that future events will differ significantly from the forward-looking statements.

We discuss with the responsible supervisory bodies the planned scope and timing of the audit as well as significant audit findings, including any defects in the internal control system that we identify during our audit.

We provide the responsible supervisory bodies with a statement affirming that we have complied with the relevant requirements for independence and discuss with them all relationships and other matters that can be reasonably presumed to have an impact on our independence as well as the related protective measures taken.

We determine which of the matters that we have discussed with the responsible supervisory bodies were most important in the audit of the annual financial statements for the current period and therefore those which are particularly important audit issues. We describe such matters in our audit report, unless laws or other legal provisions prevent their public disclosure.

Other regulatory and legal requirements

Other disclosures in accordance with Article 10 EU-APrVO

We were selected to serve as auditor by the shareholders' meeting on March 29, 2017. We were appointed by the Chairman of the Supervisory Board on December 19, 2017. We have been the auditor of Citigroup Global Markets Deutschland AG, Frankfurt am Main, and its predecessor entity, for more than 25 years in a row.

We affirm that the audit opinions included in this auditors' report are consistent with the additional report to the Supervisory Board in accordance with Article 11 EU-APrVO (long-form audit report).

Responsible Auditor

The auditor responsible for the audit is Klaus-Ulrich Pfeiffer.
