It is not established in the European Union (EU) or supervised by an EU competent authority.
Date and time of production	26 August 2026 19:04 Rome local time

You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

Type

English law governed interest rate-linked notes / Return depends on the performance of the underlying / Full capital protection against market risk

Term

The product has a fixed term and will be due on 31 August 2038, subject to an early redemption.

Objectives

(Terms that appear in **bold** in this section are described in more detail in the table(s) below.)

The product is designed to provide (1) a return in the form of fixed rate interest payments and (2) repayment of the **unit reference amount** on termination of the product.

Early termination following an autocall: The product will terminate prior to the **maturity date** if, on any **autocall observation date**, the **reference level** is at or below the **autocall barrier level**. On any such early termination, you will on the immediately following **autocall payment date** receive, in addition to any final interest payment, a cash payment equal to the autocall payment of EUR 1,000.00. No interest payments will be made on any date after such **autocall payment date**. The relevant dates and **autocall barrier levels** are shown in the table(s) below.

Autocall observation dates	*Autocall barrier levels*	*Autocall payment dates*	*Autocall payments*
24 August 2027	3%	31 August 2027	EUR 1,000.00
24 August 2028	3%	31 August 2028	EUR 1,000.00
24 August 2029	3%	31 August 2029	EUR 1,000.00
26 August 2030	3%	3 September 2030	EUR 1,000.00
25 August 2031	3%	2 September 2031	EUR 1,000.00
24 August 2032	3%	31 August 2032	EUR 1,000.00
24 August 2033	3%	31 August 2033	EUR 1,000.00
24 August 2034	3%	31 August 2034	EUR 1,000.00
24 August 2035	3%	31 August 2035	EUR 1,000.00
25 August 2036	3%	2 September 2036	EUR 1,000.00
24 August 2037	3%	31 August 2037	EUR 1,000.00

Interest: If the product has not terminated early, on each **interest payment date** you will receive an interest payment calculated by multiplying the **unit reference amount** by the interest rate of 7.00% per annum and then applying the **day count fraction** to adjust this amount to reflect the length of the relevant **interest period** together with any previously unpaid interest payments if the **reference level** is at or below the **interest barrier level** on the immediately preceding **interest observation date**. If this condition is not met, you will receive no interest payment on such **interest payment date**. The relevant dates are shown in the table(s) below.

Interest observation dates	*Interest barrier levels*	*Interest payment dates*	*Interest rates*
24 August 2027	4.20%	31 August 2027	7.00% per annum
24 August 2028	4.20%	31 August 2028	7.00% per annum
24 August 2029	4.20%	31 August 2029	7.00% per annum
26 August 2030	4.20%	3 September 2030	7.00% per annum
25 August 2031	4.20%	2 September 2031	7.00% per annum
24 August 2032	4.20%	31 August 2032	7.00% per annum
24 August 2033	4.20%	31 August 2033	7.00% per annum
24 August 2034	4.20%	31 August 2034	7.00% per annum
24 August 2035	4.20%	31 August 2035	7.00% per annum
25 August 2036	4.20%	2 September 2036	7.00% per annum
24 August 2037	4.20%	31 August 2037	7.00% per annum
24 August 2038	4.20%	Maturity date	7.00% per annum

Termination on the maturity date: If the product has not terminated early, on the **maturity date** you will receive EUR 1,000.00.

Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the issuer may terminate the product early. These events are specified in the product terms and principally relate to the **underlying**, the product and the issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

When purchasing this product during its lifetime, the purchase price may include accrued interest on a pro rata basis.

Underlying	The Solactive BTP 10Y Annual Comp. 11am Yield Index (Bloomberg: SOITA10Y Index) interest rate	**Reference level**	The level of the **underlying** at 11:00 a.m. Rome local time as per the **reference source**
Underlying market	Interest rates	**Reference source**	Solactive (Structured Solutions)
Unit reference amount	EUR 1,000.00	**Final reference level**	The **reference level** on the **valuation date**

Issue price	EUR 1,000.00	**Maturity date / term**	31 August 2038
Product currency	Euro (EUR)	**Interest period**	Each period from, and including, an **interest payment date** (or the **issue date**, in the case of the initial **interest period**) to, but excluding, the next **interest payment date** (or the **maturity date**, in the case of the final **interest period**)
Subscription period	26 August 2026 (inclusive) to 30 August 2026 (inclusive)	**Day count fraction**	30/360, unadjusted
Issue date	31 August 2026	**Business days**	TARGET and NEW_YORK_CITY

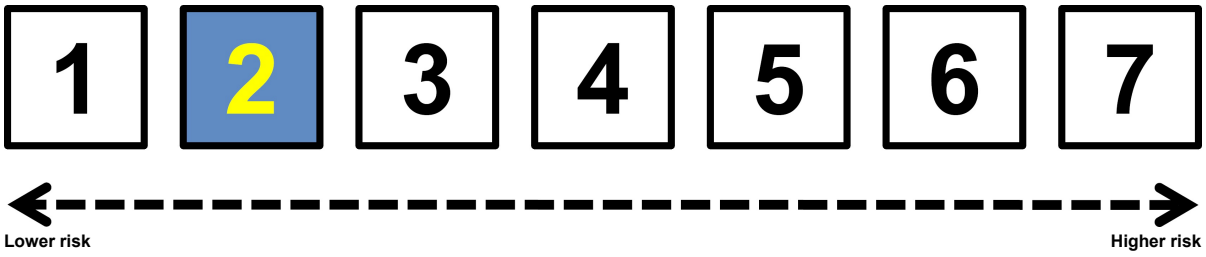

Intended retail investor

The product is intended to be offered to retail investors who fulfil all of the criteria below:

1. they have the ability to make an informed investment decision through sufficient knowledge and understanding of the product and its specific risks and rewards, either independently or through professional advice, and they may have experience of investing in and/or holding a number of similar products providing a similar market exposure;
2. they seek income and/or full protection of the the unit reference amount, subject to the issuer's and the guarantor's ability to pay, expect the movement in the underlying to perform in a way that generates a positive return. They have a long investment horizon and understand that the product may terminate early;
3. they are not able to bear any loss of their initial investment, consistent with the redemption profile of the product at maturity (market risk);
4. they accept the risk that the issuer or guarantor could fail to pay or perform its obligations under the product irrespective of the redemption profile of the product (credit risk);
5. they are willing to accept a level of risk of 2 out of 7 to achieve potential returns, which reflects a low risk (as shown in the summary risk indicator below which takes into account both market risk and credit risk).

2. What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product until 31 August 2038. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Inflation erodes the purchasing value of cash over time and this may result in the decline in real terms of any capital reimbursed or interest you may be paid under the investment.

You are entitled to receive back at least 100.00% of the unit reference amount. However, this protection against future market performance will not apply if you cash in before maturity or in case of immediate termination by the issuer.

For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:	**Until the product is called or matures** This may be different in each scenario and is indicated in the table
Example investment:	EUR 10,000

Scenarios		***If you exit after 1 year***	***If you exit after 6 years***	***If you exit at call or maturity***
Minimum	**EUR 10,000. The return is only guaranteed if you hold the product to early call or maturity. You could lose some or all of your investment.**			
Stress (product ends after 12 years)	**What you might get back after costs** Average return each year	EUR 4,720 -52.80%	EUR 6,688 -6.48%	EUR 10,000 0.00%
Unfavourable (product ends after 1 year)	**What you might get back after costs** Percentage return (not annualised)			EUR 10,700 7.00%
Moderate (product ends after 2 years)	**What you might get back after costs** Average return each year	EUR 10,600 6.00%		EUR 11,400 6.76%
Favourable (product ends after 8 years)	**What you might get back after costs** Average return each year	EUR 11,098 10.98%	EUR 13,400 4.99%	EUR 15,600 5.71%

The favourable, moderate, unfavourable and stress scenarios represent possible outcomes that have been calculated based on simulations using the past performance of the **reference rate** over a period of up to 5 years. In the case of an early redemption, it has been assumed that no reinvestment has occurred. The stress scenario shows what you might get back in extreme market circumstances. This product cannot be easily cashed in. If you exit the investment earlier than the recommended holding period, you do not have a guarantee and you may have to pay extra costs.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

3. What happens if the issuer or the guarantor is unable to pay out?

You are exposed to the risk that the issuer or guarantor might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not covered by any deposit protection scheme.

4. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different investment periods.

The duration of this product is uncertain as it may terminate at different times depending on how the market evolves. The amounts shown here consider two different scenarios (early call and maturity). In case you decide to exit before the product ends, exit costs may apply in addition to the amounts shown here.

We have assumed:

- EUR 10,000 is invested
- a performance of the product that is consistent with each holding period shown.

	If the product is called at the first possible date, on 31 August 2027	*If the product reaches maturity*
Total costs	EUR 535	EUR 535
Annual cost impact*	5.65% each year	0.46% each year

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at maturity your average return per year is projected to be 7.22% before costs and 6.76% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

	One-off costs upon entry or exit	If you exit after 1 year
Entry costs	5.35% of the amount you pay when entering this investment. These costs are already included in the price you pay.	EUR 535
Exit costs	1.00% of your investment before it is paid out to you. These costs are already included in the price you receive and are only incurred if you exit before maturity. If an early redemption occurs or if you hold the product until maturity, no exit costs will be incurred.	EUR 100

5. How long should I hold it and can I take money out early?

Recommended holding period: 12 years

The product aims to provide you with the return described under “1. What is this product?” above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 31 August 2038 (maturity), although the product may terminate early.

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (if the product is exchange traded) or (2) off-exchange, where an offer for such product exists. In such circumstances, the price quoted will take into account any costs incurred by the issuer and/or the manufacturer associated with the early unwinding of the product. In addition, the person who sold you the product may charge you brokerage fees when you sell the product (see section “4. What are the costs?”). By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

Exchange listing	EuroTLX	**Price quotation**	Units
Smallest tradable unit	1 unit		

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: SFI Sales Business Management, Citigroup Centre, 33 Canada Square, London, E14 5LB, United Kingdom, by email to: emeamtntrading@citi.com or at the following website: http://www.citigroup.com/.

7. Other relevant information

The information contained in this Key Information Document does not constitute a recommendation to buy or sell the product and is no substitute for individual consultation with your bank or advisor.

The offering of this product has not been registered under the U.S. Securities Act of 1933. This product may not be offered or sold, directly or indirectly, in the United States of America or to U.S. persons. The term "U.S. person" is defined in Regulation S under the U.S. Securities Act of 1933, as amended.

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are published on http://www.citigroup.com/, all in accordance with relevant legal requirements. These documents are also available free of charge from SFI Sales Business Management, Citigroup Centre, 33 Canada Square, London, E14 5LB, United Kingdom.
